

Cripps Wins High Post

Turn of Events Puts British Liberal in Commanding Position, Stewart Says.

By CHARLES P. STEWART
Central Press Columnist

Washington, Feb. 27.—It's all very well to say that Sir Stafford Cripps is Britain's new and great leader, that what the British people want is the great deal which will be possible to attack the situation in the West...

Eclipse of the Rising Sun!

● CHALLENGED in two hemispheres, America faces a tremendous test. But the fighters and bombers that will blot out the Rising Sun—the tanks and guns that will help smash the Swastika—are pouring off our production lines.

The biggest industrial job in all history is being done because America has the electric power for the job!

The electric industry was ready when the crisis came. The business men who manage the nation's electric companies had built up power reserves in advance—and interconnected company systems so that power could be pooled and delivered almost anywhere overnight.

They were ready, too, to meet new demands with new construction. They added enough power in 1941 to light one-fourth of all the homes in the U. S. A.

We're glad that the electric industry has been able to help make Uncle Sam so powerful. We're determined to stick to the job until the blood-red sun has set and a new day follows darkness!
