## HOME FROM PACIFIC WITH TRINKET FOR WIFE

LIKE ANY OTHER SAILOR HOME FROM THE SEA, Fleet Admiral Chester W. Nimitz comes with gifts for his loved ones. Arriving in Oakland, Calif., he is shown presenting to his wife a necklace he brought from Honolulu. Seated at right is California's Governor Earl Warren, who accompanied the Admiral and Mrs. Nimitz from Oakland Airport to a hero's welcome in San Francisco. (International Soundphoto)

## Truman's Atom Bomb Proposal Heads For Congressional O. K.

Washington, Oct. 4.—(AP)—President Truman plans for iron-clad domestic control of atomic energy appeared bound today for early Congressional approval. Democratic Leader Barkley listed it as "very high priority" legislation in the Senate. But legislators made it plain at the same time that they want a hand in deciding how much to tell the rest of the world about the atomic bomb. None disputed Mr. Truman's previous promise that the American people must "use the knowledge we have won, not for the devastation of war but for the future welfare of humanity."

### Barkley Lists Plan As High Priority; Legislators Say They Want to Decide

Mr. Truman separated the biggest chunks into home and abroad classification by a message to Congress. He called first for creation of a commission to study the problem. 1—Control all mineral sources of atomic energy, plants and stock piles. 2—Conduct all necessary research, experiments and to further development for military, industrial, and scientific purposes. 3—Issue licenses for private operation based upon a policy of widespread distribution of peace-time products on equitable terms, which will prevent monopoly. 4—Permit production, import and export of energy-producing substances and energy-producing substances.

## Telephone Workers To Strike

Charlotte, Oct. 4.—(AP)—Telephone workers in all North and South Carolina cities, which the Southern Bell System operates, are expected to join in Friday's four-hour lay-off to hold a strike vote. Paul Summerville, chairman of all departments of the Charlotte branch of the Southern Federation of Telephone Workers said today.

## President Disbands WPB; Civilian Agency Set-Up

Washington, Oct. 4.—(AP)—President Harry S. Truman today signed an executive order abolishing the War Production Board and replacing it with a Civilian Production Administration. Press Secretary Charles G. Ross said that WPB Chairman J. A. Krug was resigning, effective November 3. When the civilian production agency takes over with J. D. Small as administrator. Small is now chief of staff for the WPB. The President's order set up the Civilian Production Administration under the Office for Emergency Management. It is expected to function as an arm of the Office of War Mobilization and Reconversion, OWMR, which will continue to fix reconversion policies, Ross said.

## VICTORY INSPIRES UNDERDOG CHICAGO

Detroit, Oct. 4.—(AP)—Inspired by a 9 to 0 victory over the Detroit Tigers yesterday in the first game of the 1945 world series, the Chicago Cubs prepared today for the second game in the seven game series, hoping for a repeat performance. A stroke of lightning could have shocked the 54,637 chilled American League fans more than the ease with which the Cubs tore into Hol Newhouse. The Detroit ace gave up eight hits and seven runs in the first three innings and drove him from the hill. As a ball game—if never was, The National League champs, underdogs in the pre-series betting, looked far superior yesterday that it scarcely seemed necessary to play the classic.

## World Trip Nearing End

Hamilton Field, Calif., Oct. 4.—(AP)—The Army Air Transport Command's globe-trotting flight was near its end today as the sixth plane of the world shuttle took off here this morning at 5:30 a. m. PST (3:30 a. m. EST) on the last leg to Washington. The big C-54, four engine "Statesman" is scheduled to arrive at the National Airport about 9 p. m. EST tonight, three hours ahead of the schedule originally planned for the six-day trip. The seven men and one woman who made the trip changed planes here three hours and 20 minutes after their arrival from Honolulu at 2:10 a. m. PST. They made the flight from the islands to the mainland in 12 hours, 30 minutes.

## Laval Trial For Treason Is Started

Paris, Oct. 4.—(AP)—Pierre Laval, former chief of the Vichy government, was expelled from the court room today during the first hours of the trial for his life on charges of treason and collaboration. Judge Paul Magnoux announced the hearing would continue without the presence of the white-haired, greasy-faced man. First Day Marked By Great Tumult; Darnand Convicted

Paris, Oct. 4.—(AP)—The treason trial of Pierre Laval started in tumult today when defense attorneys tried to resign in protest to the "illegal" pre-trial examination of the former Vichy premier.

Laval himself started an uproar with an opening declaration: "I am a patriot and I will prove it." Presiding Judge Paul Huguier, all 24 jurors and Andre Morel, the white haired prosecutor of Mata Hari, Marshal Petain and now Laval, jumped to their feet to shout down the white-haired Laval. Laval, several times premier of France in the days before the Germans overran the Republic, faced the same high court of justice which condemned Marshal Petain to death and last night ordered the Vichy chief of police Joseph Darnand, to be before a firing squad. Petain now is serving a life sentence, having been condemned by General De Gaulle.

So great was the tumult that the trial was suspended for half-an-hour while court attendants strove to still the disorders. When Judge Mogibeaux refused Laval's request to make a statement, Laval had promised a story on international intrigue to reporters, saying: "I beg you to report my words exactly for with them history will be made." Bulky charges are on file against Laval. He is accused of among other things of plotting against the domestic security of France; intelligence with the enemy; hindering the government's removal to Africa in 1940; suppressing the constitution and republic; creating an authoritarian regime; encouraging fascism; and negotiating agreements with Germany.

## Drastic New Law To Denazify U. S. Zone Is Drafted

Washington, Oct. 4.—(AP)—General Eisenhower's military government speeded today the drafting of a drastic new law which would wipe out all Nazi ownership and Nazi control of German business in the United States occupation zone. In effect, the device would make it unlawful for any person who was at any time a member of the Nazi party or its affiliate organizations to own, control, manage or supervise any business enterprise or possess a 1/3 interest therein. Known as "law No. 10," the new measure was expected to give Germans in the American zone only January 1 to carry out liquidation of Nazi interests.

# TRUMAN DELAYS SEIZURE ORDER

## Explanation For Delay Not Given

Washington, Oct. 4.—(AP)—President Harry S. Truman today delayed temporarily the issuance of orders for government seizure of all properties affected by a 15-state strike of CIO oil workers. Efforts to Settle 15-State Dispute In Capital Fail

Washington, Oct. 4.—(AP)—President Harry S. Truman today delayed temporarily the issuance of orders for government seizure of all properties affected by a 15-state strike of CIO oil workers. Charles G. Ross, presidential secretary, first announced the order would be released about noon, but shortly after that hour reported it would not be released for at least two hours. There was no explanation of the delay. It was reported that the delay was caused by the following factors: 1—Government attorneys to settle a strike of oil workers through arbitration of wage demands. 2—Meanwhile, President Eric Johnston of the United States Chamber of Commerce conferred with Mr. Truman on the labor crisis and emerged from the White House with the statement that both labor and management would have "to use their heads" to solve the current disputes.

## General MacArthur Decrees Revolutionary Magna Carta For Freed People Of Japan

Directs Every Law Barring Freedom Of People Removed

Tokyo, Oct. 4.—(AP)—General Douglas MacArthur today decreed a revolutionary "Magna Carta" for Japan, ordering the imperial government to remove all laws to freedom of speech, religion and assembly, thus dissolving the brutal, all active "thought police," and release their 3,000 political prisoners by October 1. In a letter to the newly reorganized Japanese central liaison agency MacArthur bluntly told the government to abolish all legislation restricting freedom of the people. The letter also demanded removal from office of Home Minister Yamazaki, and chief of the Tokyo and Osaka metropolitan police boards and the police of Hokkaido. MacArthur refused to comment on Russian demands for a free press, control government to replace him. The orders went out amid rising Japanese clamor for release of the political prisoners arrested by the "thought police" for voicing ideas that weren't in agreement with the pro-surrender government. The prisoners have been confined for four years in jails all over Japan. Tokyo newspapers this past week have reported the prison death of several of these prisoners. Yamazaki, who heads the thought police, flatly denied any knowledge of the prisoners in an interview with the Associated Press. He did admit that his men were still on the job and said they were being vigilant against any Japanese daring to advocate "elimination of the imperial house, overthrow of the constitution or violence toward Japanese government." MacArthur demanded that the government turn over to him the files of the thought police and full information on the prisoners.

### City Key For 'Pappy'

IN CHICAGO To attend the Veterans of Foreign Wars convention, Lt. Col. Gregory "Pappy" Boyington, famed Marine ace, gets the key to the city from Mayor Edward Kelly. "Pappy" bagged 29 Jap planes before he was lost over Rabaul. He was recently freed from a Japanese prison camp. (International)

## Big Three Might Talk Over Spat

London, Oct. 4.—(AP)—Diplomatic circles here today expect President Harry S. Truman, Marshal Stalin and British Prime Minister Clement Attlee to start telephone conversations soon in an effort to break the deadlock of the peace-making council of foreign ministers. Foreign Secretary Ernest Bevin met with the British cabinet behind closed doors for several hours today, giving details of the circumstances leading up to the breakdown of the conference. Bevin had been reported in frequent, bitter personal exchanges with Soviet Foreign Commissar Molotov during the three-week session. Bevin is expected to report fully to Parliament on the conference next week. Diplomats expressed the view that the heads of the three big powers would start trans-Atlantic calls soon after United States Secretary of State James F. Byrnes and Molotov have reported to their chiefs on the parley.

## Administration Seeking To Hold Tax Slashes Down

Washington, Oct. 4.—(AP)—A re-evaluated administration drive to hold first personal tax reductions to \$5,000,000,000 cut about today on an early reduction in big war-time excise levies. The excise issue, involving such things as liquor, luggage, jewelry, fur coats, and lipstick, came before the House Ways and Means Committee along with a showdown on the repeal of the 95 per cent, war-imposed excess profits tax on corporations.

## Coal Shortage May Shut Textile Plants In S. C.

Columbia, S. C., Oct. 4.—(AP)—A shutdown of South Carolina's textile mills because of an imminent coal shortage was foreseen today. A check of 12 mills in the state employing 14,000 workers showed no more than a two weeks supply of coal on hand. The Solid Fuels Administration in Washington has banned the shipment of coal to all but hospitals and certain public utilities as several hundred mines were closed because of labor troubles. In a prepared statement of the South Carolina situation, John Carben, executive vice president of the South Carolina Textile Manufacturers Association, said: "Many cotton mills will have to close down within the immediate future unless there is relief from the SFA order which halted all coal shipments to the mills. Closing down of the mills, of course, will result in widespread unemployment among our people and a further shortage of textiles." A survey of only 12 mill companies disclosed that seven of them employing a total of 7,000 workers have coal enough to carry on for only one week. The other five companies, employing 7,000 persons, have coal enough to last two weeks.
