MR EDITOR:-When Patrick Henry uttered that memorable expression, "the next gale that sweeps from the North will bring the clash of resounding arms," he knew such men as Otis. Adams and Hancock were preparing the minds of their countrymen for the coming struggle for freedom. He knew they would not shrink from the contest, however firm and prolonged the struggle.
Well might he say, "there is no retreat but in submission and slavery." The descendants of the pilgrim fathers, with such a man as Hancock urging

them on, were not going to submit quietly to aggression. John Hancock was about the richest man in Massature. On the subject of fertlizing chusetts at the time the question of re-and transplanting, he says: public mind. No man had more at stake than he had. The king's officers seized his sloop "Liberty" under the charge that it contained "forbidden goods."
