"I don't know how to begin this letter to you for I know your distress must be very great and I have no words that can offer any comfort, for I know so well from experience that there are none. I lost my own husband when my boy was five years old.

"I am sending you his photograph from the studio separately. It is a grand picture of him, but I don't so much like the colored one, but he wanted it done for you.

May Prohibit Liquor Sales V-Day Here

Consideration is being given to a suggestion that liquor sales be prohibited and that the local liquor store be closed during V-Day—the day that Germany surrenders, and this would be a part of observance of the day planned by Henderson merchants, it was learned today.

The merchants' division of the Henderson Chamber of Commerce has made extensive plans for observance of V-Day, including closing of their places of business, and services of thanksgiving and prayer in churches in the city. Members are being polled to determine if they approve the suggestion that the ABC board be asked to close the liquor store also.

There appears to be general agreement that the civilian celebration will be boisterous, if not wild. In areas surrounding military camps it is expected that every man who can get out will do so and will add to the celebration. In Detroit, the liquor commission has prohibited sale of all alcoholic beverages for 24 hours following the armistice, or surrender. Some believe that dangers of disorders would be lessened if all ABC stores were closed and sale of all beers and wines prohibited for at least 24 hours.

USE IT IN THE MASH
Progressive poultry raisers and hatcheries all over the United States use Dr. Salsbury's Avi-Tab regularly. Many report benefits and improvements.
This is because in many flocks there are some birds which a tonic appetizer will benefit. Perhaps you have some birds like that in your flock right now. If so, try a ten-day treatment with Dr. Salsbury's Avi-Tab. Watch how those birds respond.

Because of the present critical tire shortage...
Please DON'T TRAVEL OVER LABOR DAY!
In the whole period of the war this Labor Day will be the most critical for transportation. Intercity buses simply cannot carry all the people who will need or want to travel—because hundreds of these buses are temporarily standing idle, without tires.
Your help is needed in meeting this crisis. Even if your Labor Day trip is highly essential, postpone it a few days if you possibly can. If you must go, please be prepared for possible delays and unavoidable crowding.
Nothing would give us greater pleasure than to serve you now—but the urgent needs of war come first. We know you will understand and cooperate as you have always done.
We feel sure that it won't be long until all our buses are back in service. With a proud war record behind them, and an urgent job of transporting manpower still ahead, America's buses must be kept rolling!
