The Last War.

Most American historians record ed it simply as "the World war" up $\ensuremath{\mathsf{World}}$ til the latest strife broke loose. Euro pean scribes usually named it "the Great war." It was "the European war" until the United States cracked into it. After that it ceased to be exclusively European. It wasn't any greater or more worldwide than this one, either In fact, it wasn't as much

President Roos velt perhaps was joshing when he called for a name to fit the emergency, but the historians re serious. They're writing letters to the newspapers and breaking out into lectures and addressing themselves to college classes. They've got two wars on their

hands to get into text books, and of the previous February. they've got to have compact, pungent names to identify 'em by, and was run about 500 miles a month bethe demand for the current war's fore the war. Say the average milename is urgent.
