Canada an Arsenal, Too!

The United States is not the only arsenal of democracy. Here, in Montreal, is a mass of tanks right off the assembly line, being fitted with powerful guns throwing 2-pound shells, flame throwers and other armament. Known as "Valentines," the tanks weigh approximately 20 tons and have a top speed of 25 miles an hour.

FDR Asks Japan 'Simple Question'

President Calls for
Forthright Explan-
ation of Japan's Pur-
poses in Increasing
Armed Forces in
French Indo-China.

30th Division To Discharge 3,595 Men

Washington, Dec. 3.—(AP)—Post authorities announced today that 1,749 men, more than 28 years old, would be honorably discharged December 10 from the 30th division and that 1,746 others having hardship or dependency cases would be released from the division by March.

The 30th, made up of national guardsmen and selectees, was at full strength of 15,000 enlisted men early in the fall. However, during September, 3,095 were honorably discharged after completion of a year of military service.

The question, described by Mr. Roosevelt himself as a simple question, was "Just what are Japan's purposes in increasing her armed forces in French Indo-China?"

That sprawling colony, which Thailand, the former Siam, on the east, Adelaid, Nagoya and Saitama Kusatsu, the Japanese say, separated the Wade-Holmes compact for independence to Tokyo immediately after they were called to duty by Undersecretary of State Sumner Welles, a conference yesterday.

The Roosevelt's public interest conference no break in the existing tension and officials here generally considered the situation in the Pacific in one of undiminished gravity.

George Says Federal Taxes Near Limit

Washington, Dec. 3.—(AP)—Senator George, Democrat, Georgia, said today he was convinced that federal taxes had reached near maximum levels and that the cost of the defense program would have to be spread over two or more generations by borrowing which might boost the national debt to \$150,000,000,000.

George, not in his belief in a majority of the Senate finance committee of which he is chairman, agreed with him that federal taxes already were too high as to be only a little under the maximum amount that could be drained out of the nation's income without tremendously weakening our entire economy."

While the Georgia senator told reporters he was willing to support reasonable increases in levies and to make readjustments in rates, he declared the public ought to be informed that present defense outlays could only be financed by large scale borrowing which would have to be paid back over a long period of years.

perature.

Germans Driven Back In Ukraine;

Russians In Taganrog Dutch East Indies Mobilized

Japs Massed In French Indo-China

Holland's Far East Colony Places Army and Navy on War Footing and Sends Troops to Stations in Outer Defenses.

(By The Associated Press.) The Dutch East Indies mobilized guards in her outer defenses today as Japan was reported massing powerful land, sea and air forces in southern Indo-China.

Observers were quick to point out that Japan, operating from Indo-China bases, could strike against either Thailand or the rich Indies with their resources of rubber, tin and other war needs.

Disputes from Batavia, the Indies capital, said Holland's Far East colony had placed its army and navy on a war footing and that troops had taken their stations in the outer defense sector—presumably in Boeroen, Celebes and New Guinea, north of the Malayan archipelago and nearer Japan.

Terminating the arrival of British warships at Singapore "the last strong warning to Japan," the Indies newspaper Java-daily declared:

"We hope Tokyo is not yet too blind to understand the warning."

Disputes from Bangkok, the Thai capital, said reports of warlike preparations on all sides of Thailand caused deepening anxiety there and officials expressed surprise at a statement circulated by the Japanese news agency (presumably Domei), which said:

"Even a Japanese attack on Thailand is not expected to lead to war between Japan and the United States."

Thailand has repeatedly warned Japan as well as other nations that she would resist any attempt at invasion.

Wheeler Hits Policy

Montana Senator Again Asserts Foreign Policy of Administration Leads to War.

Washington, Dec. 3.—(AP)—Senator Wheeler, Democrat, Montana, renewed his attacks on President Roosevelt's foreign policy today with an assertion that ultimately it was liable to mean the plowing under of every fourth American boy.

"Some months ago," Wheeler said in a statement to reporters, "I said the President's foreign policy meant the plowing under of every fourth American boy."

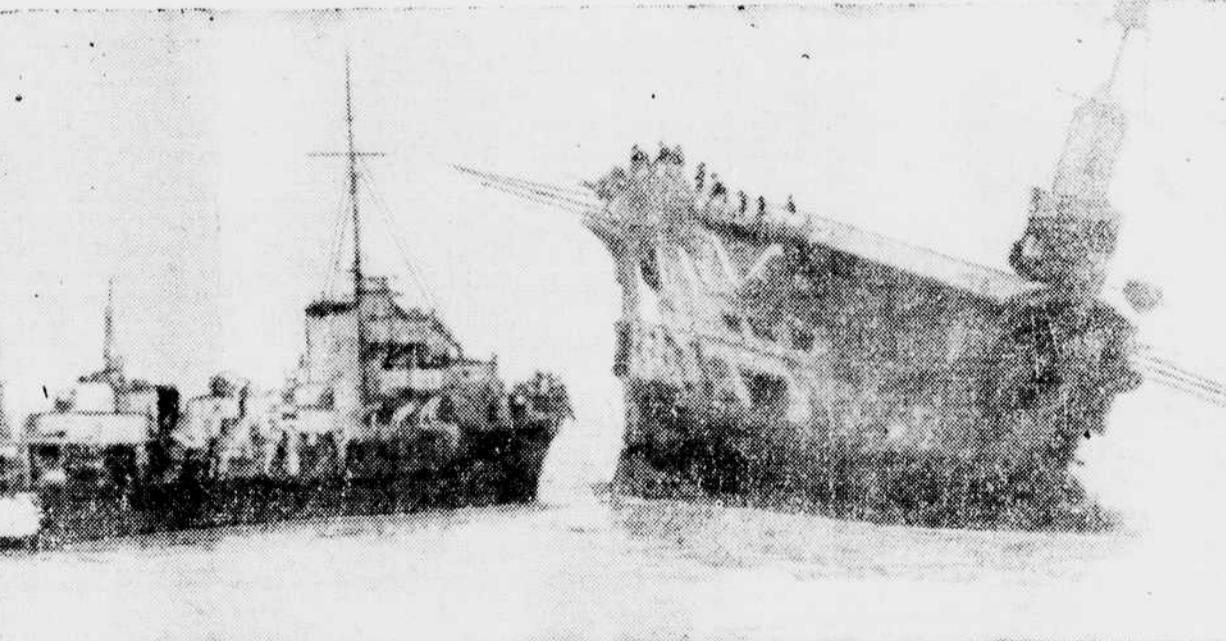

"That statement was demanded by the President, but certainly if we continue to pursue the policy that has been outlined to the President by the lawmakers within and without the administration, my former prediction will come true and we will be plowing them under not only in Europe and in Africa but in India and in China."

Wheeler saw no reason why the differences between the United States and Japan should not be settled amicably.

"The only time the administration has intimated that we should go to war with Japan is when the British empire is threatened," the Montana senator declared. "Japan has not threatened us. She has not even threatened to cut us off from any of our supplies."

While the Georgia senator told reporters he was willing to support reasonable increases in levies and to make readjustments in rates, he declared the public ought to be informed that present defense outlays could only be financed by large scale borrowing which would have to be paid back over a long period of years.

New Defense Battle For Libya Fund OK'd Loses Momentum

House Appropriations Committee Recommends \$8,243,839,031 in New Outlay.

Washington, Dec. 3.—(AP)—An additional \$8,243,839,031 appropriation—almost entirely for defense but including lend-lease funds for a vast increase in production of tanks and guns for British and Russian forces—was approved today by the House appropriations committee.

The huge new outlay would bring the total of cash and contract authorizations provided for defense since July 1, 1940 to the staggering sum of \$67,399,254,696.

In recommending the new expenditure, the committee turned down a request by the War department for broader leeway in attacking other countries on a lend-lease basis, equipment purchased for the Army in funds appropriated since last March 11, the date of enactment of the lend-lease act.

Instead, the committee recommended a \$1,056,396,216 increase in the \$12,953,600,000 already appropriated for the lend-lease program and proposed that the Army be authorized to transfer as much as \$5,000,000 worth of additional equipment to the military situation in western Europe.

Five are listed for outside continental United States.

Except for the distribution by states, the port locations were not disclosed in the transcript of committee hearings made public today.

The program, by states, included North Carolina, three, to cost \$475,642; South Carolina, one, to cost \$34,000.

New Airports Recommended

Washington, Dec. 3.—(AP)—An other expansion of the emergency airport program, 101 new fields estimated to cost \$57,365,000, was recommended to the House today by its appropriations committee.

In the program extension, New York and California would get eleven additional fields each. Oregon would get ten, Washington seven, Texas six, and Montana five.

Five are listed for outside continental United States.

Except for the distribution by states, the port locations were not disclosed in the transcript of committee hearings made public today.

The program, by states, included North Carolina, three, to cost \$475,642; South Carolina, one, to cost \$34,000.

Italian Terrorists Stand Trial

Rome, Dec. 3.—(AP)—A vast voluntary plot which included before-the-war assassination attempt against Premier Mussolini, to charge to 60 persons on trial before a fascist court at Trieste today.

The 60, including students, were declared officially to be members of an anti-fascist terrorist band of 71. The other eleven defendants were accused of being, presumably fugitives abroad.

A revolt in the northeast corner of the country, annexed from Austria after the World War, was the aim of the conspirators, the state contended. Prosecutors said communists directed a revolt to repel that could be aimed at Italy.

Burley Selis At High Price

Asheville, Dec. 3.—(AP)—The best prices since 1936 were paid on the Asheville burley tobacco market in opening sales today. In the first 40 minutes 11,073 pounds were sold for an average of \$30.72 per hundred weight.

A top price of \$43 was paid for the best grades.

Warehousemen said the average was 9.12 cents a pound more than the amount guaranteed under the federal price control program.

This was offered as a substitute for the measure sponsored by Representatives Jamespeak, Democrat, Georgia, and approved by the labor com-

Merchantmen Also Victims Of Submarine

Washington, Dec. 3.—(AP)—The Navy disclosed today, in an official report to the Senate naval affairs committee, that a number of merchant ships were damaged and some were sunk on the night of October 16-17 during the north Atlantic battle with German submarines in which the destroyer Kearny was torpedoed.

Reds Report Wild Flight From Rostov

Field Marshal Walther von Brauchitsch, Commander in Chief of Entire German Army, Reported Sent to Ukraine.

(By The Associated Press)

Russia's Ukraine armies, pressing a triumphant "counter blitzkrieg," were reported today to have advanced into the suburbs of Taganrog, 40 miles west of Rostov-on-Don, and driven the Germans out of 40 villages, while on the blizzard-swept Moscow front, other Soviet troops sent the Germans retreating back 12 to 24 miles.

A Soviet radio broadcast announced that "bloody battles were fought yesterday evening in the suburbs of Taganrog."

A Reuters (British news agency) dispatch said the Germans had fallen back 36 miles in three days in the retreat from Rostov.

On the central front, the Nazis were apparently suffering further reverses.

Quoting latest advices from Moscow, the British radio said the Russians had sent the panzer forces of Colonel General Heinz Guderian spinning in reverse.

A communiqué from Adolf Hitler's field headquarters claimed fresh gains in violent tank and infantry battles before Moscow but the Russians said the Germans had been thrown back in two key sectors and generally painted a brightening picture of the two months old battle for the capital.

In the Ukraine, Soviet dispatches said Red armies counter marching back through the Donets river industrial basin were finding the frozen bodies of Germans wrapped in flimsy blankets, huddled in roadside ditches, and that to save themselves from the bitter cold the Nazis were fighting with suicidal fury to hold villages where they could find warmth and shelter.

A London broadcast said Hitler had rushed Field Marshal Walther von Brauchitsch, commander in chief of the entire German army, to the Ukraine in an attempt to "stop the rout at all costs."

German armored reinforcements were reported hurrying along the Mariupol road to combat the Russians' growing counter offensive, which so far appeared to have buried the Germans back more than 75 miles from their farthest eastward skirmishes. According to Soviet reports, the Germans are falling back somewhere between Taganrog, 40 miles west of Rostov, and Mariupol.

Mariupol is 100 miles west of Rossot.

\$25,000,000 Fund For TVA Recommended

Knudsen Says Labor Strife Must Stop

Washington, Dec. 3.—(AP)—The House appropriations committee recommended today the appropriation of \$25,000,000 to initiate a new Tennessee Valley Authority defense power development, but ignored President Roosevelt's personal appeal for inclusion of Douglas dam in Tennessee.

In including this dam, on the French Broad river near Dandridge, the full committee upheld the action of a subcommittee which voted unanimously against the dam, opposed by Senator McKellar, Democrat, Tennessee, and a group of farmers and canners in the Dandridge area. Another group of farmers had endorsed it.

"As to labor, we have been through another rather difficult period. With production generally on the up-grade we have been subject to a test of strike, which culminated in the coal strike in November, not in most cases for wages or working conditions, but the usual demands for closed shops, union shop, preferential shops, or what not."

The appropriation was included in a general deficiency appropriation bill submitted to the House.
