NO. 7.

NEEDS TO BE SUPPRESSED.

Fomentation Which is Being Indulged in by Certain S-Issueers as a Result of Temperance Agitation in the State.

Leitit Topic.

The signs of the political ferment in North Carolina are at present far from pleasing. The people, it seems, have short memories. With the amendment came more freedom of thought and independence of political action and those who not so long ago wrestled against the yoke of negro domination seem now to think that they may with safety, forget the powers that have been responsible for this great change and mistake liberty for wanton license.

With the change of conditions long looked for changes became realities and the billot having been taken from the negro moral reform became easier and the Legislature thought it time to enact stringent temperance legislation in the form of the Wills law. Against the result of such legislation we have been taught to say. Some such law was needed in North Carolina.

Friends of measure are striving to secure an even more stringent liquor law at the hands of the next Legislature. It is not against that idea we are not disposed to inveigh.

But at the same time we see in this temperance fomentation and agitation a spirit which we desire to see repressed. That is the desire on the part of some of those agitators to press their point that if they cannot secure the most drastic legislation to strive to undo the party which has produced what we now have of moral amelioration. The devil sometimes appears as a shining angel of light.

Like the typical demagogue he is striving to use a holy pretext of warfare to secure his personal ends. Young full of ambition, tricky and deceitful, he is ready to lend a hand to secure the downfall of Democracy, self-emulation and reward. Such a warfare Marion Butler once waged—its memories still cling. The one in question hopes to split Democracy on the temperance question and glorify self. The one referred to is no other than Jay Willie Bailey, of the Biblical Recorder in Raleigh. On the breast of a temperance wave he hopes to be made United States Senator or Governor as this scribbler is informed by a believer and ally. He remembers his antics in the past—we have seen his deceit exemplified—we have read his proclamation of bombast and one can see the covert hand. Isn't it about time this plot were uncovered?

Hancock's Liquid Sulphur should be in every home. It cures eczema, pimples, tetter, ringworms, dandruff, cuts, burns, open sores, dyspepsia, sore throat, and all blood and skin diseases. No home should be without it. Ask your druggists for a book on Liquid Sulphur. For sale at The Eagle Pharmacy.

MR. TRIMBLE'S BILL.

Measure for the Relief of the Farmers and Tobacco Growers of the United States Introduced in Congress.

Hon. South Trimble, member of Congress from the Seventh Kentucky District, has introduced a bill designed to prevent the arbitrary fixing of prices on tobacco, a copy of which he sends us with request to publish as follows: Farmers, Producers and Consumers of Tobacco in Vance County, State of North Carolina:

I have offered the following bill in Congress: H. R. 3574. "A Bill for the Relief of Farmers and Tobacco Growers of the United States: Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That farmers and growers of tobacco shall hereafter have the right to sell tobacco in the raw or unmanufactured, of their own growth in any quantity, either in the leaf, twist, or such other form as they may wish, free from any tax or charge, or being in any manner subject to statutory regulation on the part of the Government of the United States."

Its passage will prevent the arbitrary fixing of the price of raw leaf, or the manufactured product. It will be an equitable, automatic governor of prices, protecting both producer and consumer, working no injury to the manufacturer who is satisfied with a legitimate profit on his capital. This bill has been endorsed by the White Burley Tobacco Growers Association of Kentucky, the only organization of Tobacco Growers in the United States. Every member of the Kentucky Delegation in Congress is enthusiastically supporting it, but there is no influence so potent as that of the people. I want one hundred thousand citizens to petition Congress through their Member, urging the passing of this bill. Blank petitions will be furnished on application. Your hearty co-operation is most earnestly desired.

Very respectfully, SOUTH TRIMBLE, 7th Kentucky District.

Ancient and Modern Advice about How to Acquire Wealth.

The ancient sages "sure road to wealth" was "the temperate in all things, be economical always." Modern life, with its "rush methods" in business requires that "keep healthy" be added to the old adage.

Every body knows how to temperate and most people how to keep perfectly healthy. Overeating, irregular habits, neglect, etc. derange the stomach, liver, and bowels, causing indigestion, torpid liver, constipation, etc.

Hydatic Tablets are nature's best ally when such conditions exist. The Stomach tablets will digest your food, strengthen your digestive organs, cure your indigestion.

The Liver Tablets will arouse your liver, stimulate your bowels and establish a regular, healthy habit. Hydatic Tablets insure good health. EAGLE PHARMACY.

and both on good digestion. How can you expect digestible food to be made from a product obtained from swine? It isn't reasonable to expect. And yet many people keep on using lard—an enemy of good digestion—through ignorance of something better. Your stomach is your best friend, and it will be a sorry day for you when it goes back on you.

Nature's Gift from the Sunny South

Cottolene

Shortens your food—Lengthens your life. Cottolene is the product which will set you right. It is the best and purest frying and shortening medium in the world—far superior to lard or cooking butter. It contains nothing but refined vegetable oil, with just enough choice beef tallow to give proper consistency. Cottolene is a vegetable, not an animal product.

For your stomach's sake, use Cottolene for cooking. You'll never go back to lard. Cottolene is never sold in bulk—it comes only in sealed white tin pails with red label and band. In the center of the label is our trade mark—a steer's head in cotton plant wreath.

Any up-to-date grocer can supply you with Cottolene. Ask today. USE 1/2 LESS. Cottolene being richer than either lard or cooking butter, one-third less is required.

FREE Send us a 5c stamp to pay postage and we'll mail you a copy of our book, "Home Hints," edited by Mrs. Korer, which contains 300 choice recipes from the country's noted cooks. Made only by THE N. K. FAIRBANK COMPANY, Dept. 616 Chicago.

THIS IS Dorsey's SEED SPACE. NEW CROP JUST RECEIVED.

INSURANCE! A STITCH IN TIME SAVES NINE. J. L. GURRIN, Insurance and Real Estate.

Hints for Business Men.

The Retailer and Advertiser. Good advertising is a sworn foe to business depression.

It is useless to advertise for lost time or lost opportunities. In advertising your business, an ounce of individuality is worth a pound of imitation.

Good advertising is the kind that creates in the public a desire to purchase the goods you wish to sell. It may be that "imitation is the sincerest form of flattery," but a merchant should not find it necessary to flatter his competitor by imitating his advertisements. To use a catch phrase that another has introduced is a confession of weakness and lack of originality. It is poor advertising for the public are likely to feel contempt for the man who appropriates the ideas of another. It is better to make no attempt to be brilliant than to try to shine by the use of borrowed words.

When advertising good prices, no matter whether they are high or low. Of course the great majority of buyers are attracted by low prices, but there are people, and their number is not so small as might be supposed, who regard a high price as an unfailing indication of excellence. And in these days of enormous fortunes and quickly acquired wealth, there are people who would not buy an article at a low price, no matter how good it might be. By all means quote prices when you advertise.

IN THE MERRY SPRINGTIME. In the merry springtime the festive malaria microbes, goeth forth determined to colonize every human organism. If this arch foe has invaded your system allow us to suggest Hydatic Tonic. This remedy frees the blood from malaria microbes, eliminates poisons matter from the system, strengthens the nerves, and restores robust health. Hydatic Tonic is guaranteed. EAGLE PHARMACY.

This Is An Honest Man. Mr. P. M. Phillips, a farmer of Rowan county, looks at the matter of subscribing and paying for newspapers in the right light. In a communication to the Progressive Farmer he shows that he is a sensible and honest man. He says: "How any man can let a paper come to him year in and year out without paying for it, and then get mad with the editor and say hard things about him if he duns him for the price of the paper, is a problem I do not understand. He says: "The man who edits a paper and sells it for a dollar or two, as the case may be, is as justly entitled to it as the man who sells a bushel of wheat for a dollar. The farmer cannot afford to raise his wheat and give it to his fellow man, neither can a man edit his paper and give it to his fellowman."

KILLED. There is not an ache or pain that can be reached externally that cannot be "killed" in a few minutes by the use of EAGLE'S Emulsified Oil Eucalypti. Rub it on the affected part and the pain will soon disappear. Full 1/2 pint bottle, 25c. EAGLE PHARMACY.

PECULIARLY BLESSED STATE North Carolina's Fine Climate—in the Main it is Always Mild, Both in Winter and Summer.

Scotland Neck Commonwealth. North Carolina is peculiarly blessed in climate. In the main it is always mild, both in cold and warm weather. Sometimes the weather in winter gets pretty sharp as for instance, this season; but there is an advantage in that in many ways. One cannot fail to be impressed with the advantages of our climate when he reads such as the following from the Wilmington Messenger: "The past season has proved to be a very profitable one for the truckers in this State. The crop raised during the late fall and early winter is lettuce, and although the season was short, the prices were very high and more than counterbalanced the difference in the crop. It will only be about a week or ten days until the lettuce in this part of the State will have been shipped. Several large truckers expect to make shipments today. The truckers were greatly rejoiced last Monday when they opened their lettuce beds and found that the severely cold weather of the past week had not injured the crop. The only thing that hurt the crop was the snow. As a rule the lettuce crop in the State is marketed by the 10th of January and preparations made for the spring crop, but this year the crop is two to three weeks late. North Carolina and Florida are the great lettuce growing States and the Florida crop comes on the market in January. A large trucker stated yesterday that he had never known the price of lettuce to be as high as during the past season. That is for the fall crop."

The Atlanta Way. Durham Sun. The city of Atlanta, Ga., has appropriated \$100,000 to be used in daily newspapers to advertise the municipality. This is where Atlanta gets the start and keeps ahead of towns which do not recognize the beneficial result of printer's ink. No wonder that Atlanta grows and thrives and attracts to her the business of the South. It is to get all you can for nothing, and keep everything out of the papers possible. Which is the most sensible and progressive method of these two cases?

SOMETHING FOR EVERYBODY. Do you take them? Hancock's Liquid Sulphur baths are as beneficial as they are beneficial. The medicinal and rest effect of sulphur baths by absorption of sulphur through the pores of the skin acts directly on the blood, purifying it, and removes all unhealthy secretions from the body. For sale at The Eagle Pharmacy.

The happiest people in this world are those who keep out of debt, out of politics, out of office—make an honest living—follow the golden rule—humbly serve the living God—quietly pursue the "even tenor of their way," and neglect no opportunity of doing good, says an exchange.

An exchange is responsible for the assertion that the young men who stand outside the church Sunday evening are as good as the women who accept their company.

BEST REMEDY FOR BLOOD AND SKIN DISEASES. For eczema, pimples, dandruff and all skin diseases, use Hancock's Liquid Sulphur. In such cases use weak solutions and some of you nature, when the skin becomes dry and harsh, you should use Hancock's Sulphur ointment in connection with the Liquid. A few applications of Hancock's Sulphur will cure the worst cases of prickly heat. For sale at The Eagle Pharmacy.

COLD WAVE COMING. If you have Hydatic Elixir in the house when a cold wave is coming, you need not fear attacks of Bronchitis, Pneumonia, Cough, Colds, etc. Hydatic Elixir taken when attack begins never fails to check the progress of the disease.

It is equally successful in chronic cases of throat and lung disease. EAGLE PHARMACY.

The fact is brought out in investigation at Washington that Pitt county is the largest tobacco producing county in the world. Pitt is a county to be proud of.—Greenville Reflector.

Don't measure a man's goodness by the way he treats his dogs and horses; watch how he treats his wife and children.

SPRIT OF COMMERCIALISM.

Not Willing to Get Along Slowly but The Progressive Educators Want to Get Hold of the Dollars of Rockefeller and His Aggregation.

Charlotte Observer. The last issue of Charity and Children has this: "Speaking of the Oglethorpe educational movement, Rev. P. R. Law, of The Robesonian, says: 'There has been need for explanation by its devotees, in our judgment, all along. The hand we expected has at length been shown; there was too much fawning in demand by it for our proud and warm Southern blood. It is no disgrace to be poor and get along slowly, and it is infinitely better to do it in our educational work than to sacrifice any part of the manliness and independence which has made us the noble folk we are.' This hits the case off to a nicety. We are not surprised that gentlemen who are interested should be very zealous in behalf of this movement, but why a man who can stand off and see the inevitable tendency of this thing shouts himself hoarse for it, we cannot see. Mr. Rockefeller has never shown very special friendliness for the white people of the South and he is not at all their benefactor. We can get his money, but we must pay his price and that no well-born Southern man ought to be willing to pay."

You "cannot see" why they shout for the Southern education board and an appropriation? Then we will tell you it is because they are "commercial." They want the dollars of Rockefeller and his aggregation. They are not willing to "get along slowly" "in our educational work" when gifts of money from strangers are in sight. They shut their eyes to "the inevitable tendency of this thing;" forget the "manliness and independence" to which they were born, as other men are born to the purple, and reach out eagerly for the unearned bounty which is tendered them by the hand of wealth.

President Venable, of the University, has said that there are worse things than illiteracy. It's a fact. One of them is loss of pride because you are poor. "Poor but proud!"—it's a good phrase.

There are people who, for business reasons, want to see a canal dug across the Isthmus of Panama and are anxious to take title from the only power which can convey it—the republic of Panama. Panama acquired the right to convey title by the most unusual process of revolution and secession. We are told that the United States promoted that revolution and secession, and when we reply that it does not so appear to us from the evidence, and that we perceive no moral wrong in trading for what we want and paying the owner for it, we are told that is because we are "commercial;" that if it were not for the "commercialism" which has obscured our vision, we could see that we are trying to sacrifice "national honor." And lo! the spirit of "commercialism" swallows their pride, stretch out eager hands for the gifts of aliens, and take their money without asking the donors if they have honest title to it, or asking themselves, that which is more important still, what is the ultimate and "inevitable tendency of this thing?" "O, Mammon, Mammon! The least erect of all the spirits that fell!"

Paracamph

CURES RHEUMATISM. "All the joys of heaven and all the torments of the other place lie within the small circumference of a wedding ring."

The above is from the philosopher of the Robesonian. We really do not know whether McAllister wrote it or not, but if he did we must say that his editor has rarely given a better illustration of much in little.—Thomasville Charity and Children.

==Great== Sacrifice Sale!

\$13,000 STOCK OF DRY GOODS, Notions, Shoes and Hats,

TO BE SOLD AT COST IN HENDERSON, N. C.

We bought the entire stock of Messrs. C. J. Hunt & Co. at auction, in a lump, at South Boston, Va., on Jan. 15th. This firm failed in business and made an assignment on Dec. 24th. The stock inventoried

\$13,000 Factory Cost.

We took advantage of the opportunity and bought undoubtedly the biggest values ever sold. We can well afford to sell them at cost, for they were bought considerably below factory cost. We could have disposed of these goods at South Boston, but preferred to bring them to Henderson where our trade would get the benefit from this sacrifice sale.

Messrs. Hunt & Co. have only been engaged in business three years and carried the largest and finest stock at South Boston. They bought this last fall Thirteen Thousand Dollars in new goods; so you see we are not offering anything but practically new goods and as good as if they were direct from the factories.

We are going to make things hum for the next four months, as it will be impossible for others to compete with this immense stock offered at cost. We advise that you come early and take advantage of this big offering. We made a personal inspection of the stock before buying. It is one of the cleanest, finest stocks of goods to be found anywhere. There are \$5,000 in shoes alone and \$8,000 in Dry Goods, Notions, Shirts, Hats, &c.
