### FIGURING THINGS OUT "Natchelly"

Awhile back I was learning Sonny how to handle a shotgun so he could figure out where Br'er Rabbit natchelly was going to be on his next jump. Sonny got the idea mighty quick for a boy his age. Maybe it's because he's noticed how us farmers always tries to do things the natchel way. For instance, it just comes natchel to use Chilean soda to give our crops a quick start and keep 'em growing strong and healthy.

Us farmers has been using natchel soda for more than a hundred years. Seems like just being natchel makes it different from any other kind.

Maybe folks won't be able to get all the soda they want this season, but if we're careful with what we get it may do.

"Zeke's sure enjoyin' life since he put BLENN on his tobacco!"

## BLENN

SWIFT'S PLUS-VALUE TOBACCO PLANT FOOD

No, we haven't seen a tobacco leaf that big yet. But it's not BLENN's fault we haven't. For BLENN, the plus-value plant food, gives your soil what it takes to push up a sturdy, bright-leaf tobacco crop.

BLENN was developed to do just that. Out of Swift's research laboratories came formulas to meet tobacco crop needs everywhere. And so, from Swift's plant food factories comes BLENN, packed with nourishing ingredients and special tobacco-growing power. BLENN is made to grow tobacco!

BLENN provides Vital, Extra Plant Foods BLENN gives your tobacco the nitrogen, phos-

phorus and potash it needs, but it doesn't stop there. It also provides the vital growth elements, which your tobacco must have to take full advantage of the soil. It's these plus-value elements in BLENN that can turn the trick between a fair crop and a big money maker.

BLENN is properly cured and double-mixed to assure easy handling and full plant food value.

See your Authorized Swift Agent for more information on BLENN. No better time to haul than now!
