NO. 50.

**GOD FOR EVERYBODY**  
and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the liver pure. You must help the liver, and the best method is the Old Friend, SIMMONS' LIVER REGULATOR, the PED Z.  
Dr. C. H. Hiram, of Lancaster, Ohio, writes: "SIMMONS' LIVER REGULATOR has cured a case of Malarial Fever of three years' standing for me, and less than ten bottles did the business. I shall use it when I need, and recommend it."  
Be sure that you get it. Always look for the PED Z on the package. And don't forget the word REGULATOR. It is SIMMONS' LIVER REGULATOR, and it is the only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE FEMELY. Take it also for Biliousness and Sick Headache; both are cured by a sluggish liver.  
J. H. Zein & Co., Philadelphia.

**FRANCIS A. MACON,**  
Surgeon Dentist,

## SOME GOOD ADVICE.

**MAKE YOURSELF PURE IN THOUGHT,  
WORD AND DEED.**

Wholesome Suggestions to Young People and Old Ones A Well—By Thine Words Thou Shalt Be Condemned and By Thy Words Thou Shalt Be Justified."  
[N. B. Fowler, in Word and Works.]  
Young man, young woman, of "youth and beauty" be pure in thought, word and deed. In thought because thought makes the man, for "as a man thinketh in his heart so is he." It is the thoughts that we entertain that shape our characters and color our lives. From the life of young men and women it is plainly to be seen what kind of thoughts they have for their constant companions, for they take root in the heart and spring forth into the life. We are not responsible for the people who pass our door but we are responsible for those whom we invite into our homes to enjoy our fireside and our society, even so we are not responsible for the thoughts that fit through the mind, for the evil can be benefited. THE BENEFIT IS ALL IN THE FEMELY. Take it also for Biliousness and Sick Headache; both are cured by a sluggish liver.

**WRITE HER EVERY DAY.**  
Comrade have you got a wife?  
Write her every day.  
Half the joy is out of her life  
If you don't write her.  
Write her from a speeding car;  
Never mind the thump and jar  
Which your loving letters mar—  
Write her every day.  
You are in the stirring world,  
She at home must wait;  
Consistently you are being whirled  
About and about.  
There she's watching, waiting, listening,  
With heart beating with eyes shining,  
Would you all her sorrows lighten?  
Would you catch the postman's whistling,  
Write her every day.  
Would you some kind service render,  
Sweet attention pay,  
Then you must write her,  
When you are away.  
Would you her home life brighten?  
Would you all her sorrows lighten?  
Would you sweet affection tighten?  
Write her every day.  
And, however far you wander,  
I am sure "I would pay,  
Could you see her road and ponder  
Over what you say.  
Have you a cold or grip,  
Fountain pen charged to the tip,  
Then don't let the elan slip,  
Write her every day.  
If you chance to gush a little,  
And perhaps you will,  
She will grant you full acquittal,  
For his sake say:  
Write her genuine love letters,  
Riveting new love's fetters,  
These are the best of all letters,  
Write her every day.

**Should Read More.**  
[Burlington News.]  
It is generally conceded that this is a reading age, yet one who comes in touch with the general run of humanity as do the doctors, lawyers, ministers and editors, sees every day people unable to converse on or to understand the doings of the age because they read neither books nor newspapers. The price of such a knowledge and the time to acquire, at least, an intelligible part is in the reach of nearly all, and it is their own fault.  
The man who undertakes to be intelligent and does not read the newspapers, at least, is like a lawyer without a knowledge of law, a doctor without a knowledge of materia medica, a preacher without a knowledge of the Bible. You see the point? Then read a part of your rest time. You will find it pays in more ways than are mentioned here.

**DR. HARTMAN SAYS**  
Now is the Time to Guard Against Colds—The First Cold Weather.  
In a recent lecture at the Surgical Hotel Dr. Hartman is reported as saying that no one need catch a cold if he is willing to give the matter slight attention; that a cold is the beginning of chronic catarrh, consumption, disease of the liver, stomach, kidneys and pelvic organs. All this could be prevented by taking his advice. The doctor's professional duties compelled him, for many years, to be much on the road night and day, by carriage, railroad and steamboat. During all this time he never caught a cold. This could not have been done without Pe-ru-na: he says. At the slightest evidence of a cold a few doses of Pe-ru-na invariably checks it.  
This is especially seasonable advice, for the cold winter is here, with its storms, sudden changes, sleet, rain and snow. Thousands of people will contract diseases from which they will never recover, by catching cold. Dr. Hartman's advice should be heeded. Pe-ru-na cures catarrh of any stage or location. It is the most popular remedy for la grippe, coughs, colds, etc. Send for a free copy of an illustrated book on catarrh. It contains sixty-four pages of valuable instruction. Address The Pe-ru-na Drug Manufacturing Company, Columbus, O. Ask your druggist for a copy of The Pe-ru-na Almanac for 1896.

## MAN AND WIFE.

**AN ARTICLE INTENDED FOR BENEFICITS  
TO READ.**

Advice For Those Who Have Just Come Into the Rights of a Husband—Also For Those Who May Be Called "Old Stagers" in the Matrimonial Harness.  
[Yendis in Berkeley (Va.) Graphic.]  
You now, no doubt, consider yourself the happiest of men, and you have reason to think yourself so. You have obtained that for which you have been seeking. It has been an object of your pursuit to find someone worthy of your affections and calculated to increase your happiness. You have found the prize and she has left her home, her family and friends, to share in your pleasures and sorrows. She has given to you her whole heart. On you now rests much, most of her happiness. As the vine twines around the majestic oak while at the same time it acknowledges its superior height and strength, so is the love of woman. Meek and confiding, she leans on him she has chosen for a companion. She looks to him as a protector. She expects from him sympathy. Oh! there is aught that is pure and heavenly on earth is sacred union of souls, this affection which knows no desire beyond the happiness of each other—no wish nor pleasure that both may not share. But in proportion as these feelings are ardent, these affections are pure and holy, so are they delicate and sensible to neglect. The heart that is barren of fond affections feels an unkind word, but that which is full of confiding love an unkind word will wound. Bear this, then, constantly in mind; if you wish to keep the affections of her you have chosen, show her that she has your whole heart. True affection is not to be gained by flattery. Friendship which truly deserves the name is not gained with a golden bait, nor lured with any sunny smile. "Love, and love only is the loan for love."  
Most young females possess warm affections and know but little of life and its realities. They expect when they marry to be in a state of perfect happiness. They think not of care or responsibility. They think only of being with one whom they love above all others. Shall this fond expectation be disappointed? Shall these affections be destroyed? Shall this devoted heart be crushed with all these bright hopes clustering thick about it? Ah, no! It is the duty of the husband with a kind and gentle hand to temper, rather than with a cold hand to chill them. He must never allow that vulgar expression to prove true—"Courtship and marriage are very different things." They should not be different. You may, and you ought to, show to your wife all those endearing attentions which first arrested and fixed on you her affections. Never let her feel the difference between a lover and a husband, or rather be as much a lover after marriage as before. It is often said that man is an active, restless being, full of excitement and pleased with all that is new. But if he is this he is also a social and domestic being. You are actively engaged in business, and while you are so, are contented. You mix much in society, enter into public affairs of interest, and join with others in the familiar discussion on the topics of the day. But are you satisfied with these? Will these, and these alone, make you happy? They cannot. When the day, with its bustle and cares is over, you return to your quiet fireside. And then you desire to meet one on whose much of your happiness depends. Do you wish your step to give her pleasure? Would you have her welcome you with smile and receive from her kind words? Do the same by her. You wish your family well arranged? Are you desirous that prudence, order, neatness and good taste should make its several parts? Make these cares a pleasure to her, by being yourself pleased when you see them well performed. She will, if before deficient, gradually acquire a habit of attention and consideration, as indeed they are eminently her sphere of duty. When you choose a wife do not probably think her handsomer than any other, or more learned than any other, but you thought she possessed that union of qualities, that "happy medium" which was best calculated to make you happy. Never fear to let her be sensible of this. Never let the fear of jokes or smiles prevent your showing it, in the presence of others. A foolish fondness, an affected politeness is indeed almost disgusting as we sometimes see it displayed by married people. And it is often to my mind an indication of a want rather than an overplus of affection. But there is a politeness that springs from the heart; there are attentions which a true interest and affection prompt, and these should never be neglected. Oh, tell it not in Christendom that your affections are not inviolable. Common consent and the providence of God has made the husband superior to the wife. But it is not necessary to assert this superiority. If done, it tends to lessen the affection of both. If your wife has the proper views and feelings she will show sufficient deference to your opinion without being reminded of it. It is the distinguishing mark of civilized society, it is a peculiar excellence of Christianity that woman is made the companion not the slave and dependent of man. The times gone by when

## ABOUT SOUND MONEY.

**A DISTINGUISHED FOREIGNER ON OUR  
FINANCIAL TROUBLES.**

The Forum's Leading Article For December—M. Paul Leroy-Beaulieu, sympathetic European observer, writes concerning the Financial Problems of the United States.  
[The Forum.]  
The leading article in *The Forum* for December is probably the clearest analysis of the present financial situation in the United States that has yet appeared. The article is contributed by M. Paul Leroy-Beaulieu, the distinguished French economist, who lays down, from the point of view of a sympathetic European observer, the "Conditions for American Commercial and Financial Supremacy." He says that there is much surprise throughout Europe that a great nation like the United States should allow its development to be hampered by frequent and severe crises, and that it should be unable to discern their causes or lack decision to remove them from its path. He thinks that the failure of the American government to redeem its paper currency after the War was a great and vital error; whose evil influences are still felt. In his opinion, the United States government should cease to issue paper money, resuming this task to the banks. M. Beaulieu points out that the geographical position of the United States is such that it can aspire to take from England, in the course of the next century, its commercial and financial supremacy, but that in order to do this the dollar must be given the qualities of the pound sterling. In other words there must be no sort of doubt that it is a gold dollar. After warning Americans not to be duped by the ambiguous expressions as to bimetalism, indulged in by European statesmen for political effect, he calls attention to the enormously increasing output of gold, and says that, in view of this fact, the bimetalism movement is bound to collapse.  
An advance in the money rate in order to arrest the outgo of specie, particularly gold, is sure to succeed if the government does not disturb the natural course of operations by artificial measures. Such an advance checks the imports of merchandise, and, on the other hand stimulates exports. It draws capital from abroad to seek the better returns which are the consequences of this advance. It induces a certain number of the holders of public and other securities to part with them, and influences foreign capitalists to purchase them. Thus whenever the banks, public or private, are charged with the protection of the metallic reserve of the country, they accomplish it with certainty by this sovereign method of raising the money rate. In a normal condition of international financial relations, this advance will be moderate, and the country experiences only slight detriment, a light and momentary embarrassment, not to be compared to the shock and discredit resulting from an outgo of gold the end of which cannot be calculated. On the contrary, when the State issues the fiduciary currency, as in the United States, it has no real means of protecting the metallic reserve. It cannot raise the discount rate, for it does not discount commercial paper. It is under obligation to pay gold to all who demand it, without any power to regulate or reduce the demand. It is absolutely disarmed. Its sole resource is to secure specie by loans abroad. But as these loans have no effect on the general current of business, their proceeds are soon exhausted, and they must be renewed. This incapacity to protect its reserve is the chief reason why a State is not fitted to issue fiduciary money.

**WHY THE UNITED STATES IS UNABLE TO STOP GOLD EXPORTS.**  
THE ATTITUDE OF EUROPE TOWARD BIMETALLISM.  
There is not a single European country in a normal financial condition, that attaches the slightest importance to bimetalism. From time to time some Member utters in Parliament a few equivocal words on the subject, seeking to avoid stripping the bimetalists absolutely of all hope. But America must not be duped by these ambiguous expressions. At bottom not a country, not a government of Europe has the least wish to make the least change in the established monetary system, that is, in the pre-eminence of gold and the secondary and circumscribed function of silver. If from time to time the bimetalists obtain some vague Ministerial promises to study the monetary problem, it is due to the habit, common to all European statesmen, of avoiding offending or definitely estranging any group of voters, even one of slight importance.

**A NORTH CAROLINA ENTERPRISE.**  
The Tyson & Jones Buggy Company's Exhibit at Atlanta.  
We take pleasure in publishing the following concerning a well known meritorious North Carolina enterprise, the Tyson & Jones Buggy Co., of Carthage. Their buggies are sold in Henderson by Harris, Gooch & Co. Having seen their exhibit at the Exposition, we endorse the following from the *Aberdeen Telegram*:  
That progressive and enterprising firm of carriage builders, the Tyson & Jones Buggy Company, who have done more in the last fifteen years to advertise this county than anything else combined, has an excellent exhibit of their fine carriages. They were the only Southern carriage builders that had the grit and enterprise to make an exhibit. They had to go to a heavy expense to make an exhibit, but when it comes to judicious advertising they do not let expenses stand in the way. We spent twenty years of our life in the carriage business and claim to be somewhat of a judge of fine vehicles, and although some of the best manufacturers in the country are represented here, we unhesitatingly say that the Tyson & Jones Buggy Company's display is equal to, if not the best, at the Exposition. Mr. T. B. Tyson, Jr., the hustling Secretary and Treasurer of the firm, was in charge while we were there, and was kept busy showing people through, giving prices and booking orders. Their exhibit of eleven jugs consisting of a midway trap, bellamy trap, English T cart, victoria pheasant, conopy top surry, shell body cabriolet, 2 victorias, campirockaway, and two buggies. This firm is now selling their vehicles from Maryland to Texas. And it is the wish of every Carolinian that instead of manufacturing 3,000 vehicles a year they may soon be making 10,000. In addition to the carriage exhibit in this building quite a number of the best manufacturers of bicycles have large exhibits of their goods.

**After a Quadrille.**  
[Judge.]  
He—Ah, Mademoiselle, if I were rich and lovely as you are I know what I would do.  
She—Marry a count, I suppose.  
He—No, not at all.  
She—What, then?  
He—If I were you I'd marry me.

**STATE OF OHIO, CITY OF TOLEDO, Lucas County.**  
Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and State aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.  
FRANK J. CHENEY.  
Sworn to before me this 5th day of December, A. D. 1888.  
A. W. GLEASON.  
Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.  
Sold by druggists, 75c.

[Numerous are the people who have "built better than they knew." A small boy in one of the public schools was asked to define a demagogue. "A demagogue," he said, "is a vessel that holds wine, gin, whiskey or any other liquor."—*Bingo News.*

**PECULIAR** in combination, proportion and preparation of ingredients. Hood's Sarsaparilla possesses great curative value. You should try it,

## MAN AND WIFE.

when women were thought no souls. In physical strength and active labor they must yield, but they may, and often do, possess as much firmness of mind and strength of purpose as the other sex.

In order, then, to make your wife happy, yourself so, and your home pleasant to both, follow the dictates of duty and affection. Then she will have no desire to seek pleasure abroad. She will not desire the admiration of others if she have your confidence. She will be ready to give up the allurements of gaudy and fashion, for the more enduring pleasure of quiet domestic happiness. Nothing in life is so pure and devoted as woman's love. It matters not whether it be exerted for husband or child, sister or brother, it is the same pure unquenchable flame, the same constant and immaculate glow of feeling, whose most proper food is misfortune, and whose unendurable touchstone is trial, where true friendship is tested and proved. Do not give her one token of love, one kind word or gentle look, even if it be amid desolation and death, the feelings of that faithful heart will rush forth as a torrent, in spite of every earthly bond of mercenary tie. More priceless than the gems of Golconda is a virgin's heart, and more devoted than the idolatry of Mexico is a woman's love. It is a principle and characteristic of her nature, a faculty and intuition which absorbs and concentrates all the fervor of her soul and the depths of her bosom. There is more thrilling felicity derived from a union of true, guileless and uncontaminated hearts than all the conquests of Alexander or Napoleon, the wisdom of Socrates or the wealth of Croesus.

The people believe what they read about Hood's Sarsaparilla. They know that it is an honest medicine, and that it only does what it says you should get only Hood's.  
Hood's Pills cure all liver ills, relieve constipation and indigestion. 25c.

But America must not be duped by these ambiguous expressions. At bottom not a country, not a government of Europe has the least wish to make the least change in the established monetary system, that is, in the pre-eminence of gold and the secondary and circumscribed function of silver. If from time to time the bimetalists obtain some vague Ministerial promises to study the monetary problem, it is due to the habit, common to all European statesmen, of avoiding offending or definitely estranging any group of voters, even one of slight importance.

**WHY THE UNITED STATES IS UNABLE TO STOP GOLD EXPORTS.**  
THE ATTITUDE OF EUROPE TOWARD BIMETALLISM.  
There is not a single European country in a normal financial condition, that attaches the slightest importance to bimetalism. From time to time some Member utters in Parliament a few equivocal words on the subject, seeking to avoid stripping the bimetalists absolutely of all hope. But America must not be duped by these ambiguous expressions. ## Nervous Pure Blood

People should realize that the only true and permanent cure for their condition is to be found in having Pure Blood

**Hood's Sarsaparilla**  
And therefore it is the only true and reliable medicine for nervous people. It makes the blood pure and healthy, and thus cures nervousness, makes the nervous system strong, gives sweet sleep, mental vigor, a good appetite, and a clear complexion. It does all this, and cures Catarrh, Eczema, or Salt Rheum and all other blood diseases, because it

**Pure Blood**  
Results prove every word we have said. Thousands of voluntary testimonials fully establish the fact that Hood's Sarsaparilla Be Sure to Get Hood's Cures

**CATARRH**  
LOCAL DISEASE,  
and is the result of cold and  
depression of the system.  
Ely's Cream Balm

**W. A. McGuire,** a well known citizen of McKay, Ohio, is of the opinion that there is nothing so good for children troubled with colic or cramp as Chamberlain's Colic Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having his little boy himself troubled with a severe colic, he used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 25 and 50 cent bottles for sale by M. Dorsey, druggist.
