New York, May 17.—I am still optimistic as to stock market prices, and believe that the Dow-Jones Industrial Average will go on at least to 100 and perhaps 120. It is now about 95. The Consumer's Accounts may be in their upward movement, but in accordance with the theory that the new commodities are to rise.

**Commodity Prices.**  
The price of wheat is the subject of much discussion. It is generally expected that the wheat harvest in the United States will be good, and that the price will be low.

**Truth About Buildings.**  
The National Building Conference has just held its annual meeting. It was held in New York City, and was attended by representatives of the building industry from all over the country. The conference was held from May 14 to 17, and was held at the Waldorf-Astoria Hotel.

**Effect Of Labor Unions.**  
The effect of labor unions on the economy is a subject of much discussion. It is generally expected that the labor unions will continue to exert their influence on the economy, and that the price of labor will be high.

**My Personal Opinion.**  
I am still optimistic as to the future of the economy. I believe that the economy will continue to grow, and that the price of goods will be low.

# 'In Sitdown 'Strike' Properties Sold On Oxford Road

AFTER STAGING a three-day sitdown strike in the lobby of a Miami Beach, Fla., hotel, a woman, Mrs. H. Brennan, is pictured above seated in the hotel's sun porch where she continued the 'strike'. She refused the sitdown protest as a result of the room shortage. Her husband left the hotel to get up the room at the hotel to an adjoining street. (Continued)

## "They want me to pay up . . . so they can settle the estate"

Such situations can and do happen when people borrow from friends or relatives. It could happen to you just when you would find it hardest to pay. That is why it is better to borrow from a bank where you can repay a loan in installments to suit your convenience. Bank loans are low in cost and a private, confidential matter between you and the bank. Why not investigate?
