DIDN'T BITE.

Soms days ago we received from a well known plate matter house a column of ready set stuff, express prepaid, about an alleged violation of the Ohio Pure Food Law.

Accompanying it was an explanatory "notice to the publisher" saying it was sent free of charge by order of parties interested in the subject, and we were, of course, at liberty to use it or not, as we saw fit.

Looks too much like the eleven foot of the Royal Baking Powder Trust sticking up out of this pure (?) food business. We have not forgotten the part played by this concern in trying to secure the passage of a law so labeled through certain State Legislatures to further their own selfish ends, and which action was neatly exposed and fore-stalled by the Grocery World.

The Royal Baking Powder Company beat the GOLD LEAF out of an honest advertising account, but we decline to give publicity to any article about this pure food humbuggery with which they may or may not have had to do, even though it be sent to us under the guise of secrecy and furnished free in plate matter form.

Col. F. A. Olds, writing from Raleigh to the Charlotte Observer, says: Secretary Bruner and Governor Trimble, of the State Museum, are at work on the detailed plans for the installation of North Carolina's exhibit at the Charleston Exposition.

Secretary Bruner's fine taste in such matters is widely known. As has been stated, this State's exhibit will be collective and it is but speaking the truth to say that for it the most commanding position has been chosen. It will be well worthy of that position.

The sickness of Mr. E. L. Bunch, General Passenger Agent of the Seaboard Air Line Railway, at the home of his father-in-law, Col. F. A. Olds, in Raleigh, has already been noted in these columns. Under date of the 17th in his correspondence to the Charlotte Observer Col. Olds says this of his condition at that time:

Mention has already been made of the sickness of General Passenger Agent E. L. Bunch, of the Seaboard Air Line, of typhoid fever. Yesterday evening his sickness became more acute, there were hemorrhages and some trouble of the heart.

He has two physicians and two trained nurses and is given ceaseless attention. The Virginia Democratic Convention which met in Norfolk on the 14th did what had been a settled fact for some time in the nomination of Hon. A. J. Montague, the present very able Attorney General, for Governor.

He had no opposition whatever, the name of no other candidate being placed before the convention. Hon. J. E. Willard received the nomination for Lieutenant Governor and Hon. W. A. Anderson was named for Attorney General. Hon. J. Taylor Ellison, of Richmond, was unanimously elected chairman of the State Democratic organization for his eleventh successive term.

Of course, the Governor of the State is not expected to approve of mob violence, but neither he nor any other person, can prevent the lynching of the brute who is guilty of the unpardonable crime. If it were not for the fact that, to convict, it is necessary for the victims of the heinous lust to go on the witness stand and suffer a second humiliation worse than death, there might be some chance of staying the hand of the mob.—Wadesboro Messenger.

Their Secret is Out. All Sadeville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble.

It is all due to Dr. King's New Discovery, writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough."

It positively cures Coughs, Colds, La Grippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50c. and \$1.00. Trial bottles free at Melville Dorsey, Drug Store.

A TALENTED NORTH CAROLINIAN.

Wilmington Messenger. Mr. John Henry Boner is a native North Carolinian, and of accomplished talents as a prose writer and a poet.

At a time when so many people are indulging in rhyme it may be said that he has produced stanzas that are entitled to be classed as poetry. We regret to see it mentioned that he is in a low condition of health—that he has returned from the North, where he has dwelt for perhaps a quarter of a century, to his native State probably to close his earthly career.

TYPEWRITING MACHINES A NECESSITY.

To the vast majority of newspaper men, in this country at least, the typewriter has become indispensable.

It is not only a boon to the man who prints out copy but to the typewriter who puts it into type, and thus also to the proof-reader who, through its beneficent aid, gets cleaner proofs.

The typewriter machine is a double, triple, many-fold blessing of mechanism. There are five in this print shop now, and more are likely to follow.—Charlotte Observer.

In most of the leading daily newspaper offices of the country the "copy" of every staff reporter is required to be turned in typewritten.

In the office of the New Orleans Times-Democrat a few years ago we were told this was the rule there, one of the requisites of a reporter being that he must be a swift and accurate typewriter as well as a bright and capable man with a nose for news.

The typewriter is fast becoming as necessary a part of the office equipment of the modern newspaper and up-to-date business man as the sewing machine is in the home.

THE SCAR-VETERANS.

Wilmington Messenger, 15th. Hats off! Attention, North Carolina! The brave men who battled for second independence for years—most of them for four long years, men who were of the 125,000 who went out from North Carolina to fight under the glorious Stars and Bars, who belonged to armies that have not been surpassed in modern times for fidelity, obedience to authority, unflinching devotion to the "Lost Cause," unwavering patriotism, pertinacious perseverance and the noblest of all, the ever animated human hearts and a splendid valor that was invincible on fields of gore when not overwhelmed by numbers—those brave men of the greatest war of later centuries, are in the midst of their honor to them.

Welcome to the Cape Fear section; to historic Wilmington and to Wrightsville! May their magnificent patriotism and glorious, most imposing heroism and noble deeds never be forgotten! May "recorded honors" gather around their names." So long as this great State has a history of its origin, its development, its deeds, its patriotism, its consecration to human liberty, religion and civil, so long as high aspirations and the purest and most exalted principles that can control and animate a great, liberty loving people; so long as patriotism and virtue are the bands that bind the hearts most surely so long as "great souls" will turn to each other, and men are made of the grandest type—men who are not "made of stuff so flat and dull that they can let their heads be shook with danger," so long will the manhood of the Confederacy find full vindication and absolute approval. May the men who wore the gray so worthily in times of tremendous wrong as well as of highest patriotism and courage submit, be ever held in grateful remembrance. Though the cause went down at last "under the cloven foot of despotism," 600,000 men battling against nearly 2,800,000, exclusive of 300,000 in the great navy; the cause was holy and just and right, and the time will come when the world will see it, know it, acknowledge it. Defeated yet triumphant. The South preserved its principles intact while asserting its manhood unshaken.

As many several ways, met in one town; did what had been a settled fact for some time in the nomination of Hon. A. J. Montague, the present very able Attorney General, for Governor. He had no opposition whatever, the name of no other candidate being placed before the convention. Hon. J. E. Willard received the nomination for Lieutenant Governor and Hon. W. A. Anderson was named for Attorney General. Hon. J. Taylor Ellison, of Richmond, was unanimously elected chairman of the State Democratic organization for his eleventh successive term.

Believing Dr. Seth Arnold's Balsam a reliable remedy for all bowel disorders, we hereby endorse every 25c. bottle sold by us for give satisfaction or money refunded. Melville Dorsey, druggist.

The Virginia Democratic Convention did what was expected of it in nominating Attorney General Montague for Governor. In the primaries he knocked out the machine, ran over the two Senators, and in the general election he was nominated without a show of opposition being made. Unmindful of North Carolina's experience, the platform declared for primaries for the choice of United States Senators and other officers.—Charlotte Observer.

"WEEK OF WONDERS."

Richmond to Fairly Outdo Herself in a Grand Carnival and Free Street Fair This Fall. Richmond, Va., is preparing another record-breaking week of fun for her visitors. This will be the week of October 7th.

At preparations are on a magnitude that prove the assertion of the Association that the Grand Carnival, Free Street Fair, and Electrical Fete of 1901 will be greater than ever given in the Southeast before. Plans are being made for arching the entire length of Broad street with electric arches, and at the foot of each of these arches will be a handsome pagoda, in which will be displayed electrical devices of all kinds for cooking, baking, ironing, welding, ironing, drying, machinery, and, in fact, a perfect exposition of the possibilities of electricity as now known.

The streets will be lined with booths. Shows will be there galore. Parades will be more plentiful and greater than last year. One day will be given to the military, with Roosevelt and other distinguished men as guests of honor. Electrical fountains will entertain you. Bands will play, and, altogether, all Richmond will more than do herself proud during her "Week of Wonders."

Mr. Daniel Bantz, Ottaville, Ia., says: "I have had asthma and a very bad cough for years, but could get no relief from the doctors and medicines I tried, until I took Foley's Kidney and Bladder Pills. It gave me a moderate relief, and did me more good than all the other remedies combined." For sale by Melville Dorsey.

SPEEDY JUSTICE.

Prompt Arrest, Conviction and Sentence of a Negro Rapist in Mecklenburg County—One Way to Check the Crime of Crimes and Prevent Lynchings.

Raleigh Morning Post, 16th. The State as well as the people of Mecklenburg county are to be congratulated upon the superb conduct, self-control, and respect for the law of the great occasion of the greatest provocation to which civilized man can be subjected.

The negro fiend who assaulted the helpless little woman on Tuesday, was promptly arrested that night, arraigned at the bar of justice Wednesday, and the trial entered upon yesterday. He confessed his guilt, and was promptly identified by the victim. Of course there was excitement, there were threats of violence. And in such a case of "positive" identification, and jury would seem to be as good as another, composed as it would be of the same class of citizens. For this "body of the State" to carry into execution the law made for such offenses would at least have the merit of adding to the embarrassment, to call it by no harsher name, which each of the special venire must feel when called upon to say on oath that he has not "formed or expressed the opinion that the prisoner at the bar is guilty," which each juror must swear to be accepted and permitted to serve.

When an element of doubt exists concerning a party arraigned, this embarrassment is not so apparent; but, as in this Monroe case, there can be no doubt, his own confession is sustained by every circumstance and the unhesitating identification of the lady assaulted. Under such conditions "the body of the people," from whom the jury must be taken at last, can be made so satisfied as to give their verdict without any further delay.

But, that the law should be executed in an orderly manner according to the methods prescribed, and that a great danger to the public, and other, and we may admit the more popular, method tends, it is better that the properly constituted courts should deal with all such cases.

A negro brute violently assaulted a little five-year-old girl of the name of Trinity at the Methodist University of North Carolina, a day or two ago, and the information he gave me was enough to greatly encourage every friend of the State. I confess that I had but a small conception of the remarkable growth of this institution and the great advantages in every respect, library and gymnasium fees and cost of books (\$35) altogether makes a total of only \$85 a year.

And to young men who need assistance and whose abilities warrant it, the College makes a loan of tuition fee of \$50 a year, taking their notes, payable after they have completed their course and make money to pay them.

Thus it is, that if a boy can arrange for his board, he can receive an education at Trinity at almost no cost. I confess that I had but a small conception of the remarkable growth of this institution and the great advantages in every respect, library and gymnasium fees and cost of books (\$35) altogether makes a total of only \$85 a year.

For instance, boys of limited means can now enter Trinity and secure a year's college training for only \$25. They can have a washing, as well as all other necessities. Deduct the board and washing and the tuition alone will cost him only \$75 a year, adding matriculation, library and gymnasium fees and cost of books (\$35) altogether makes a total of only \$85 a year.

Considering the provocation, the imprisonment of the most heinous of criminals by two negroes—one upon a white woman, the other upon a little girl—within twenty-four hours of each other, the guilt of one under arrest acknowledged, the other so strongly maintained by circumstances to amount almost to a certainty, we must repeat that the self-control and respect for law shown by the people of both races of Mecklenburg is alike creditable to the State and ourselves. But, which of the offenses can be committed just after the terrible tortures but recently inflicted upon brutes for like offenses gives but little encouragement to the hope of a good effect upon such felons, of either the orderly execution of the law or the more violent execution of both the law and such offenders. The colored race as such must unite more thoroughly than it has done with the whites in ferreting out and punishing the vicious elements of their race. For its own good, as well as of society generally, this should be done.

THE STATE OF NORTH CAROLINA, IN SENATE, THIS 15th DAY OF AUGUST, 1901. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. MACON'S NEGLECTED GRAVE.

Raleigh Morning Post. We hope the people of our State, especially those who read the Post, failed not to read the article in Sunday's issue concerning the present condition, and ownership, of the grave of Nathaniel Macon. No North Carolinian will read that paper without fully sympathizing with the feelings of the author, and cry shame, shame!

Are there not enough people in this State who sufficiently appreciate the splendid service to State and nation, and the simple but colossal integrity of Nathaniel Macon to contribute one dollar each to purchase at least the burial ground, have been enclosed and improved, with a suitable tablet to show to the passer-by that one who honored his State and people for more than one-third of century lies buried within their midst?

If friends, patriotic North Carolinians, residing in Warren, or nearby, will undertake the movement, the Post will gladly, aye, with pride, do all in its promoting it. A "Nathaniel Macon Monumental Association" should be organized at once.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised and long suffering from Dyspepsia. He writes "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach. Dr. King's Electric Bitters which helped her at once, and after using four bottles, she is entirely well, and is eating anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it is a guaranteed cure. Only 50c. at Melville Dorsey's drug store.

OUR RALEIGH LETTER.

NINETEEN RURAL FREE DELIVERY ROUTES FOR THE RALEIGH DISTRICT.

New School Text Book Incident Closed—Penitentiary Management Developments—Great Blessing to the Boys of North Carolina—The Farmers' Alliance—Epidemic Among Farm Horses—Various Matters of Interest.

From Our Regular Correspondent. RALEIGH, N. C., August 19, 1901. Senator Pritchard and Congressman Pon, of the Raleigh (Fourth) District, have secured the establishment of nineteen free rural mail delivery routes in the Raleigh district. The Senator has the naming of ten and the Congressman nine of the carriers.

This is a great convenience to the country people, and every county in the State should urge its Representative in Congress to secure the establishment of as many of these routes as possible. And it may be added that the more miles of "good roads" the counties have worked the more rural free deliveries they will secure.

TEXT BOOK INCIDENT CLOSED. The new school text book incident has been closed at last, and on Saturday Superintendent of Public Instruction Toon sent out the formal letter to the Board of Education giving the instructions under the form, exclusively, in the free public schools for the next five years.

It is now stated, from one source, that a report of the examination of the penitentiary books, under the management of Superintendent Day, will be given to the public meeting of the Directors on September 26. Director Crossland, who has just examined the Caledonia and the Tillery State farms, says two hundred acres of cotton have been planted, and that the Tillery farm the crops are fairly good.

The speedy arrest and quick trial and conviction of the negro, William Monroe, at Charlotte last week, for the rape of the young wife of a farmer, prevented a lynching. The crime was committed on Tuesday and on Thursday the brute was sentenced to be hung on September 13th.

A big excursion to New York is to be run from Charlotte September 7, largely to accommodate North Carolina merchants. Rate: one fare for round trip on points along the Seaboard Air Line.

At last accounts the negro, Jim Lowry, who murdered Sheriff Chief of Police at Roanoke, Va., on requisition last Saturday, had not been captured. The man arrested at Charlotte was the wrong one. The white tramp, Lyle, arrested for murder at Charlotte, was brought from Roanoke, Va., on requisition last Saturday.

Women are Like Flowers. Healthy and strong and bloom. Sickly and weak and die. Every woman ought to look well and feel well. It's her right and duty, but she might as well try to put out a fire with salt as to try to keep her organs that make her a woman. Upon their health depends her health. If there is anything wrong with her organs, she is suffering at the monthly period, attend to it at once. Don't delay. You're one step nearer the grave every day you put it off. Women can stand a great deal, but they cannot live forever with disease dragging at the most delicate and vital organs in their body. You may have been deceived in so-called cures. We don't see how you can help it, there is so much worthless stuff on the market. But you won't be deceived in Bradford's Female Regulator. We believe it is the one medicine for women's ailments, and it is as much difference between it and the other remedies as there is between right and wrong. Bradford's Female Regulator soothes, cleanses, regulates, strengthens, purifies and cleanses. It does all this quickly and easily and naturally. It is for women alone to do sick. Bradford's Regulator lies at hand, at every drug store.
