CROPS FOR SEED.

Two Promising Lines of Effort for our seed potatoes and cow peas, Southern Farmers -- North Caro- and it behooves our growers to bestir lina Grown Potatoes Shipped to themselves to meet the demand and Michigan for Planting--Wide- at the same time improve their land spread Interest Among North- in doing it. ern Agriculturists in the Field or Cow-pea for a Green Manure -Their Great Value as an Improver of the Soil, &c.

Prof. W. F. Massev in Progressive South. 1

Arise, my soul! nor dream the hours Of life away;
Arise! and do thy being's work While yet 'tis day.

Repeated experiments have demon- The doer, not the dreamer, breaks strated the fact that late crop Irish Which binds with iron hand the earth potatoes, as grown in South, not only furnish the best seed for planting for Up, soul! or war, with fiery feet, the early crop at home, but Northern market gardeners are realizing that they are superior for early crops in the North. Many gardeners near the Northern cities now buy Southern grown potatoes regularly for planting, and find them better for this purpose The brow of wrong is laurel-crowned, than those from the far North. During the winter potatoes have been shipped from North Carolina as far North as Michigan for planting this spring. This is a complete reversal of the old practice, when Southern growers thought it essential to get Northern grown seed for planting, and in recent years all the dealers in Northern seed potatoes report an im-

mense falling off in their trade South-The success attending the use of our late crop of potatoes for seed opens would pay. Farming is a peculiar up a new line of effort for our Southern farmers, which they should not be with being unprofitable as a business, slow to take advantage of, as the denand for these potatoes is beginning and will extend as their superiority becomes known in other sections. This late potato crop is also advantageous in another respect, because the best preparation for them is a crop of cow-peas mown for hay in August, and the stubble at once prepared for the potato crop. Thus we get a valuable orage crop and at the same time improve the land for the potatoes, and

leave the soil in the best condition for cotton the following year. of it-we claim to have the best | Another crop which is becoming of stock of seasonable goods in town, increased importance is the Southern and at prices that will please you field or cow-pea. There is a wideand your pocketbook. And we are spread interest in this plant at the North for a green manure crop. Farcause your view to coincide with mers away up on the great lakes have tried them, and report favorably. We carry a complete stock of every- Only this week we had a letter from a large farmer in Northern Illinois asking at what price he could buy here 100 or more bushels of seed peas. He Canned Goods, Confectioneries, stated that he had tried them there Foreign and Domestic Fruits, Cheese, for two years and finds them very Crackers, Cakes, Butter, Eggs, Green valuable for cow hay and for pasture, Groceries, &c. Particular attention and as a soil improver equal to clover. DAYS. Northern farmers are rapidly calling Lake Drummond and the Locality Made Famous by Tom Moore's teselated floor of black marble; the ing Description of This Weird, and Picturesque Region of Which Little is Known to the

Outside World. The President's recent hunting expedition along the coast of North Carolina has awakened new interest in that region, the most notable feature of which is the great Dismal Swamp. This vast morass is called a paradise for huntsmen. In the Library of Congress is a copy of a unique report of a partial survey made of this swamp in 1725, by Col. William Byrd of Westover, Virginia. The original of this report was sent to George III with a petition signed by a number of Virginia planters, asking the King to give them permission to drain the swamp and to give them the reclaimed land
