From where I sit... by Joe Marsh

What Made Our Invasion a Success?

With 57 blue stars on our Service Flag, our town's been mighty excited over the way things are progressing on the Continent.

"Shucks," says Bob Newcomb happily, "I knew we were going to lick them Nazis, soon as the Invasion started."

"I knew it before that," says Doc Hollister. "I knew it from the way our boys were getting along with their British buddies in those English camps. They had a lot of differences to overcome before they could work together as a team. And they overcame 'em."

From where I sit, Doc's mighty right. The success of our Invasion began months ago—when the English Tommies and the GI Joe's got together over friendly beer, and games of darts—and learned to like each other in spite of differences in tastes and habits.

And that spirit of tolerance and understanding between men and nations will go far towards building a secure Peace, too.
