

THE GOLD LEAF.

HENDERSON, N. C.

THURSDAY, SEPT. 29, 1898.

TELLING THEM OF TAMPA.

(George Hobart, in Baltimore American.)

Heavy months I've spent in Tampa, where the lushness of the tropics...

There's another curious product of that most peculiar land...

Tell you all about our camp life? Certainly—please pass the bread?

Well, we got up in the morning and at night we went to bed...

Yes, and then, again, we—Mother! what fine gray you make!

Did we have good meals at Tampa? Yes, indeedly—in a horn!

Beats the land afforded—Sister give me one more ear of corn!

Well, as I was saying, camp life is—Say, Sister, pass the law!

Down at Tampa—what's that, Mother? Did I hear you mention pie?

Yes, indeedly—in a horn! Meeting financial obligations should be encouraged...

Down at Tampa—what's that, Mother? Did I hear you mention pie?

Yes, indeedly—in a horn! Meeting financial obligations should be encouraged...

Down at Tampa—what's that, Mother? Did I hear you mention pie?

Yes, indeedly—in a horn! Meeting financial obligations should be encouraged...

Down at Tampa—what's that, Mother? Did I hear you mention pie?

Yes, indeedly—in a horn! Meeting financial obligations should be encouraged...

A MAN'S WORD SHOULD BE HIS BOND.

In the good old days maybe this was so—a man's word was as good as his bond.

What a glorious world this would be and how much of worry and anxiety would be dispensed with if every man had implicit confidence in his fellow man and that confidence were never abused.

These thoughts are suggested by an article in the Salisbury Sun, under the above heading, as follows:

A man's word should be his bond. Nothing is truer and nothing would restore confidence between man and man more readily or surely.

This would certainly bring about a better era. The question of paying debts is, indeed, an important one.

It is radically and most positively wrong to cheat a man out of his money.

Too many people enter into this matter lightly and look upon debt-making as a trivial sort of a thing.

This should not be the case. When a debt of any kind is made the party making it is morally bound to pay it.

It is made when there is no possible way to settle it. We urge the people going in debt make an honest effort to pay the liability.

Col. Henry, the French gentleman who recently committed suicide on account of his complicity in the forgeries against Capt. Dreyfus, looks anything like his picture in some of the newspapers, the surprise is that he didn't kill himself before the conspiracy against Dreyfus was ever conceived.

DeWitt's Witch Hazel Salve has the largest sale of any Salve in the world. This fact and its merit has led dishonest people to counterfeit it.

Look out for the man who attempts to deceive you when you call for DeWitt's Witch Hazel Salve, the great pile cure. Phil H. Thomas.

THINKS THE NEWSPAPER BUSINESS OVERDONE.

The Sanford Express has been making observations on the newspaper business in the State—the proneness to inaugurate new enterprises of this kind and the tendency to overdo the thing.

There is no business in North Carolina so overdone as the newspaper business, and yet every fellow who can write a few illegible sentences, set a stick of type, and raise enough money to buy an old press and a few sheets of old second-hand paper is rushing into the business with posterity advertisement to the effect that he is going to publish "a live paper."

Such as the world has never seen before. The result is he helps to starve out the paper in the town or county where he opens, runs his own into the ground and leaves indebted to everybody for failure of promises that can never be made good.

By this sort of tomfoolery the best papers in the State are cramped, impoverished and made to lose money. What has become of the foolkiller?

A GREAT record of cures, unequalled in medical history, proves Hood's Sarsaparilla possesses merit unknown to any other MEDICINE.

Patent Medicine Proprietor—Hereafter all testimonials must be accompanied by orders for at least half a dozen bottles of medicine.

Patent Medicine Proprietor—If these people want to see their names in print, they ought to pay for it.

EX-JUDGE Connor the Democratic nominee for the House in Wilson county, and Hon. R. B. Green and Mr. John C. Thomas the nominees for the Senate in the Forsyth-Davidson district is but additional evidence that the party is selecting its wisest, most conservative men for their law-makers.

In this crisis, the people demand the services, though involving sacrifices, of our best citizens, and in no instance have they failed in securing such—Charlotte Observer.

The Hunting Season. Col. F. A. Olds, writing in the Charlotte Observer, says: The hunting season is near at hand. This is a great time for game. People who ought to know tell me game has increased in the past few years.

It certainly has in this section. One reason is that nowadays hogs, those great destroyers no longer range the woods, and the latter are growing up thicker and afford a far better cover for game. Hogs kept down undergrowth. If people who have comfortable homes in good shooting sections would advertise that fact in the New England and middle States and as far South as Washington they would attract sportsmen who would board with them, to the mutual advantage of all persons.

There is more in this suggestion than may appear to the casual reader. Sportsmen are good fellows, too, and make the best of good company.

Catarrh Cannot Be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure them you must take internal remedies.

Hall's Catarrh Cure is a quick medicine. It is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is a quick medicine. It is taken internally and acts directly on the blood and mucous surfaces.

PEAVINE HAY.

How Capt. Self Cures it Sound and Bright Without Losing Leaves.

As this is the time for saving peavine hay the following method as successfully practiced by a Rutherford county farmer, as published in the Lincoln Journal, will be of interest just now:

The value of peavine hay is recognized everywhere, but the difficulty heretofore encountered in curing it has somewhat limited the production.

One of the finest farmers in the State is Capt. R. C. Self, of this county, who has demonstrated the fact that peavine hay can be harvested and cured with less trouble than any other. His success in curing it has become known and he is constantly in receipt of enquiries as to his method.

Two years ago he tried the method as an experiment. He mowed the vines in the morning and let them until the afternoon of the next day, when, if no rain had fallen, he raked the hay into cocks. The next morning, as soon as the dew had dried off, he hauled the cocks to his barn lot and packed the vines into rail pens ten feet square.

He then mowed the hay, putting seven two-horse loads to a pen. On the third morning after the vines had been packed into the pens, smoke was seen issuing from every crevice, and the vines were found so hot one could scarcely bear his hand on them.

The smoke or steam continued to issue from the pens until the fifth morning after they were packed, then it ceased altogether.

Capt. Self naturally concluded that his experiment was a failure, but when he opened the pens in the morning he found the hay beautifully cured. It was nice, bright, sweet and absolutely free from mustiness and not a leaf fell from a vine.

Last year he used the same method, with the same result.

Capt. Self says the vines should be tightly packed around the edges as to exclude the air and the vines should be weighted down and the pens well covered. His plan is to lay rails across the top of the pen and top this off with straw.

PEAVINE HAY.

Another Practical Farmer's Experience Shows it Easy to Cure. (Lincoln Journal.)

EDITOR LINCOLN JOURNAL.—With your permission I will send my experience in making peavine hay to that of Capt. Self's, as given in last week's issue. I will first state that for several years I have been reading the Practical Farmer, published at Philadelphia. It has a corps of writers, who are in fact practical farmers, among them Prof. W. F. Massy, of our State, who as authority on all subjects pertaining to farming in the South, has no equal. It was by his advice that I made the following successful experiment with peavines last season.

My peas were sown late after harvest, and were not ready to cut until late in the fall when the days were short and the sun not so hot for curing. I mowed the vines when there were a few grown peas on them, beginning after the dew was off in the morning. The next afternoon I raked them in wind rows. The next afternoon I put them in shocks and began hauling into barn next day, being careful not to haul them when there was any dew. There were no weeds or grass in them and they lay as if they were only wilted a little. Of course they were heavy to handle.

I put them in an open log barn lot. Did not tramp them any as they were green and settled down close. In a day or two they began to heat and continued to smoke and sweat for several days. As I had a period they must not be handled or they will surely spoil. Most farmers would conclude that the hay was going to heat and unless they went to work in it and scattered it out it would be lost.

But I did not touch it. When I did in the water and spring it was as fine, bright and sweet as I ever saw. All the leaves were on it, and did not shatter off in the feeding.

Some farmers argue that the leaves are no good for feed any way, but I differ. I want the stalk and leaves both in mine.

Peavines handled in this way are very heavy and would be best put into rail pens, as Capt. Self does, or in a shed or part of barn where you could store them from the ground on up, or there would be danger of rotting down a farm lot where a large quantity of vines were stored.

I think peavines, if properly handled, make the finest hay we can raise and in my opinion will take the place of clover in the Southern States to a great extent. For, with peas, there is no trouble to get a stand, then, if the season is dry and they fail to get large enough to mow for hay, they will pay well to pasture off or plow under to improve the land. J. FRANK WARRICK.

When you call for DeWitt's Witch Hazel Salve the great pile cure, don't accept anything else. Don't be talked into getting a substitute, for piles, for sores, for burns. Phil H. Thomas.

A Strange Case.

TIAN CURED OF CONSUMPTION. Free Trial for All Who Suffer. Writing to me, a family in Oregon, Mo., Will L. Zook, now at San Antonio, Texas, reports his experience as follows:

"As you all know I came here with no money, but by being cured of consumption I was able to get on my feet. I finally broke down completely and came here as a last chance. I had suffered for weeks, containing a list of all the articles of the wash, and padded in the form of a calendar. These may be procured, by enclosing five cents in stamps to cover postage, from any of the representatives of the Seaboard Air Line, or from T. J. Anderson, General Passenger Agent, Portsmouth, Va.

Are you enjoying perfect health? If not the trouble may be due to impure blood. Take Mrs. Joe Person's Remedy. It is a specific for all blood diseases. Sold in Henderson by the Dorsey Drug Co., Phil H. Thomas, W. W. Parker.

Five hundred trading vessels leave the Thames daily for all parts of the world.

A Useful Novelty. A very useful and, by far, the most novel thing of its kind is the Laundry List, gotten up by the Seaboard Air Line. The upper portion is an artistic envelope, containing a list of all the articles of the wash, and padded in the form of a calendar. These may be procured, by enclosing five cents in stamps to cover postage, from any of the representatives of the Seaboard Air Line, or from T. J. Anderson, General Passenger Agent, Portsmouth, Va.

THE IRREPRESSIBLE CONFLICT.

The Contest for White Supremacy is on—Negroes Organize for Mixed Marriages.

(Raleigh Post.) As if the problems, as now existing and to some extent regulated by law, in connection with the relationship of the white and negro races are not sufficiently, we are to be confronted immediately by a crusade, no less significant than bold, inaugurated by a negro meeting at Rochester, New York, recently, to wipe out the laws in States now prohibiting intermarriage between the white and negro races.

The value of peavine hay is recognized everywhere, but the difficulty heretofore encountered in curing it has somewhat limited the production.

One of the finest farmers in the State is Capt. R. C. Self, of this county, who has demonstrated the fact that peavine hay can be harvested and cured with less trouble than any other. His success in curing it has become known and he is constantly in receipt of enquiries as to his method.

The Kind You Have Always Bought

BEARS THE SIGNATURE OF

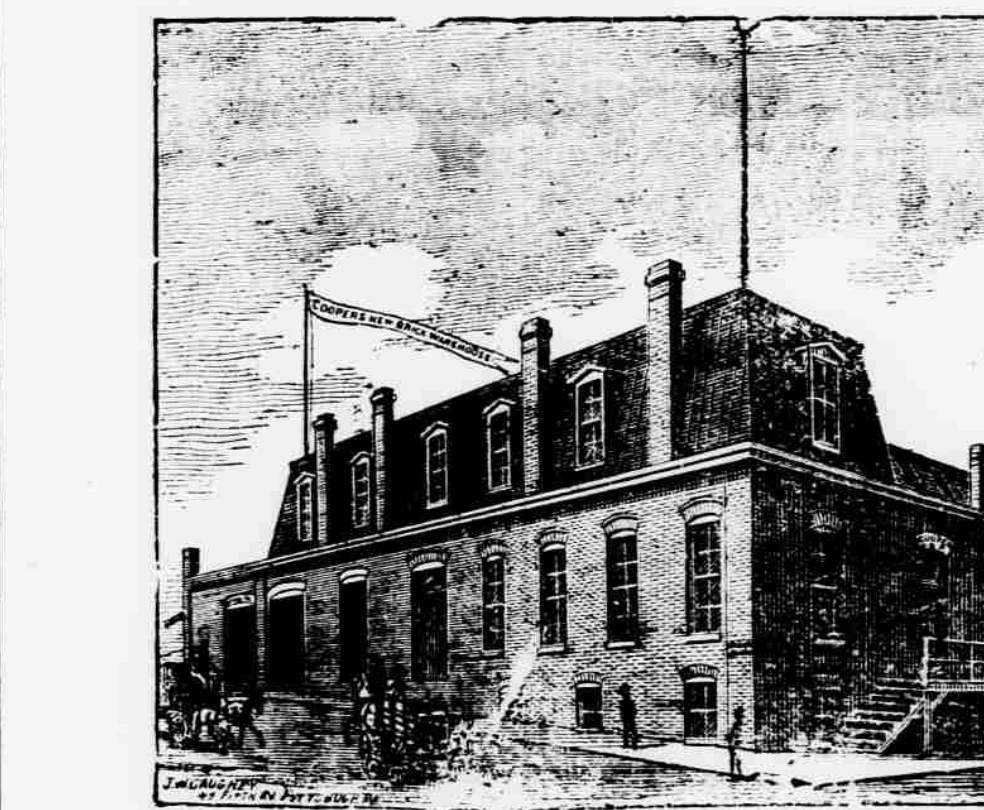

Chas. H. Fletcher

THE CASTORIA COMPANY, 27 MURRAY STREET, NEW YORK CITY.

Henderson is the Market---Cooper's is the Warehouse.

There is no Market that will pay you as much for your tobacco as Henderson. And there is no House that will get you as Big Prices as ours. FAIR DEALING, HIGHEST PRICES, BEST AVERAGES, PROMPT RETURNS.

COOPER'S BRICK WAREHOUSE, D. Y. COOPER, Proprietor, HENDERSON, NORTH CAROLINA.

Sell your Tobacco at the House and Market which Pays you the Most Clear Money. Ours is the largest and best equipped warehouse in this or any other bright leaf market. We have every facility for conducting our extensive business. Ample capital, large and well lighted floor, experienced help and polite service, comfortable camp rooms, plenty of good dry stalls. The past record of Cooper's Warehouse is the best guarantee of what its future conduct will be. Strict personal attention given to all tobacco put on our floor.

Highest Market Prices Guaranteed the Seller, Whether shipped or brought in person. In our hands your interest shall be protected as fully as if you were here to look out for yourself. We work alike for the welfare of all our patrons, without regard to class or distinction, no matter who they are. Come and see us. We promise to send you home satisfied.

GREAT SACRIFICE SALE OF Seasonable Merchandise!

To avoid carrying over to next season, and make room for FALL STOCK soon to arrive, we respectfully announce that All Summer Goods Must be Sold, Even at a Sacrifice.

Now is your opportunity to get New and Stylish Goods at prices that are so low they will absolutely dispel all doubts as to how and where YOU CAN SAVE MONEY. There is no necessity of waiting until after the season for bargains. You can be strictly right up to date in buying High Class Dress Goods, Shoes, Hats, Etc.

In these lines we are now offering Bargains such as are rarely heard of—Bargains Great and Grand as Money Savers. Everything is reduced in Price regardless of cost. The opportunity now presented cannot last a great while. So call early and reap the harvest while it is on. We mean business, and just now business to us means a clearing out of these goods as early as possible, regardless of consequences.

Staple Dry Goods and Groceries.

As heretofore, we have a large and attractive line of General Merchandise, while our Grocery department is always stocked with the choicest and freshest goods of the kind—all of which are sold at LOWEST PRICES. Mill Feed, Hay, Oats, Corn, Salt, Flour, &c., &c., by the car load.
