Arts and Forestry and Mines buildings are companion structures of the same size and style, having four corner towers. Two colored compositions above the eastern entrance of the Horticultural building will represent Ceres, goddess of the harvest, in a chariot drawn by three lions, led by Flora and Primavera.

SERVICE BUILDING AT THE PAN-AMERICAN EXPOSITION.

opyright, 1880, by the Pan-American Exposition Co.

The large Service building at the Pan-American Exposition, to be held in Buffalo from May 1 to Nov. 1, 1901, was completed in 32 working days and was the first building erected on the grounds. It is the present home of a large corps of officers and employees having immediate charge of the constructive work of the Exposition. This handsome building is 95 by 145 feet, two stories high. In it are the offices of the director of works, the landscape architect, superintendent of building construction, purchasing agent, chief engineer, mechanical and electrical engineer, with their numerous assistants.

Copyright, 1900, by the Pan-American Exposition Co.

The dignified and stately beauty of the great Electric Tower, which will form the conspicuous centerpiece of the Pan-American Exposition at Buffalo May 1 to Nov. 1, 1901, will command the rapt admiration of every visitor. The entire exterior of the 350 foot high tower will be studded with electric lights.

the north fronts the Midway. The east end is toward the massive Electric Tower, while the west faces the Grand Canal. The general ornamentation of the structure is to be frescoes in a mixture of reds, greens and yellows.

ETHNOLOGY BUILDING, PAN-AMERICAN EXPOSITION.

Copyright, 1960, by the Pan-American Exposition Co.

One of the handsome structures at the great Pan-American Exposition, which is to be held in Buffalo from May 1 to Nov. 1, 1901, will be the Ethnolory building. It will contain an exhibit of unusual interest to all Americans. Ethnology is the science which treats of the division of mankind into races, their origin, distribution and relations and the peculiarities which characterize them. At Buffalo the Ethnology building will be a veritable mine of information concerning the countries of North and South America. This will be peculiarly appropriate for the reason that the Exposition is a Pan-American, or All American, event, and everything of interest concerning the various nations inhabiting the new world discovered by Columbus will be represented by an interesting exhibit in Buffalo when the Exposition's gates open on May 1, 1901. Strange to relate, the most interesting exhibits concerning several countries in South America are already in this country. Peru, for example, will send many interesting exhibits to the Pan-American Exposition and will use her influence to have exhibited in her section the remarkable collection of Peruvian antiquities now owned by various American museums.

POSITIONS Guaranteed Under Res-sonable Conditions. Our facilities for securing positions and the proficiency of our graduates are ten times more roagly endorsed by bankers and merchanta han those of other colleges. Send for catalogue

VETERINARY SPECIFICS

UNITED STATES GOVERNMENT BUILDING, PAN-AMERICAN EXPOSITION.

Frey's Vermifuge -has cured children for 50 years. Sen for tilus, book about the ills and the One bottle mailed for 25 cents. E. & S. FREY, Baltimore, Md.

American Exposition, which is to be held in Buffalo from May 1 to Nov. 1, 1901, the Federal group will consist of three massive structures connected by colonnades. The main building will be 130 feet wide and 600 feet long. The others will each be 150 feet square. The government work is under the direction of James Knox Taylor, supervising architect of the treasury department. The group will be treated architecturally in a modified Spanish renaissance, and the color scheme, in marked contrast to that used at Chicago, will be rich and brilliant.

DUL A

MACHINERY AND THANSPORTATION BUILDING, PAN-AMERICAN EXPOSITION.

Copyright, 1900, by the Pan-American Exposition Co.

This big structure is 500 by 350 feet, with a central court 100 by 175 feet. Its type of architecture is the Spanish renaissance, modified to suit the conditions of the Exposition. The roofs are laid with red tile and the cemented walls are brilliant with color. The colors are to be reds and yellows in light tints. The facades will present an arcaded effect, with broad, overhanging eaves, in imitation of the old mission buildings in California and Merico. The Central Court will be a veritable tropical garden, with a long, narrow pool, containing interesting specimens of aquatic life, and will have seats, where the weary-visitor may rest a moment. The Exposition is to be held in Buffalo in 1901 from May 1 to Nov. 1.
