

## Fireworks Licenses Are Banned

No licenses will be issued by Vance county for the sale of fireworks in the county next Christmas, or at other times, the Vance Board of County Commissioners decided today at their monthly meeting for September. It was said this action was in keeping with similar action taken by the Henderson City Council.

Tax revenue in August amounted to \$1,500.00, including \$110.13 in privilege licenses collected and \$100.00 in beer and wine licenses. F. M. Dwyer, county tax collector, reported to the board.

The board had a report from City Fire Chief C. G. Ellis advising that

city firemen answered calls to fifteen fires outside the city limits, and for which the county pays the city \$25 each, or a total of \$375 for August.

Juries to serve in the October term of Vance Superior Court were drawn, fifty for the first week, for trial of criminal cases, including a number for the grand jury, and 25 for the second week of civil cases.

Payment of \$25 to A. Whittington, of Williamson township, for loss of six young turkeys killed by dogs was authorized. The money will be paid from dog tax funds.

The board also approved petition for working and improving of roads in three instances, and referred the petition to the State Highway Commission. One is the road from Peterson's store to Greenville, another the old road from Ketchum to Tar River, and the third the paving of Denney street, which runs south of the Oxford road near the city limits.

## Board Told Of Opening Of Schools

Schools of Henderson and Vance county started their fall term with registration last Friday and beginning of classes today without interruption or friction in one of the most satisfactory openings in years. Superintendent E. M. Rollins told the Vance County Board of Education today.

In spite of difficulties incident to re-opening nearly 100 children in the colored schools, as a result of the burning of their school three months ago, their classes have started well under direction of the principal and the colored supervisor, Mr. Rollins stated.

The board requested the superintendent to push as rapidly as possible the program for building new school units for the colored children with the idea of having them ready for the opening a year hence if possible. First procedure will be to provide the sites, one on the eastern side of the city, and the other at the foot of Pettigrew street. After that plans and specifications must be prepared, and it is hoped to have these steps completed and to be ready to order construction work as quickly as materials can be had.

Mr. Rollins informed the board that lunch service is afforded at all city schools except Junior high school, and partial service at West side. He did not have complete statistics as to enrollment.
