MASSACRED AT SEA. SEVEN MEN KILLED AND FIVE OTHERS WOUNDED.

The Assassin Takes tharge of the Steamer After Killing the Captain and Saloons, and With a Revolver Knife in His Belt, He Fires on Every One He I'ncounters. .

Copenhagen, May 17.-A telegram from Koping, Sweden, reports that as the steamer Koping last night was passing the Prins Carl a man sprang upon the deck of the latter vessel and shouted: "If any one comes near I will shoot." At the same moment a woman was seen hanging over the side, shricking for help.

The man escaped in a boat. When the Prins Carl was boarded it was found that twelve men on board had been shot, six of whom, including the captain, were dead. The rest were found locked in their quarters. One of the wounded has since died. The murderer is being pursued.

The wounded say they were playing cards in the smoking room about half past eleven with other passengers. when somebody put his head in the room and exclaimed: "Look out. There's a massacre on board."

At the same moment shots were heard. All sprang to their feet in order to leave the cabin; but they found the door fastened on the outside. While they were trying to force the door a shot was fired through the window and hit one of them, a man named Karlson, who fell to the floor. The other three, Schneider, Knoditer and Lindquist burst the door. Linquist, who was the first to step through, received a bullet in his head. Disregarding the wound, he ran after the assassin to the steering room. The fugitive shouted down he speaking tube: "Full speed ahead. The engines were already at full speed; and the engineer replied: "Is that the captain?" receiving the answer "Certainly. Drive her to the devil." The engineer put the engines at full

speed astern. The assassin then ran lown to the engine room and threatened to shoet the engineer if he did not obey. The engineer barricaded himself in the room. At that moment the Koping came dong and the murderer fled in a boat. Further details from Koping show hat the man suddenly started shutting all the doers of the cabins and saloons and then, with a revolver in ither hand and with a dagger and a enife in his belt, he began firing at veryone he encountered. He stabbed the captain in the back and a lady pas-

senger in the breast with the dagger and hacked a boy with the knife. He also shot the mate through the shoulder, and of four gentlemen who were playing cards in the smoking saloon, one was shot in the temple beause he moved when the murderer carned bim not to stir. The Prins Carl was stopped off Kop ng and the murd rer selzed the oppor unity to jump into a life boat and row tway as fast as possible. Search of the steamer discovered

even dead and five wounded. The I'ring Carl proceeded to Stockolm, where the police officials took charge of the victims. A tradesman of Arboga, Sweden, reports that a man giving the name of Gronkiret, of Stockholm, came to him yesterday and secured two revolvers which he fired several times to test Vrite for price list Home Study. o Investigate the Charges Against Captain McG. w n for Killing a Filipine in the arbor of Cebu. Washington, May 17 .- A court of in-Washington on May 21st, composed of Admirals Rodger, Cotton and Terry, to investigate the circumstances attendng the shooting by Captain McGowan, of a Filipino near the U.S. ship Monadnock, in the harbor of Cebu on November 21, 1899, and also the alleged failure of the Captain to report the matter to the commander-in-chief of the Asiatic squadron.

The facts in the case as they are reported to the Navy Department are that the officer was on the deck of his ship at the noon hour when the regular officer of the deck was at dinner below. Hovering about was a native boat, which had been warned away before only to return. It was not conceived that the Monadnock was endangered by the presence of s" h a little craft, but the commanding their had been having much troul in preventing the natives from snaugling rum aboard to the sallors and had given orders that no unauthorized native boats should be permitted to appreach the Monadnock. So when this particular craft failed to make off as required, the capfrighten the crew by firing a shot across the bow. Unfortunately the shot, striking the water, was deflected so as to pass through the body of one of the Filipinos. The wounded man was hau!ed aboard the Monadnock, and after being given first aid, was shipped off to a shore hospital, where he died in the

course of a day or two. This incident was referred to in the press reports from Manila, and after waiting a reasonable period of time to be officially informed the Navy Department made inquiry of Admiral Watson to learn the facts. The Admiral responded that the matter had not been
