Undergoes Operation

E. F. Perry underwent a serious operation at Wake Forest hospital today and this afternoon was expected to be doing as well as could be expected.

RELIEVES HEADACHES

BC

...and soothes Nerves upset by

HEADACHE and NEURALGIA

The prescription-type ingredients in the "BC" formula are readily assimilated. That's why "BC" offers instant relief from headaches, neuralgia, muscular aches and tension headaches.

Nerves ruffled and upset by pain are also soothed by the quick-acting "BC" ingredients. Keep a 10c or 25c package handy. Use only as directed. Consult a physician when pain persists.

THEY STARTED IT!

PERPETRATORS of friendship and unwarranted attack, the Japanese nation must be made to pay dearly for their brutality. They started this war—and we're going to finish it in such a way that the flag of the rising sun will never rise again in uncivilized aggression. Each one of us wants this war to be over with—but wanting isn't enough! We've got to see to it that it's over with soon, by buying an extra \$100 War Bond without delay!

LET'S FINISH IT!

In our gratefulness for the progress of the war in Europe, we must not forget the terrifically costly war waging in the Pacific. Moving supplies up there is far more difficult and expensive than it is to get them to the European theatres. That's why we must "fight" all the harder from now until our War Bond purchases have made possible clinching the final Victory and returning every live war hero home!

TAKE YOUR FERTILIZER NOW

War Food Administration WARNS...
"NOW OR NEVER FOR 1945"

There's a crisis in the making! If stocks pile up in fertilizer plants and agents' warehouses, the stream of supply will choke up. They must move fast or the lack of man-power will cause a paralyzing shortage.

Take the Chilean Nitrate situation for example. To supply the quantity needed for 1945 crops, many cargoes must be unloaded each month at each port, then moved out by train and truck for immediate allocation. It must move out of agents' hands as fast as it moves in. If not, the choke-up starts and works back to the ports, even back to the ships.

Already there's a threatened shortage of nitrogen, due to sharply increased war needs. Unless you help smash the bottle-neck by taking your nitrate as soon as it is offered, the shortage will become acute. Thousands of tons will pile up at U.S. ports or on the docks in Chile. The only place Chilean Nitrate does you any good is on your crops. Get yours now... while you can.

Storage Tips

- Pile all materials on dry boards in barn or shed.
- Pile materials separately.
- Keep piles close together.
- Destroy the bags when you use the contents.

Buy Your Fertilizer NOW... Take it NOW... Store it Till It's Needed

Natural CHILEAN NITRATE of SODA

White Boys Held For Breaking In Service Center
