### MAKES THE HEART SICK.

The Law Against Cruelty to Animals Should be More Rigidly Enforced .-Need of it in Henderson as Well as Elsewhere.

otland Neck Democrat.

It is positively appalling to witness the brutality of some men upon mules and horses. At this day of twentieth century civilization it is a crying shame that so many people are so dull and stupid as not to have been impressed with their own mercilessly evil treatment of dumb animals. It is not uncommon to see a horse or a mule straining under a heavy load bearing bold evidence of having been belabored with whips and sticks be-yond all reason. Only a few days ago we saw a team tugging at a wagon which was heavily loaded, the wheels were mired into the soft earth and the driver whacking one of the horses with a club. The strokes attracted attention quite a distance, but the cruel driver seemed to think it nothing wrong to beat and abuse the horses so. Sometime ago one who was trying to train a young horse to the saddle carried a hard and heavy stick as a whip. The horse already showed signs of the use of the stick in the whelps along his side. It is time for all men to learn that kindness is the best influence to use in breaking young horses; and after any horse or mule is fairly well broken care and attention to harness and the like, with proper loading and proper treatment, will do much to keep him in manageable spirits. "Black Beauty," by Anna Seawell, should be read by every person who owns or cares for any kind of stock; and the law against cruelty to aninals should be rigidly entorced.

The first day of Lent falls on Wednesday next, commonly called Ash-Wednesday, in allusion to an ancient custom of sprinkling ashes on the head in token of penitence and self-humiliation. The forty days remind us of the temptation of our Lord in the wilderness, and the last days of the season commemorate His suffering and death for the sins of the whole world. It should be deemed a blessed privilege to spend this holy season in closer communion with God and in united supplication with many millions of Christians for the pardon of our sins and for the conversion of the world redeemed by the conversion of the world redeemed by the precious blood of Christ.

kind of food you eat, but rather what your stomach fails to digest, that gives you indigestion. Lard is a foe to digestion. If you had the stomach of an ostrich you could hardly withstand the ravages of lard-soaked pastry. You have probably found this out and already given up the eating of pastry. 'Tis wholly unnecessary! Anyone can eat and digest food cooked with Cottolene—the perfect shortening. It is a pure vegetable product, made from the best beef suet and choicest vegetable oil. It is neutral in taste and odor; it is Nature's Gift from the Sunny South.

Cottolene is never sold in bulk. It is put up in carefully sealed tin pails. And right here is another advantage. When you buy lard you have no protection as to quality-you simply know you are getting LARD—never mind the grade, it's just L-A-R-D. On the other hand, every pail of Cottolene is uniform—the product is guaranteed. You take

In the face of these facts just ask yourself if you can afford to use hog lard when you can get pure, healthful, nutritious Cottolene. USE 1/3 LESS. Cottolene being richer than either lard or cooking

Wood's Seed Book.

Reference has already been made to Wood's Seed Book for 1904, but desiring to see such a publication in the bonds of a publication in death in the Southern States receive here the hands of as many of our readers as possible we refer to it again. Wood's catalogues are always chock full of information which farmers and gardeners should especially appreciate, giving them as it does correct lowed. What the remedy is for this full of information which farmers and knowledge as to the best crops to growing evil is a very important prob-grow in the South. The 1904 edition has been carefully compiled, and if there is a better business and seed there is a better business and seed catalogue published by any firm anywhere we have not seen it. The information given under the heading of the different kinds of seeds grown and handled by Messrs. Wood & Sons will be found very useful all through the year. The cultural directions are from the practical experience of the most successful growers. The insect remedies suggested tell how to save and protect the different crops from insect ravages. The information given as to the best fertilizers to use, and the soils best adapted to the different crops will be found very useful while the information given in regard to grasses, clovers and farm crops is particularly full and complete. The best time for seeding, soils best adapted to different crops, suggestive combinations of grass and clover seeds for different purposes, as well as much other useful and timely matter will be found in Wood's Seed Book for 1904, the whole gotten up in a beautiful and attractive manner with colored lithograph cover. A copy will be mailed free to farmers and gardeners upon request.

DRIVING THE LESSON HOME.

The people of the North are, by the gradual Northward drift of the negro population, learning somewhat of the things with which the Southern people have to contend. For the nepeople have to contend. For the negro at the North is even more criminally disposed than at the South. The Southern people have always dealt with him with the strong hand and subjection has restrained his criminal tendencies. The following remarkable letter to the Philadelphia Public Ledger indicates the problem

the negro is coming to be in that city, as well as others:
"If there is anything self-evident in Philadelphia at this time, it is that the colored people are arrogating to themselves all the privileges that 'flesh is heir to.' They fail to recognize rights in anybody else, are impudent to those whom they meet and offensive in their manner, so much see that will be that the effective of falling of the womb and its accompanying pains and misery by Lydia E. "DEAS MES. PIREMAN: — Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was eaused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily, and each dose added health and strength. I am so thankful for the help I obtained through its use." — MES.
