IS IT RIGHT For an Editor to Recommend Patent Medicines?

(Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicins which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamber lain's Colic, Cholera and Diarrhoa Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, t we do believe that if a bottle of We have not heard of any great rush | Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. Dr. Hufham paid a deserved tribute to Superintendent Alderman and his able and efficient corps of assistants declaring that they had made the Henderson Graded School one of the best in the State-the most important and useful institution of the town in fact. The Magazine for Midsummer Read-

Filled to overflowing with bright, snappy fiction, timely articles on the world's doings, and special features of great interest. The National Magazine of Boston appears for July in a new and attractive cover design. This issue is called a "Midsummer Fiction Number," and its contents fully carries out this title. There are a number of especially strong short stories by American authors, together with many amusing sketches and some easily the best valure for ten cents on the news stands.

A double frontispiece is presented in this number, of portraits and signatures of William Jennings Bryan and Mrs. Grant's presidency is treated in an interview with a member of his cabinet. The 1500 Cuban teachers visiting the United States have an article especially devoted to them, and a greeting extended in Spanish. The subject of a glacial invasion of New York is interestingly treated. Boston's famous subway system is illustrated and described, and concise facts regarding historic Boston are given. The Chinese situation receives attention, and there is a charming article descriptive of Stevenson's sojourn in San Francisco. The regular departments are as interesting and timely as usual, and altogether, if you want the best magazine to take with you to the shore, mountains or country, you can do no better than buy The National. Desperate Straits of Fusion Bosses.

The fusion bosses are in desperate straits. Seeing themselves beaten by fair means they would result to force. Threats dire and dreadful have been made in other parts of the State and now it comes nearer home to us. We have heard of Zack Garrett's talk Dr. Hufham, chairman of the Board about grave yards at every polling place but as election day is some time in the future little thought was given it believing the hot headed speaker would cool off before that time and refrain from giving the coroner so much work and running the county to great and unnecessary cost thereby. But if Dave Gill's advice is followed this gruesome business is to be proceeded with before the "battle of the ballots." He would have vicious fool negroes take a stick and break the heads of registrars who refuse to register said negroes. The following

xplains itself: The undersigned being duly sworn, doth say, that on the 3rd of July, 1900 a negro came in the Watkins store and told D. H. Gill and W. H. Smith that the registrar had refused to register him and he wished that they would get him registered, whereupon D. H. At the time Mr. Moss was asked to make affidavit to the statement he said he thought it was on the 3rd, but subsequently (and before Mr. Gill's denial of being in Henderson on the 3rd) he recalled that it was on the 4th. As to the material facts in the case, however, both Moss and Wyckoff swear they are true. And in this they are borne out by Mr. W. M. Matthews who also heard the conversation. Mr. Gill makes the following affidavit and we give him the benefit of a publication in this connection:

NEGROES REGISTERING RAPIDLY AND IN LARGE NUMBERS.

They Will be at the Polls, too, to Vote Against the Amendment-All the More Reason Why the White Men Should Not Fall to Register and Vote for it-Distinctively a Race Issue-First Half of Year a Record Breaker for Prosperity in North Statue in Raleigh-Cotton Ten Cents and Likely to Keep up Above Eight Cents Next Season, and Why-Numerous News Notes.

(From Our Regular Correspondent.) RALEIGH, N. C., July 10, 1900. The Republicans have begun their risky game of attempting to intimidate and bulldoze Democratic registrars for refusing to register illegal negro men as coters, as indicated in this correspondnce a week or two ago. And the first "arrest" was made at Winston last Friday (Lieut.-Gov. Rey-

nolds home), at the instance of declaimer Spence Blackburn, Assistant United States District Attorney. The best lawvers here state that the

egistrars have a perfect right, under the new election law, to be exacting in their requirements for a full and legal identification of the man demanding to register. Too many negroes, without a local habi tation and a name that "sticks" from one State to another, have been voting illegally in North Carolina, and the Democrats have the law and the grit to stop this sort of business. No harm will come should have been the 4th instead of to this registrar nor to any other who does his full duty in this matter.

But it should again be remembered that is the desperate and devilish white office-holding "leaders" who are instigating the negroes to take this step-that of swearing out warrants against white registrars. And they are the fellows chiefly to be held responsible, if trouble

NEGROES ARE ALL REGISTERING

An examination of the registration books of this city and reports from a number of other points, show that the negroes will all vote this year—all of them who are legally entitled to do so. Some of the ex-convicts and South Carolina importations of 1898, who got their names on the registration books of that year, by the aid of the "fusion" registrars. will not vote, however; nor will a num ber of negro boys from 17 to 20 years. whom the fusionists will try to vote. But the great bulk of the 120,000 negro voters of the State will vote three weeks hence, and they are registering in a hurry-much more active and anxions o do so than the whites appear to be so far. Of course all of them will vote against the amendment-the very best of reasons why every self-respecting white

man should vote for it. They not only are applying promptly well schooled and unusually glib and ready to "answer" every question put to them under the provisions of the new election law. This fully shows that they have been taught by the white fusionists and local negro bosses before going to the voting precinct to register. It is stated that their "lessons" are taught them, here in Raleigh, at the negro 'lodges" and other secret orders (of which there are scores of them here), and

even at the churches and Sunday-schools, IT IS DISTINCTIVELY A RACE ISSUE. And in settling it no white man ought to vote against his own race. No negro will do it, not one in ten thousand, and surely the Anglo-Saxon race should be as careful and wary of their own welfare as the Ethiopian.

White men, here is a mass of over 100. 000 black votes solidly against you, be Louisburg, where she has been to fore a white vote is east. We have got to overcome that heavy vote before there is even a possible chance for us to carry the amendment and defeat the plans of the negroes and a few office-holding whites to saddle negro rule on us for an indefinite period, if not for all time. But there are (taking the State as a

whole) two white men to every negro and it would be an everlasting disgrace The negro has been "lying low" all dur ing this campaign (by order of his bosses the white and negro office-holders), but now that registration time has arrived they necessarily come from under cover and show us what they intend to do. A shrewd game has been played by the but the game is now up, and it is seen that all this tommy-rot about white men settling this race issue has been a deep laid scheme of the enemies of the white men (of the white men and white women and white children) of our State to fasten negro domination upon us. Be not deceived. Every white man's vote is needed this year, and needed more

badly than for many years. "To your tents, O. Israel!" WHITE MEN MUST REGISTER FASTER. Let no man suppose that because his ame is on the old registration books that he can vote on August 2nd without registering anew. EVERY VOTER must register anew, on the new books, by sunset of Saturday, July 21st, or else he can

not vote this year,
DON'T DELAY THIS IMPORTANT
MATTER ANOTHER DAY. Go now to he residence of your registrar, or have be done on any day except Sunday; but on Saturdays the registrar is to be found at the voting place between 9 a. m. and unset-and there are only two more such Saturdays, remember.

Up to this time the white men are not registering as promptly as the negroessimply because many think, "Well, any day will do." Any day will NOT do. You may be taken ill, be sammoned away, or a dozen reasons may prevent i you delay another day. Let me beg o

you, put it off no longer. The bronze statue of the late Zebulor Baird Vance has arrived in Raleigh earlier than was anticipated, and is now stored away in the State arsenal build ing, where it will remain till August 22nd when the unveiling exercises take place in the Capitol Park here. It is a splendid counterpart of "the great Commoner. That our State continues to prosper more largely than at any time in her history is proved by the fact that nearly 200 business firms and corporations were chartered in North Carolina by the Secretary of State during the first six months of 1900. The first, entitled "The Outsider," appears in the July "The Outsider," appears in the July number of McClure's Magazine. This story as a character study, is one of the most vigorous and amusing Mr. Kipling known Kansas journalist, William Allen White, author of "Boyville Stories."

This is the first of a series of pen portraits of political celebrities by a writer particularly well qualified to write of both their public and private life. The article contains a shrewd estimate of Bryan's political career and throws much | Largest Dealers in the State, Selling at LOW PRICES. light on the causes of his popularity. In "An Unwritten Chapter of Diplomacy," A Maurice Low, the American correspondent of the London Chronicle, gives the history of our present cordial diplo-matic relations with Great Britain, dat-

ing from the beginning of the Venezuela

controversy. The author has omitted no details of hitherto secret history which can properly be made public. An article that will attract particular attention at this time, is that on "Railway Development in China," by Mr. Barclay Parsons, with illustrations from photographs and maps. Bret Harte contributes a story of a romantic episode n a California mining camp, and Cyrus Townsend Brady writes of the "Fall of Quebec." "The Sea Builders," an illus trated article on lighthouses and life-sav ing stations, is also found in this issue The S. S. McClure Co., publishers, 141
