Three Here Get Degrees During Finals At UNC

Joe Rowland, Jr., son of Mr. and Mrs. Joe S. Rowland of Kittrell, and Miss Viola Hoyle, daughter of Dr. and Mrs. J. H. Hoyle of Henderson, were among the seven hundred students receiving degrees at the University of North Carolina last night at Kenan Stadium Chapel Hill.

Miss Hoyle received a bachelor of arts degree with a major in sociology. While at Carolina, Miss Hoyle was a member of Beta Upsilon chapter of Alpha Delta Pi, national social society. She also held the following offices in campus organizations: vice-president of Woman's Athletic Association, secretary of the Panhellenic council, historian of Woman's Senate, Sorority house-president and house-manager, member of the senior class executive committee, serving committee of the university party, house privileges board, interdepartmental council, board of residence, and a member of the varsity basketball, volleyball, hockey, soccer and softball teams. She appears in the 1946 "Yackety Yack," Carolina annual, as one of the most outstanding students in campus leadership.

Rowland completed the work for his A. B. degree at the end of the quarter, and since that time has been doing graduate work in the field of sociology. At the university he has been a member of the Dialectic society, the Y. M. C. A., the Wesley Foundation, the Council for Religion in Life, the Southbucklet Club and the Alpha Kappa Delta national honorary sociology fraternity.

Governor Cherry presented the diploma and President Frank P. Graham delivered a farewell address. Dr. Charles Daniels spoke in behalf of the university trustees. Jim Booth of East Orange, N. J., president of the senior class, spoke for the graduates and the invocation was by Rev. R. G. Shumouhouse of Pittsboro.

David Y. Cooper, of Mr. and Mrs. J. Allan Cooper, of Henderson, received a certificate in medicine.

Chemical Warfare Group Has Big Role In Army

The men of the chemical warfare service will play a great role in the new regular army, it is said. This organization, which has achieved tremendous accomplishments both in war and peace, is constantly keeping its vigil.

These men are trained experts in the many phases of war's most dreaded weapons — gas, flame, smoke and the possibility of bacteriological warfare. It was they who perfected the flame thrower that so aided our fighters to achieve their victories.

It is the task of the Chemical Warfare Service to keep ahead of the enemy and to analyze the possibilities of hostile gas attacks. They developed the finest gas mask in the world and found methods of impregnating the clothing of our fighters to keep them safe. They invented ointments and protections against burns and blisters. If our enemies had ever used gas they would have found our troops prepared to meet the attack.

Chief Ambition Of Paul Is Topic At First Baptist

"Paul's Chief Ambition" was the subject of the sermon preached by Rev. E. Nettlebeck Gardner, pastor of the First Baptist church, at the morning service Sunday.

"Throughout time, there have been different views about Jesus," he stated. "His enemies seeing his wonderful work called Him an impostor and in league with Beelzebub. Modern opponents have done even better. Nietzsche and the school of German philosophy opposed Christianity for it cared only for the weak, the helpless and the diseased. The

religion of Jesus was a religion for the weak only, whereas in the state, might makes right.

"The third group of Jesus' enemies are those who say He was a visionary and idealist only. They admit that the teachings and deeds of Jesus are good if they could only be followed.

"Paul's chief ambition was not only to know Christ but also 'the power of his resurrection.' Christ's greatest miracle was the raising of Himself from the dead. Here Jesus demonstrates His power over death setting forth the fact that we too would rise.

"Paul also sought to know Christ and the fellowship of His sufferings. No other missionary has borne so much suffering and hardships as Paul. Having borne sorrow enables

one to help others who face losses and in the midst of suffering, life can become more beautiful. Paul's chief ambition in life should become the supreme passion of each of us."
