

SPECIAL NOTICE.
Our friends throughout the country will be glad to furnish us with any amount of material for our paper. We will be glad to receive it at any time and in any quantity. We will be glad to receive it at any time and in any quantity. We will be glad to receive it at any time and in any quantity.

TOWN AND COUNTRY.

LOCAL LACONICS PICKED UP HERE AND THERE BY OUR EARLE-EYED REPORTERS.
Let there be a large turnout of the farmers to hear the address of Col. Ricketts next Saturday.
See notice of valuable land in Granville county to be sold by F. P. Hobgood, advertised in this paper.
What has become of our military company? The Gold Leaf hopes it will not be allowed to die out.
Mr. B. B. Henderson has taken charge of the postoffice. Mr. Wayne Wiche is assisting him for awhile.
Alliance men will be here in full force with their neighbors to hear the speech of Col. G. B. Ricketts next Saturday.
Many improvements are noticeable in various parts of the town. Considerable building is going on and it will increase as the Spring opens.
Farmers should not fail to hear the address of Col. G. B. Ricketts, State Organizer and National Lecturer of the Farmers' Alliance, next Saturday.
A number of new buildings are proposed for the burned district. The Gold Leaf hopes to see the work of rebuilding this part of town soon under way.
The Lulu Delmo Company played to small houses at Burwell Hall Monday and Tuesday nights. The free show on the street caught much the larger crowd.
Dr. Walter Brodie, of Wilson, is here this week. A former citizen and a clever gentleman, the Doctor has many friends who are always glad to see him in these parts.
Do not despise and neglect the sweet ministry and beauty of flowers. Nothing adds more to the beauty and attractiveness of the front yard than flowers and evergreens.
One of our exchanges voices a truth, significant and full of meaning, when it declares that many a broadcloth husband owes his prosperity to the fact that he married a gingham girl.
An exchange says the people who are generally the most severe newspaper critics, are those who never subscribe for a paper, and if they do, never pay for the privilege of reading it.
The Churchmen, in their *Sunday Posters*, say: A substance is said to have been discovered three hundred per cent sweeter than sugar. The substance is about eighteen years old and wears a bustle.
The Gold Leaf will have a warm welcome for its friends and that dollar due us, or in the possession of any person who desires to become a subscriber. No need of being backward in coming forward.
The Statesville *Landmark* wants the press to hand around the "Artistic Needle Company," 135, 8th St., New York, as a fraud. We gave Brother Caldwell credit for being too "sharp" to get "stuck" by such "sharpers."
A man thinks his work is done when he presents his bill, when in fact it is only just begun.—*Orange Observer*.
Very true. The hardest thing about some kind of business is not in doing the work, but getting pay therefor.
Col. G. B. Ricketts, State Organizer and National Lecturer of Farmers' Alliance will address the farmers and public generally of Vance county, at Henderson, Saturday, March 24th. Don't forget the date of his coming to Henderson.
How about the Gold Leaf's proposition to move for a government building in Henderson? We believe the thing might be carried through with a little effort. What say our leading citizens on the subject? Nothing undertaken, nothing accomplished.
Those who suffer the severest hardships of winter, will the more fully appreciate the verdant season of spring with its returning balm and sunny skies. It is the season of turmoil and suffering below that serves to make the Christian prospect bright.
Sid Davis, one of our very reliable colored butchers, is now supplying his customers with Richmond beef altogether. This shows enterprise and a disposition to supply the best meat to be had, and the public will show their appreciation by their patronage.
Did it ever occur to you that the woman with the nose which she assumed a small one, does not always occupy the front rows at church?—*Walter Observer*.
It has, and has also occurred to us that they usually come in late, after service has commenced.
While we experienced some cold and disagreeable weather last week, we have cause to feel thankful that it was nothing like what they had in the North, an account which will be found published on the first page of the Gold Leaf this week. We have the most favorable climate and the best country, after all.
Read the advertisement of Ober's Special Tobacco Compound, which appears in this paper. There is no better fertilizer on the market, and farmers who wish to obtain best results will use it again this year. D. Y. Cooper sells it and has a large quantity on hand. Call on him and ascertain how he is selling "Ober's" this season.
With the Young block, and the drawings show that will be a very handsome structure, and the Parker building reared on the burned district, that part of town—at one time unsightly and a disgrace to us, and now barren and desolate looking—will be transformed into a thing of beauty. And others will follow in due course.
The Gold Leaf believes the manufacture of pressed brick, tiling, terracotta piping, etc., would pay in Henderson. First rate clay for the purpose can be had in abundance near at hand, and that there would be demand for the output cannot be questioned. Let some of our moneyed men think upon the suggestion here thrown out.
The meeting at the Baptist church continues with increasing interest. Rev. Mr. Vandever, who has so faithfully preached the Word for the past two weeks will leave for his home, after preaching to-night.—*Greensboro Workman*, 10th.

Read the new advertisement of James A. O'Neil which appears elsewhere in this issue of the Gold Leaf. Mr. O'Neil has the only hardware store in town and keeps a complete stock of everything in his line. He cannot only supply what you want, but at lowest figures always. Call and see him after carefully looking over his advertisement.

Attention is called to the advertisement of A. C. Zollinger, assignee of E. L. Smith, who will sell a valuable lot of soda water apparatus on Wednesday, April 11th. At the same time he will also sell any of this property may be bought privately before the day of sale. Parties interested will take day of sale. Parties interested will take notice and govern themselves accordingly.
A smoking tobacco factory is one of the new enterprises soon to be started in Henderson. The Gold Leaf was acquainted with the fact some weeks ago but was asked to say nothing about it until the plans were all consummated. Messrs. W. W. Briscoe and John R. Hicks, with a third partner, backed by ample capital, are the gentlemen who embark in this enterprise. Success to them.
Closs Cornet Band is busy practicing and under the instruction of Professor Pomet promises to attain great proficiency in the manipulation of their instruments, and ere long will treat our citizens by some good music. Encourage the boys by their efforts and helping them. In their efforts to have a brass band in Henderson they should not be left alone to foot all the expenses.
Tobacco has been coming in this year a great deal more abundantly than it came in last season. The sales have been unprecedented for the past four or five months. This is accounted for in two ways, the high prices paid on this market and the increased territory from which we have to draw. Tobacco comes from a much greater distance to Henderson now than it did a few years ago.
Little George Rosenbusch fell off of a pair of "tomwalkers" Tuesday and broke his arm. The Gold Leaf has been expecting to hear something of this kind. Parents should prohibit their children from playing with such dangerous things. It is nothing to a boy's credit if he can walk on stilts some times five or six feet from the ground, while he runs a risk of breaking a limb or his neck.
The wind Tuesday night was the most severe we have experienced since March came in, and the rainfall was perhaps the heaviest we have had for some time. The thunder was terrific and the lightning flashed vividly, reminding us that winter is now a thing of the past. The caprices of the elements Tuesday night would indeed have produced quite a storm at sea, had we not been removed quite so far inland.
The Danville *Tobacco Journal* is giving the suggestion of the Gold Leaf recently to the effect that our citizens put their shoulders to the wheel and work together with the single purpose in view of making Henderson the "Hub" of the Golden Tobacco Belt, styles it a "Hub with many spokes." Right, you are, Brother Harmon; and one whose "feelings" never "tire" of proclaiming the advantages of our town and market.
Raleigh Standard Guano for bright yellow tobacco stands well with those who have used it. Good results are reported from its use the past two seasons, and many of our best farmers hereabouts are now exclusively using this season. It is not a high priced fertilizer, but a high grade one, solid worth counting for more than style with the manufacturers. D. Y. Cooper handles Raleigh Standard again this season, and has a large lot on hand. Try it.
An agricultural authority says recent tests appear to confirm the theory that planting whole potatoes (Irish) is followed by the largest crops. With most people it is the custom to cut them, preserving one or more "eyes" to each piece cut. This plan makes the potatoes go further in planting, but whether it is economy in the long run or not, the Gold Leaf is not prepared to say. Suppose some of our readers try the experiment this year and test the thing for themselves.
The Gold Leaf has received a new piece of music, called "Silver Bell Waltz," by the popular composer, Charles Baker. We do not claim very great proficiency in knowledge along this line, but the music is not too difficult and at the same time very showy. It can be played on the Piano or Organ, and will be sent at the special price of only 11 cent stamps. Address J. C. Greene & Co., 33 and 46 Arcade, Cincinnati, Ohio.
Mr. John A. Fleming, one of our "solid" citizens from the Middleburg section of the county, has a practical way of showing his sympathy for a fellow who has just repudiated bachelorhood. He called in to see us when in town a few days ago and after some preliminary and congratulatory remarks, asked for a receipt for a couple of years' subscription, one due to date and one paid in advance; and he was accommodated of course. There is nothing so small about our friend, and he is wanted on the broad gauge plan and is wanted full weight.

MEN WHO NEVER FORGET.—Under this heading the Danville *Southern Tobacco Journal* very kindly says:
Henderson, N. C., has a representative Tobacco Board of Trade. It is composed of whole-souled gentlemen who never forget a kindness. Mr. Thad R. Manning, of the Gold Leaf, has always been a staunch champion of the Henderson market and his name has been a great help in building up that market. Recently, in recognition of Mr. Manning's services in this direction, the Board of Trade presented the Gold Leaf with a handsome silver tea service. The token was a well deserved one, and yet it was but an evidence of the fact that Henderson's tobacco men never forget to rightly appreciate favors.
ABOUT CIGARETTES.—An exchange says the use of cigarettes has assumed alarming proportions. Little by little the manufacture has increased, till now it is considered one of the most profitable industries of the day, and when one considers by whom the cigarettes are principally used—boys, youths and even to some extent by women—one must feel alarmed for the future. Perhaps the fancy, and frequently obscene, pictures which many manufacturers place in each package of their goods, has something to do with the large and growing demand for cigarettes. If this be true, so much the worse for this pernicious little roll of tobacco and paper.
For lame back, side or chest, use Shiloh's Pains Expeller. Price 25 cents. For sale at W. T. Cheatham & Co's drug store.

WHEREIN ONE'S LABORS ARE LIGHTENED.—Our esteemed co-laborer, Brother F. H. of the *Warrenton Gazette*, is kind enough to say this, and we reply by saying no man has greater cause to be made to feel just as we do, for certainly no paper or our acquaintance has worked harder for its own and county than the *Gazette*. It says:
The Henderson Tobacco Board of Trade presented Mr. Manning, the editor of the Gold Leaf, with a handsome silver service of seven pieces as a token of their appreciation of his efforts to help build up their business and town. It was a compliment worthily bestowed and honestly won. A man who feels that his work is appreciated can do more and much better labor for any cause. It stimulates him.

Another Railroad.—Proposals for bids to build the Atlantic, Henderson to some point on the Atlantic Coast Line, are advertised for in this issue of the Gold Leaf. The management propose to push this enterprise as rapidly as possible, and in a short time we expect to see active operations begun on another railroad with the "Hub" of the Golden Tobacco Belt as the objective point. Let the good work go forward.
OFF AFTER NEW GOODS.—Mr. John W. Purefoy has gone North to purchase Spring goods, and will next week tell the public of some bargains he will have to offer in lawns, prints, gingham, etc. He will buy extensively, for cash, thus enabling him to give his customers the benefit of superior bargains in goods in his line. Look out for his return and call on him at his new place of business in the Kelly building below Harris' warehouse.
PUBLIC SCHOOL.—The Gold Leaf is glad to note the increasing interest in the public school. The second quarter ended March 14th, and during that time there were enrolled 62 scholars, with an average attendance of 35. On the roll of honor are the following:
Lucy H. Young, Phil. D. Hawkins, Lucy S. Whitten, John R. Clark, Nora H. Clements, Chas. Henry Edwards, Annie B. Smith, Washington Edwards. The best students failed to get their names on this roll on account of irregular attendance. This should not be the case. Parents should see that their children attend regularly and promptly. The session will close in June.
WHAT ARE THEY DOING?—What is the Chamber of Commerce doing with itself? The Gold Leaf has heard nothing of it since it organized. Was the severe cold worth it? If so, it is to be hoped that with the coming of Spring it will come out of its hole and exert itself for the public good. We need such an organization in Henderson, and now that a step has been taken to the extent of forming an association of the kind and electing officers, it should be kept going exerting an influence for good in our midst as it is calculated to do. Interest should not be allowed to drop back into the channels of indifference and inaction or to lose itself in the slough of despond, so to speak. The Chamber of Commerce if carried out on the plan suggested would be worth much to furthering the growth and prosperity of the town and community, and the Gold Leaf desires to see the most made of its opportunities. Gentlemen, keep up your organization and bestir yourselves.
P. S.—Since the above was put in type the Gold Leaf is pleased to learn that the Chamber of Commerce is by no means a thing without life and being. A meeting was held a few evenings ago, and another was called for yesterday, and the membership is rapidly growing. Every professional and business man in town owns real estate, or are in it, and are interested in the growth and prosperity of Henderson, you should become a member of the Chamber of Commerce. In unity is strength. One hundred men representing the various branches of business and professions of the town can accomplish more than one dozen.

CHURCH WORK.—Rev. Alex. Sprunt, the pastor of the Presbyterian church, has completed the third year of his ministerial labors in Henderson, and took occasion last Sunday morning to speak upon the subject, and as is customary to lay before his congregation a report of his work during the past year. He has preached 47 sermons in the three years, (156 Sabbaths) and delivered 85 prayer meeting lectures. 57 persons have been admitted to membership in the church, 31 upon examination of faith and 26 upon certificate of dismission. He has married 9 couples, and officiated at 14 funerals; baptized 38 persons, 31 infants and 7 adults, and made 1,900 visits. The following contributions have been made: For Home Missions, \$280.00; Evangelistic Fund, \$62.00; Invald Fund, \$14.00; Foreign Missions, \$312.00; Education, \$68.00; Publication, \$25.00; Colored Evangelistic Fund, \$34.00; Presbyterian Fund, \$16.00; Pastor's Salary, \$2,722.00; Miscellaneous, \$316.00; Congregational, \$1,070.00. Total, \$5,992.00. Some of these contributions were raised either in whole or in part by church fairs, or festivals, or concerts, or outside subscriptions, but in the regular channel of church contributions—except some special contributions to Home Missions.
This is a very satisfactory and encouraging showing indeed, creditable alike to the pastor and the congregation. And outside of this the influence of Mr. Sprunt has been far reaching and lasting for good in our community since he has been amongst us. He is a very talented gentleman and his preaching of the Word has been waited for by good congregations. Gentle in disposition and polished in manner, he is no less admired and respected by the public generally than he is loved as a preacher and pastor by his congregation. Our Presbyterian friends are fortunate in the pastor they have; and indeed the Gold Leaf thinks every church in town is; for a more earnest, devoted, polished, high toned, cordial, friendly and altogether admirable body of ministers would be hard to find than Rev. J. D. Arnold, of the Methodist Episcopal, Rev. Julian E.agle, of the Episcopal, Rev. Robt. Vandever, of the Baptist, Rev. S. W. Coe, of the Methodist, and Rev. Alex. Sprunt, of the Presbyterian church. They are all strong men, intellectually, spiritually, and socially. The impressions for good of such men cannot be estimated. They are a blessing to the community, if indeed they are not public benefactors. Look may they be preserved in the good work in which they are engaged.

FIRE.—The dwelling house of Allen Perry, colored, situated on the suburbs of the North-east part of town, was burned about 10 o'clock Monday night. No one was in the house at the time, the occupants being away, attending church. The origin of the fire is not known. The house belonged to Allen and was insured for \$200. The household effects were saved. Loss placed at about \$900.

Alden's Manifold Cyclopaedia.
The second volume of this work, now on our table, even better than the first, fulfills the promises of the publisher's prospectus. It is a really lasting volume of 640 pages, half Morocco binding, large type, profusely illustrated, and yet sold for the price of 10 cents. Each binding only 50 cents—postage 10 cents extra. Large discounts given to subscribers. It is to be issued in about 10 volumes. The Manifold Cyclopaedia is in many ways, unlike any other Cyclopaedia. It includes in its vocabulary every word of the entire circle of knowledge, whether of words or of things, thus combining the characteristics of a Cyclopaedia and a Dictionary, including in its vocabulary every word which has any claim to a place in the English language. Its form of publication is as follows:—It is published in 10 volumes, its publisher calls it, and the popular verdict seems to sustain his claim. It certainly is a delightful convenience. It will not be strange if this proves to be the most popular Cyclopaedia. It is certainly worthy of examination by all searchers after knowledge in its own line. For more particulars apply to any applicant. John B. Alden, Publisher, 385 Park St., New York, or Lakeside Building, Chicago.

For the Consideration of Tobacco Planters.
A correspondent writing in a late issue of the *Petersburg Rural Messenger* has the following, to which the Gold Leaf invites the careful and thoughtful attention of the tobacco planters of Virginia and North Carolina. The writer says:
What is the cause of the present good prices of tobacco, and what will keep them up?
We answer in a few words. A smaller crop and better quality than the whole tale, and since the same cause generally produces the same effect, we would say that in order to keep prices up, the same plan should be followed this year. Only plant what you can mature properly, work thoroughly and handle nicely, and you will feel sure when selling that you will be paid for your labor. Cultivate only such land as is rich, or that you intend making so by the use of good manure, as well as the use of good manure, and the other to keep it growing and give it plenty of body and substance at cutting time.
What will put prices down again and bring about the state of things that existed only 12 months ago?
This, too, can be answered in a single sentence—Another large, poor crop. You had far better plant nothing, let your land lie fallow, or make money, which is the wisest plan for you to pursue; which for yourself as a sensible man, and think on these things before pitching your tobacco crop.
Did you ever think of the fact that one acre, well prepared, will bring more money than two acres, half prepared? Now, if you are working to make money, which is the wisest plan for you to pursue; which for yourself as a sensible man, and think on these things before pitching your tobacco crop.
THAT HACKNEY COUGH can be so quickly cured by Shiloh's Cure. We guarantee it. For sale at W. T. Cheatham & Co's drug store. feb-9.

SALE OF VALUABLE LAND.
By virtue of an order of the Superior Court of Granville county, I shall, on Tuesday, the 24th day of April next, offer for sale to the highest bidder, at public auction, at the Court House door in Oxford, the lands of the estate of the late James B. Hobgood.
These lands consist of about 700 acres, well timbered and well watered, five of which are on the Oxford and Roxboro road. They will be divided into three tracts, one of about 250 acres, one of about 150 acres and about 20, besides a small tract of 25 acres.
On the tract of 250 acres there is a six-room dwelling in thorough repair, besides seven curing barns, a large barn, striping barn, frame stables, granary, &c., all in excellent condition. Each of the other tracts has a two room dwelling barn and other farm houses. These lands have been rented for many years. Preparations are making for planting a large crop of tobacco as well as of corn, wheat and oats. These crops will be sold with the land. The house will be sold with the land.
Terms, one-third cash, the balance in one and two years, for which the purchaser will give bonds bearing 8 per cent interest from the day of sale, and the title retained until the whole be paid. The sale is made subject to the confirmation of the Court.
For additional information, apply to the undersigned at Oxford, Mr. B. F. Hobgood, who can be found at the late residence of James B. Hobgood, deceased, will take pleasure in showing the lands to persons interested.

Notice!
Sanitary Regulations to be Observed.
Notice is hereby given to all persons living within the corporate limits of the town to clean up their premises and put them in thorough sanitary condition at once. It is necessary to use every precaution to avoid disease during the coming Summer months, and to that end all trash piles, and especially decayed vegetable matter and refuse of whatever description, should be removed. Where necessary, disinfectants and deodorizers should be used. An application of lime, copperas or coal ashes is recommended. All premises not found to be in perfect sanitary condition, when visited in person and inspected by the undersigned, will be reported to the proper authorities as violations of law, subject to fine and penalty.

RAILROAD CONTRACTORS!
Notice is hereby given that the Atlantic, Henderson & Virginia Railroad Company will receive proposals to build a railroad from Henderson, N. C., to some point on the Wilmington and Weldon railroad in N. C. county.
Said proposals must be filed with the Secretary of the Company at his office in Henderson on or before the 30th day of March, 1888. By order of the Board of Directors.
JAMES R. YOUNG, Secretary A. H. & Va. R. Co., Henderson, N. C., March 17th, 1888. [March 22-2 o.]
SALE OF VALUABLE LAND.
By virtue of an order of the Superior Court of Granville county, I shall, on Tuesday, the 24th day of April next, offer for sale to the highest bidder, at public auction, at the Court House door in Oxford, the lands of the estate of the late James B. Hobgood.
These lands consist of about 700 acres, well timbered and well watered, five of which are on the Oxford and Roxboro road. They will be divided into three tracts, one of about 250 acres, one of about 150 acres and about 20, besides a small tract of 25 acres.
On the tract of 250 acres there is a six-room dwelling in thorough repair, besides seven curing barns, a large barn, striping barn, frame stables, granary, &c., all in excellent condition. Each of the other tracts has a two room dwelling barn and other farm houses. These lands have been rented for many years. Preparations are making for planting a large crop of tobacco as well as of corn, wheat and oats. These crops will be sold with the land. The house will be sold with the land.
Terms, one-third cash, the balance in one and two years, for which the purchaser will give bonds bearing 8 per cent interest from the day of sale, and the title retained until the whole be paid. The sale is made subject to the confirmation of the Court.
For additional information, apply to the undersigned at Oxford, Mr. B. F. Hobgood, who can be found at the late residence of James B. Hobgood, deceased, will take pleasure in showing the lands to persons interested.
F. P. HOBGOOD, Oxford, N. C. [March-15, 4 o.]
