Nice Build-Up

Addresses Governor Brantley at a luncheon in Raleigh. The Governor is giving a nice build-up to the state. The Governor is giving a nice build-up to the state.

What the senators intend is that the United States neutrality is being overdone to our own detriment and to the suspicion of even the recipients of this bounty. Yet there are those in this assembly who talk of freeing the rest of the world after the war out of this same abundance. All of which impresses us as being but another point at which our nation might with profit endeavor to deliberate to follow and descend to world earth again instead of trying to sail perpetually in the clouds.

Small Negro boys are said to be better for this than adults and are being taken to the coast to work on fishing boats.

OVER-WINE. During the rest of the State's prohibition, the third party will have a chance to get into the State. The third party will have a chance to get into the State. The third party will have a chance to get into the State.

stand by China. The fact that Japan attacked us and became our enemy as well as that of China has softened Americans toward the Chinese people.

Coming of a little more than one hundred of these Oriental friends a year will work the harm or all effects here but will go a long way toward enhancing Chinese good will and friendship for the United States. Benefits certain to accrue well justify anticipated congressional action in replacing the absolute law. There will be general approval of sentiments expressed by the President when he said he would support the proposed legislation as important in the cause of winning the war and of establishing a secure peace.
