ity and public safety, and it has been asseried that those whom I have the honor for the time being to represent not only meditate an attack upon the rights of property, but are the focs both of social order and national honor.

Those who stand upon the Chicago plat form are prepared to make known and to Studies over E. G. Davis' store, Main defend every motive which influences them, every purpose which animates them and every hope which inspires them. They un-

derstand the genius of our institutions, they are stanch supporters of the form of government under which we live, and they build their faith upon foundations laid by the fathers. Andrew Jackson has stated, with admirable clearness and with an emphasis which cannot be surpassed, both the duty and the sphere of government. He said: "Distinctions in society will always exist under every just government. Equality of talents, of education or of wealth cannot be produced by human institutions. In the full enjoyment of the gifts of heaven an ', the fruits of superior

industry, economy and virtue every man is equally entitled to protection by law. We yield to none in our devotion to the doctrine just enunciated. Our campaign has not for its object the reconstruction of society. We cannot insure to the vicious the fruits of a virtuous life; we would not invade the home of the provident in order to supply the wants of the spendthrift; we do not propose to transfer the rewards of industry to the lap of indolence. Property is

and will remain the stimulus to endeavor and the compensation for toil. We believe, as asserted in the Declaration of Independence, that all men are created equal, but that does not mean that all men are or can be equal in possessions, in ability or in merit. It simply means that all shall stand equal before the law, and that government officials shall not, in making, construing or enforcing the law, discriminate between citizens. for gas, a box. There are 36 doses in

Quotes From President Lincoln. I assert that property rights, as well as the rights of persons, are safe in the hands of the common people. Abraham Lincoln, in his message sent to congress in December, 1861, said, "No men living are more worthy to be trusted than those who toil serves the right to discuss his official con-

up from poverty, none less inclined to duct. take or touch aught which they have not honestly carned." I repeat his language with unqualified approval and join with him in the warning which he addednamely, "Let them beware of surrendering a political power which they already possess, and which power, if surrendered. will surely be used to close the doors of advancement against such as they and to fix the temerity to oppose it. Three parties-

Jefferson has stated that one prevent men from injuring one another, those who have made a profit by furnishing gold to the government in the hour of its sentiment of the vast majority of the people of the United States when I say that a

half of all the people would make our government independent of any combination f ilnanciers, foreign or domestic. Contraction of the Currency.

Let me say a word now in regard to cerain persons who are pecuniarily benefited by a gold standard, and who favor it not from a desire to trespass upon the rights of others, but because the circumstances which

surround them blind them to the effect of the gold standard upon others. I shall ask you to consider the language of two gentlemen whose long public service and high standing in the party to which they belong will protect them from adverse criticism by our opponents. In 1869 Senator Sherman said: "The contraction of the currency is a far more distressing operation than scrators suppose. Our own and other nations have gone through that operation before. It is not possible to take that voyage without the sorest distress. To every person, except a capitalist out of debt or a salaried officer or annuitent, it is a period of loss, danger, lassitude of trade, fall of wages, suspension of enterprise, bankruptcy and disaster. It means ruin to all dealers whose debts are twice their business capital, though one-third less

than their actual property. It means the fall of all agricultural production without any great reduction of taxes. What pru dent man would dare to build a house, a railroad, a factory or a barn with this certain fact before him?" As I have said before, the salaried officer referred to must be the man whose salary is fixed for life and not the man whose salary depends upon business conditions. When Mr. Sherman describes contraction of the currency as disastrous to all the people except the capitalist out of debt and those who stand in a position similar to his, he is stating a truth which must be apparent to every person who will give the matter careful consideration. Mr. Sherman was at that time speaking of the contraction of the volume of paper currency, but the principle which he set forth applies if there is a contraction of the volume of the standard money of the world. Mr. Blaine discussed the same principle

in connection with the demonstization of silver. Speaking in the house of representatives on the 7th of Feburary, 1878, he said: "I believe the struggle now going on in this country and other countries for a single gold standard would, if successful, produce widespread disaster in and throughout the commercial world. The destruction of silver as money and the establishing of gold as the sole unit of value must have a ruincus effect on all forms of property except those invested which yield a fixed return in money. These would be enormously enhanced in value and would gain a disproportionate and unfair advantage over every other species

ers of investments which yield a fixed re-Much solicitude has been expressed by turn in money" can regard the destruction greenbacks, and the treasury notes, issued

expect the holders of other forms of prop-

erty to protest against giving to money a

The theoretical advantage of the bimetallic system is best stated by a European ness, and these may make enough in the writer on political economy who suggests gold, and this law created demand has renegotiation of loans to offset the losses the following illustration: A river fed sulted in increasing the purchasing power from two sources is more uniform in volof each ounce of gold. The restoration of As long as human nature remains as it is ume than a river fed from one source, the bimetallism in the United States will take there will always be danger that, unless reason being that when one of the feeders away from gold just so much of its puris swollen the other may be low, whereas chasing power as was added to it by the actment, those who see a pecuniary profit a river which has but one feeder must rise demonetization of silver by the United for themselves in a certain condition may or fall with that feeder. So in the case of States. The silver dollar is now held up to yield to the temptation to bring about that | bimetallism. The volume of metallic monthe gold dollar by legal tender laws and ey receives contributions from both the not by redemption in gold, because the of the main duties of government is to gold mines and the sliver mines, and standard silver dollars are not now retherefore varies less, and the dollar, restdeemable in gold either in law or by adand never was that duty more important | ing upon two metals, is less changeable in ministrative policy. than it is today. It is not strange that | its purchasing power than the dollar which We contend that free and unlimited coin

rests on one metal only. age by the United States alone will raise If there are two kinds of money, the opthe bullion value of silver to its coinage extremity favor a financial policy which tion must rest either with the debtor or value, and thus make silver bullion worth will keep the government dependent upon with the creditor. Assuming that their \$1.29 per ounce in gold throughout the them. I believe, however, that I speak the rights are equal, we must look at the inworld. This proposition is in keeping with terests of society in general in order to denatural laws, not in defiance of them. The termine to which side the option should be best known law of commerce is the law of giver. Under the bimetallic system gold wise financial policy administered in besupply and demand. We recognize this and silver are linked together by law at a law and build our argument upon it. We fixed ratio, and any person or persons owning any quantity of either metal can apply this law to money when we say that a reduction in the volume of money will

have the same converted into full legal raise the purchasing power of the dollar tender money. If the creditor has the right We also apply the law of supply and de to choose the metal in which payment mand to silver when we say that a new shall be made, it is reasonable to suppose demand for silver created by law will raise that he will require the debtor to pay in the price of silver bullion. Gold and silver the dearer metal if there is any perceptible are different from other commodities in difference between the bullion values of that they are limited in quantity. Corn, the metals. This new demand created for wheat, manufactured products, etc., can be the dearer metal will make that metal dearer still, while the decreased demand for the cheaper metal will make that metal cheaper still. If, on the other hand, the debtor exercises the option, it is reasonable to suppose that he will pay in the cheaper metal if one metal is perceptibly cheaper than the other, but the demand thus created for the cheaper metal will raise its price, while the lessened demand for the dearer metal will lower its price. In other 66 foot cube. Because gold and silver are | a box. words, when the creditor has the option, limited, both in the quantity now in hand the metals are drawn apart, whereas and in annual production, it follows that when the debtor has the option the metals legislation can fix the ratio between them. are held together approximately at the ratio Any purchaser who stands ready to take fixed by law, provided the demand created the entire supply of any given article at a is sufficient to absorb all of both metals certain price can prevent that article from presented at the mint. Society is therefalling below that price. So the governfore interested in laving the option exerment can fix a price for gold and silver by cised by the del tor. Indeed there can be creating a demand greater than the supuo such thing a real bimetallism unless ply. International bimetallists believe that the option is excicised by the debtor. The several nations, by entering into an agree exercise of the option by the debtor ment to coin at a fixed ratio all the gold compels the creditor classes, whether and silver presented, can maintain the domestic or foreign, to exert themselves to maintain the parity between gold ratio. When a mint price is thus estaband silver at the legal ratio, whereas lished, it regulates the bullion price, bethey might find a profit in driving cause any person desiring coin may have one of the metals to a premium if they the bullion converted into coin at that could then demand the dearer metal. The price, and any person desiring ballion can right of the debtor to choose the coin in secure it by melting the coin. The only which payment shall be made extends to question upon which international bimetalobligations due from the government as lists and independent bimetallists differ is well as to contracts between individuals. Can the United States by the free and ungovernment obligation is simply a debt limited coinage of silver at the present due from all the people to one of the peolegal ratio create a demand for silver ple, and it is impossible to justify a policy which, taken in connection with the dewhich makes the interests of the one permand already in existence, will be sufson who holds the obligation superior to ficient to utilize all the silver that will be the rights of the many who must be taxed presented at the mints? They agree in their to pay it. When, prior to 1873, silver was defense of the bimetallic principle, and at a premium, it was never contended that they agree in unalterable opposition to the national honor required the payment of gold standard. International bimetallists government obligations in silver, and the cannot complain that free coinage gives a Matthews resolution, adopted by congress benefit to the mine owner, because interin 1878, expressly asserted the right of the national bimetallism gives to the owner of United States to redeem coin obligations silver all the advantages offered by indein standard silver dollars as well as in gold pendent bimetallism at the same ratio. International bimetallists cannot accuse the

Upon this subject the Chicago platform reads, "We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the government of redceming such obligations in either silver coin or gold coin." Carlisle's Testimony.
