

# Lame Ducks Don't Carry New Required To Be Carried

### Stewart Says There Will Be Few Faces for Congressmen Defeated in November

By CHARLES E. STEWART  
Central Press Staff Writer

Washington, Jan. 5.—Time to be taken by lame ducks in the House of Representatives will be short, according to a statement by the speaker today.

It is his belief, he said, that in the past few years there have been too many lame ducks in the House, and that the time has come when the House should be made up of men who are ready to do their duty.

With our present Congress, he said, we have had too many lame ducks, and we need a new Congress.

He said that he believed that the House should be made up of men who are ready to do their duty, and that the time has come when the House should be made up of men who are ready to do their duty.

Most of the lame ducks, he said, are men who have been defeated in the election, and who are now in the House.

He said that he believed that the House should be made up of men who are ready to do their duty, and that the time has come when the House should be made up of men who are ready to do their duty.
