Reconversion Boss Says Army And Navy Is Place To Start

Washington, July 11.—(P)—Recenversion Director John R. Steelman today demanded new slashes in Federal spending and perted to the army and pays as the places to cut deepest.

army and cavy as the places to cut deepest.

"Economy may be achieved there." Steelman told President Truman and Congress, without hampering operations aimed at fulfilling world obligations, furthering American interests and keeping global peace.

While terming the revival of price controls the number one essential in warding off "costly" inflation, the reconversion boss said this a cit on should be coupled with lower government tosts, continued high taxes and credit cettrels, and, if possible, a Federal budget surplus.

Less spending by the civilian agencies and postpenement of public works would help to halt the flow of government dollars into private hands, Steelman said in his first quarterly report as director of the Office of War Mobilization and Reconversion, but he added:

"If a wajor cut in the inflationary impact of Federal expenditures is to be sought, expenditure plans of the army and navy must be re-examined in the light of the present need for anti-inflationary action."

#### N. C. Peach Crop Nearly 65 Pct.

College Station, Raleigh, July 11.

—North Carolina peach growers are harvesting a crop estimated at nearly 65 per cent more than the average annual production for the 19-year period, 1935-14, according to G. Tom Scott, state director of the Production and Marketing Administration at State College.

Citing the Bureau of Agricultural Economics' June 1 estimate, Scott said, North Carolina's peach production this year will total about 3,200,000 bushels—1,028,000 bushels more than last year.

Scott Makes New Plea For Quotas In Friday Vote

Raleigh, July 11.—(AP) — This year's North Carolina tobacco crop is expected to be 10.7 per cent more than the 1945 crop of 794,500,000 pounds, the Federal-State crop reporting service said today in its first official forecast for this season.

Agriculture Commissioner Kerr Scott attributed the outlook for the production increase to a 12 per cent advance in tobacco acreage this year.

Bid For Popularity.

Some quarters here were inclined to write off the address as a Russian bid for popularith in the Reich, and as a move to stillegthen the forces of German communists.

It was bitterly conceded that Molotov, in the eyes of the average German, now stood for a Germany governed by Germans, and for the return of a decost standard of living.

French official quarters expressed dismay that the Russian policy of unification was in direct conflict with a French proposal to separate the Ruhr, the Saar and the Rhineland from the remainder of the Reich.

Bidault Wins Victory

But Frenc's foreign minister and president, George Bidault, won a counter-victory at home in the conference's back-yard.

The French cabinet unanimously voted today to uphold his stand on Germany to date, which included a stand for internationalizing the Ruhr and contributed to holding up a unified four-power German policy.

It was not immediately clear whether the Russian statement of policy would delay the adjournment of the constill, tentatively planned for this week end. The ministers were called into session today to resume discussion on Germany. They are scheduled to approve final drafts of peace treaties with Italy, Hungary, Romania, Bulgaria and Finland on Saturday.

# Last German POW'sToBe Sent Home

Washington, July 10—(AP)—More than 14 months after VE Day, arrangements were completed today to send back to Germany the last of more than 370,000 prisoners of war brought to this country. The final group, aside from fewer than 300 sick or classed as incorrigibles, is scheduled to sail July 22 from New York, War Department officials said.

All are Germans.

New York, war Department officials said.

The last of Japanese and Italian POW's were returned to their homelands early this year. Prospects for the immediate release of this batch of prisoners once they hit Germany again are uncertain.

Under an agreement with Britain, 175,000 of the final group held in the U. S. were to be turned over to British custody. However, about half of these already have gone to the United Kingdom and the others have been sent to the British occupied zone of Germany, where selected war prisoners work in the Ruhr coal mines and on other jobs.

# Baptist Church Here **Endorses Moving Of** Wake Forest College

Delegates Ordered To Approve Action At Meeting July 30

In the first indication of how Henderson Baptists will vote on the proposal to move Wake Forest college to Winston-Salem in order to receive the Smith Reynolds foundation, members of the First Baptist church at a church conference last night vested their pastor, Rev. E. Norfleet Gardner, with authority to vote in the affirmative at a special meeting of the State Baptist convention in Greensboro on July 30.

Churches in the convention will be allowed one delegate for every 50 members of the church, thus giving the First Baptist church a possible 23 delegates.

Delegates attending the convention from the local church will be instructed to vote in favor of moving the college, by which act the college will receive from the fountion \$19,750,000,000, derived from the R. J. Reynolds Tobacco Company.

Three Baptist governing boards have already unaimously approved the offer, which was made early this spring, and the State conven-tion will act on it at a meeting July

tion will act on it at a meeting July 30.

Feeling in the community here has seemed to approve the moving of the college, which is now located 25 miles south of Henderson. The vote last night at the First Baptist church conference was the first official indication of what stand will be taken locally.

The college now has 15 buildings, a student body of 1,300, a faculty of 65 and an endowment of \$3,098,820. Its four-year medical school has a separate plant, already situated in Winston-Salem as the result of gifts from the Bowman Gray family of Winston-Salem.

The Reynolds gift would mean that Wake Forest would have a campus of 300 to 500 acres, ample for a minimum of 2,000 students, sufficient income to provide an adequate faculty, and other expenses essential to a college of 2,000 students, and the possibility of still further growth in equipment, faculty and student body.

By terms of the trust, 20 per cent of the annual income will be added to the principal until it reaches a total of \$50,000,000.

# Wiley Plans To Call Up NewMeasure

Washington, July 11.—IP)—A new threat of delay to the OPA revival bill developed today in the Senate. Senator Wiley (R) of Wiscorsin told his colleagues he proposed to call up tomorrow House approved measures disapproving President Truman's government reorganization plan. They have a privileged status by law so that any senator may force action upon them.

Wiley first moved to take them up today but withdrew his motion after a plea by Majority Leader Barkley of Kentucky that OPA be given the right of way. But the Wiscorsin senator said that if the much revised price control bill is not passed today, he wants action on the reorganization matter tomorrow.

Shewdown Vote Sought.

Barkley observed that any break of this kind into the price control debate would "play into the hands of anybody seeking to delay action." Confronted with Wiley's threat, Barkley pressed for a showdown vote today on OPA. When he said he wanted to dispored of it, before the Senate recessed for the day. Senator Tobey (R) of New Hampshire shouted: "Amen."

However, Senator O'Daniel (D) of Texas told reporters he intends to "say quite a few words" before any foral vote is taken. He said he also will bring up an amendment to establish a fair employment practices committee.

While any such move would be calculated to bring on a fillouster by Southern opponents of FEPC. O'Daniels conceded that the amendment might be killed without extensive debate by a motion to table it. Barkley told reporters he believed that administration has enough to relax controls over prices if they are restored.
