

Zeb Vance Downs Gray Rock Team, Takes 2nd Place

On a win over Gray Rock 11-4 at Gray Rock Saturday afternoon Zeb Vance moved into second place in the Granville county league.

Lefty Shearin pitched a steady game for Zeb Vance and was in trouble only in the first and sixth innings. Gray Rock went ahead with two in the first on three hits and a walk. Zeb Vance got one in the third and two in the fourth and was never headed again.

They sewed up the game in the sixth. Wells singled and Smith doubled. Five batters in a row bunted before Gray Rock could stop them. Four runs were in. Zeb Vance added four more for good measure in the ninth. Asa Kittrell drilled in two of these.

Jenny Wells and Warner Smith led Zeb Vance with three for five. Harris had three for five to lead Gray Rock.

Bullcock plays at Zeb Vance Wednesday at three o'clock.

Brown will be on the mound for Zeb Vance.

The Authority on Authoritas

WHEN ANY CARD TALKS
IN SOME unusual situations, a different message of a definite nature would be conveyed by each card you might choose to lead from a particular suit. Your lowest would tell your partner to return the lower-ranking of the other two side suits when he got the lead, the card just above that would tell him to ruff with his highest card to force a higher one from declarer, the one above that would tell him to return the higher-ranking side suit, and your top card would tell him not to ruff the current trick at all, but to discard on it.

(Dealer: South. Neither side vulnerable.)

| | | | |
|-------|------|-------|------|
| South | West | North | East |
| 1 ♠ | 2 ♣ | 2 ♠ | Pass |
| 2 ♣ | 3 ♣ | 3 ♠ | Pass |
| 4 ♣ | | | |

Chances to use a certain rare signal come only once in some terrific length of time. That is the signal to your partner to ruff a trick with as high a card as he can, hoping he can force from declarer an over-ruff with a card so high that its use will set up a trump trick for you. An example of that was given just a few weeks ago, and now comes another hand sent in by "S. O. S." of Oklahoma City with the same play.

West led his club K and followed with the Q, noting East's 10-8 high-low. Then he studied and finally led the 3 to the third trick. East thought thus: "West is marked with the A; if South had another club, West would have led that to make sure I would discard and save my trumps, so West had six cards and South is now blank. If West wanted to give me a signal to return the lower-ranking diamonds instead of the higher-rank hearts if I got in later, he would have led his lowest, the 2. If he wanted the higher-suit returned later, hearts, he would have used the 5, highest of his small cards. Since he did none of these, his 3 could only mean he hopes I can ruff high."

So East ruffed with his spade 8. That proved high enough to force South to use a high honor, the A or K. That, of course, built a trump trick for West with his J-10-6. This trick, plus the diamond A, beat the contract.

Tomorrow's Problem.

(Dealer: East. Neither side vulnerable.)

Seeking 4-Hearts, South ruffs the first trick of the spade 4, J and A, and leads the heart Q to the K. When the spade 6 is returned, what should South do?
