## GERMANS ARE PUSHED WELL BEYOND CAEN

DE GAULLE VISITS PERSHING

SEATED IN HIS ROOM at the Walter Reed Hospital, Gen. John J. Pershing (right), American commander in the last war, is pictured with Gen. Charles de Gaulle, chief of the French National Committee, during the latter's visit. Pershing told him the war is nearing its end. (International)

## Report Roosevelt Will Not Dictate His Running Mate

### Nelson Will Likely Win On Production

Washington, July 10.—(AP)—Chairman Donald Nelson's close colleagues in the War Production Board predict he will override military objections and put into effect his orders permitting limited civilian goods production.

They say, moreover, that Nelson will "water down" or compromise his announced program, which would let industry start preparations for reconversion, and, while the war continues, devote the men, machines and material not needed for munitions to the manufacture of consumer goods.

The military opposition came into the open Saturday night when the joint Army and Navy chiefs of staff made public a letter signed by Admiral William D. Leahy, chief of staff to President Roosevelt as command-in-chief. It declared: "The issuance of orders at this time which will affect our ability to produce war materials is not consistent with the all-out prosecution of the war."

Nelson's adherents reported that his original announcement said the plan would provide "precious little civilian production at present," and that accompanying steps would be taken to assure that vital manpower would not be taken from war production.

### Bombers Back Allied Smash Into France

London, July 10.—(AP)—Large forces of Allied bombers and fighters streamed across the English channel in improving weather today in support of the British and American troops advancing on the Normandy front.

During the night RAF Mosquito and Boston bombers ranged deep into France and attacked 18 trains and railroads leading to the German front, highway convoys and Seine river bridges.

German reinforcements streaming westward across the Seine near the coast just east of Le Havre on ferries and pontoon bridges were bombarded and strafed over a 30-mile stretch.

The German radio said single Allied raiders were over northwest Germany early this morning.

### FIRES UNCHECKED IN DISMAL SWAMP

Raleigh, July 10.—(AP)—Week-end rains in some eastern areas helped to curb forest fires, but the Dismal Swamp area fire continued unabated. The State Department of Conservation and Development reported today that National headquarters would be opened Saturday and Monday in the Stevens hotel in Chicago. The Democratic convention opens July 12.

## Nazi Collapse In East Grows

### Foe Retires To Lithuania And Poland

#### Capitulation Of Wilno Imminent; Germans Vicious

Moscow, July 10.—(AP)—The Red army fought for the second day in the streets of the Lithuanian capital of Wilno today, but the city appeared doomed to early capitulation.

London dispatches said the Russian army, leaving large forces of tanks and infantry to battle the Germans in Wilno, was dashing westward toward Kaunas, 50 miles beyond Wilno, as the disordered Germans fell back across Lithuania and Poland in a military collapse that grew more disastrous by the hour.

Northwest of Wilno the Russians had reached to within 30 to 35 miles of East Prussia as expected yesterday, reports said.

While some troops of the third White Russian army battered down resistance inside Wilno, others were deployed on the left flank and captured the railway junction of Lida, 50 miles to the south. The third army forces captured more than 300 other points, it was announced.

Forces of the first Baltic army struck northeast of Wilno and seized Sventyan, 45 miles from the capital, and just inside the Lithuanian border, bringing the Wilno-Daugavpils railroad under fire.

The Nazi garrison in Wilno fought stubbornly for every street, square and house in the city, but with the line southwest to Dravstokas and northwest to Kaunas the only remaining rail communication, it appeared doomed to early destruction.

The second White Russian army, which has been lagging behind the others in the offensive, crossed the Lida-Barnauwe railroad, taking two towns including Dravstokas, 30 miles south of Lida and Novogrudok, the same distance to the southeast.

A Soviet war bulletin asserted the Russians had captured the main rail way station and airport in Wilno and were inflicting tremendous losses on the Germans.

But he is represented as not prepared to dictate a choice to the convention, which starts July 19 in Chicago. And if the convention discards Wallace, it would be the party taking the action rather than the President, who is noted for loyalty to the men he places around him.

Wallace has his supporters, but there is a strong element of opposition to him in party ranks, much of it from the South. Virginia emphasized that Saturday by voting to instruct its 24 delegates to the convention to ballot against Wallace for renomination. Virginia left her delegates un instructed on the presidential issue, but told them to vote as a unit.

Wallace, in a radio broadcast at Seattle yesterday, remarked that "unfair freight rates" had long held back the Northwest. In the same connection, Senator Stewart, Tennessee Democrat, and at Washington that he intends to sponsor a platform plank advocating rail rate parity for the South and West, with the East.

Governor J. M. Bevelton, of North Carolina, a candidate for the vice presidential nomination, said at Chicago that victory, jobs and peace will be the Democrats' three great issues.

#### To Leave Wallace To His Fate With Chicago Meeting

By The Associated Press

The word spread in Democratic circles today that President Roosevelt apparently has decided to let Henry A. Wallace stand or fall on his own record and to leave entirely to the Democratic National Convention the choice of a 1944 vice presidential nominee.

They say, moreover, that Nelson will "water down" or compromise his announced program, which would let industry start preparations for reconversion, and, while the war continues, devote the men, machines and material not needed for munitions to the manufacture of consumer goods.

The military opposition came into the open Saturday night when the joint Army and Navy chiefs of staff made public a letter signed by Admiral William D. Leahy, chief of staff to President Roosevelt as command-in-chief. It declared: "The issuance of orders at this time which will affect our ability to produce war materials is not consistent with the all-out prosecution of the war."

#### DALLAS IN TRIBUTE TO DR. GEO. TRUETT

Dallas, Texas, July 10.—(AP)—With simple rites Dallas and the oil capital world today paid funeral tribute to Dr. George W. Truett, famous preacher and international religious leader, who died Friday.

Rev. Leslie D. Newton, Atlanta, Ga., pastor, was to deliver the funeral oration at 4 o'clock.

Today flags at the halls of state flew at half mast.

#### BROUGHTON OPENS QUARTERS MONDAY

Raleigh, July 10.—(AP)—The Bringtton for Vice President Committee announced today that National headquarters would be opened Saturday and Monday in the Stevens hotel in Chicago. The Democratic convention opens July 12.

#### CAPITAL OF SAIPAN AFTER AMERICAN BLASTING

JUST THE WALLS of buildings remain after U. S. land, sea, and air forces had shelled and bombed Saipan, in the Marianas. When this photo was taken, the city was still the scene of bitter street fighting between our forces and the retreating Japs. Since the island was invaded, our troops have buried approximately 6,000 Japanese officers and enlisted men. (U.S. Signal Corps)

## Polio Cases Now Number 255 In N. C. Hard Blows At Japs

### Epidemic Hasn't Reached Its Peak, Officials Think

Raleigh, July 10.—(AP)—Health officers from seven southern states said today there was little expectation of an infantile paralysis outbreak in their states, but North Carolina spokesmen reported they already had records of 275 cases since June 1 and they feared the peak had not been reached.

Health officers from Kentucky, Mississippi, Georgia, Virginia, Florida, South Carolina and Tennessee showed the percentage of infantile paralysis in their numbers about normal.

All spokesman said preparations

## De Gaulle Happy Over FDR Views

### Strategic Value Of Pacific Island Declared Immense

U. S. Pacific Fleet Headquarters, Pearl Harbor, July 10.—(AP)—Vast new possibilities of sea and air smashups toward Japan and the Philippines opened into view today with the conquest of Saipan and Noenoshima Islands in the western Pacific.

Following America's entry into the war Saturday from bases in Japan, the Japanese garrison, trapped in a 20-mile-mesh tip of Saipan, may as soon as possible attempt to break through to the nearest friendly port, Lae, 100 miles away. Allied forces made contact with Douglas MacArthur's command base on Noenoshima near Manila, where they arrived yesterday.

The strategic value of Saipan is immense.

"Saipan offers the best possibilities for airfield development in any of the islands captured from the Japanese in the central Pacific campaign," said Vice Adm. John H. Hoover, commander of the central Pacific forward area.

Hoover said the Japanese had been forced to abandon the northern portion of the island, which had been held by the Japanese since 1941. The Japanese had concentrated their defense on the southern portion of the island, which had been held by the Japanese since 1941.

The Japanese had also abandoned the northern portion of the island, which had been held by the Japanese since 1941. The Japanese had concentrated their defense on the southern portion of the island, which had been held by the Japanese since 1941.
