

ATLANTA, Ga., Nov. 19, 1900. We have handled Dr. Moffott's TEETHINA (Teething Powders) ever since its first introduction to the public and trade as a proprietary medicine, and our trade in it has steadily increased from year to year until our orders now amount to two or three hundred gross per year, which is a very streng evidence of its merit and the satisfaction it is giving to the mothers of the country, for they say nothing so effectually counteracts the effects of the summer's bot sun or overcomes so quickly the troubles incident to teething.
