Stocks Begin To Recover

New York, Dec. 10.—(AP)—The stock market displayed signs today of recovery in the way of over-coming the loss of share prices to the level of early 1940.

The recovery came after the news of Great Britain's loss of the warships Prince of Wales and Repulse. Prices slipped sharply along the line.

Later there was a turn with numerous shares swinging from the loss to the gain side and others continuing to rise. The early losses had not been completely wiped out.

DEFENSE SAVINGS NOW TWO BILLIONS

Washington, Dec. 10.—Sales of defense bonds for November amounted to \$233,467,000, it is announced by the Treasury department. The November figure surpassed total defense bond sales for the two billion dollar month, and exceeded last year's \$1,400,000,000 of bonds have been purchased by 1941. Advance program was reached on May 1 of this year. Total sales had passed the one billion dollar mark during July.
