

THE GOLD LEAF.

ESTABLISHED 1881.

THAD R. MANNING.

THURSDAY, SEPT. 14, 1905.

It is needless to say that the people of Russia and Japan who are kicking over the peace terms are not the men who were at the front fighting the battles of their country to bring about peace.

The spirit of taking hold with the other fellow and doing something together to push things along will help any town. Greenville needs that kind of spirit.—Greenville Reflector.

Some things apply to Henderson. We want more men who take hold and do things and none who stand back and criticize the efforts of others.

Numbers of persons here believe a building and loan association would be a good thing for Henderson—pay the investors, encourage the habit of saving and aid greater numbers of people to own their homes—but no one seems disposed to start the movement for the organization of one.

It must be gratifying to Judge Ward to know that every expression of opinion has been on his side of the matter—except the lawyers who were trying to get McCown out of jail.

The Reflector might have omitted the words "no doubt," and still have been on the safe side very likely. There are lawyers who will see anything as they are paid to see it.

The Governor of North Carolina and the Governor of South Carolina are going to tour New England together. What they will say to each other on the Pullman dining cars will be a plenty.—Richmond Times-Dispatch.

Don't know about the South Carolina Governor, but the Governor of North Carolina is not conversant with the language that is said to have obtained between former executives of these two States.

The grand jury of the Federal Court at Greensboro has been leading a strenuous life for the past week. They returned over one hundred true bills of indictment against deputy collectors, distillers and saloon-keepers.

Forty-five indictments of conspiracy to defraud the government in one bill of indictment. The other bills are for various offenses, such as perjury, forgery, malfeasance or non-malfeasance as officers, etc.

There is much dissatisfaction among farmers over the low price at which tobacco is selling this season. The present crop is a poor one, light in weight, with very little of the better grades.

Notwithstanding the short crop the price is low, and unless there is marked improvement the average will be considerably curtailed when another planting time comes.—Greenville Reflector.

North Carolina could have no more enthusiastic or patriotic representative in the Northern States than Gov. Glenn. He will not only represent the interests of his State to great advantage but he will, no doubt, greatly benefit himself by the study of the workings of the different industries in the North.—Charlotte News.

Since President Roosevelt went down in the submarine boat he is showing a disposition to go to the bottom of every department in Washington.—Richmond Times-Dispatch.

The demands of the times have, and are constantly, demonstrating that the education of the boy and girl of today must be along lines not so much in book learning, as in manual training which shall equip the youth and make them able to cope with modern requirements, and so be capable of earning an independence in both the mental and physical world.

The equipment of today for those who would succeed in life, is one through which the brain culture shall offset the hand culture, each trained, developed and brought into a close fellowship of action.

Routine learning, which school and college may give the youth, the teaching of the purely mental, without the hand and eye receiving their rightful share of education, cannot but lead to a generation which shall fail to be self-supporting, therefore become a burden upon the community.

What the youth can do is the essential thing, and the ability to do depends upon previous practical training and experience, which can be gained in the technical and manual schools.

The educational equipment of the boy and girl calls for one that gives independence, which means the ability and strength to produce, to earn a livelihood, to come into active life and assume positions of trust and character, an honor to themselves and a factor in their community's development.

The necessities of today, emphasizes the urgency of a brain and hand education, one that is co-operative, each assisting and promoting the success of the other, and if each be proportionally educated to meet the requirements of the other, there will be a balance secured which makes the gifts of each most available to the other, producing an individual, equipped to meet every requirement of the day, and meeting the world, to take from it those things which the youth most seeks, fame, wealth, high position.

Numerous and Worthless. Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered some years ago how to make a salve from Witch Hazel that is specific for Piles, For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold at Parker's Two Drug Stores.

The Assault on Judge Ward.

The attack by Ex-Mayor McCown of Durham on Judge Ward, as reported in these columns, is wholly indefensible. Writing of it editorially the Charlotte Observer says: "A shock must have gone over the State yesterday when the people read that at Durham, Saturday evening, an ex-mayor of that town had personally attacked, struck and injured Judge Ward of the bench of the superior court on account of a sentence to a negro convicted before him of manslaughter, with a recommendation to mercy, in the killing of a nephew of the man making the attack. The circumstances are most monstrous. We do not know how otherwise to characterize it. Nothing like it has ever occurred in North Carolina in all the history of the State. The only event of which it reminds one is that many years ago, in one of our eastern counties, Mr. (afterwards Judge) Warren was shot at and wounded by a negro whom he had prosecuted and who, after the shot, turned the weapon upon himself, and committed suicide. Yet there is no parallelism in the cases. There is in our North Carolina people an inborn reverence for the judiciary. A man who incarnates the majesty of the law has their instinctive respect. They do not always, by any means, endorse his judgment but they bow to it and do not improperly call the judge in question. To assail him with physical force for a sentence imposed is a thing heretofore unthought of. And, in this case, not because the sentence was too full but too merited!"

"We pretend to no knowledge of the facts in the case beyond those recited in the story of yesterday morning, but the particulars are immaterial. The primary fact is that a judge of the superior court has been personally assaulted for a proceeding taken, presumably, in the exercise of his best discretion, and this fact outweighs all else."

"Judge Ward is one of the latest additions to the bench, having served a few months by appointment and having seen the last year to succeed Judge Brown. His reputation is that of an able lawyer and an upright judge. If he committed any fault in this case, which is not contended at all, he was guilty, at the worst, of no more than an error of judgment. That case was equally monstrous and possessed the same elements of contempt."

The Observer has properly characterized the assault—it is monstrous. True, there is in our North Carolina people an inborn reverence for the judiciary. It is so, however, to revere that the inborn reverence is not maintained in all individuals. The attack on Judge Ward has the effect of being an attack upon the judiciary. But the act of Mr. McCown is not the act of a madman. He is sane. There have been newspaper attacks upon the acts of judges that were equally monstrous and outrageous. The sower has come before and the act of Durham's ex-mayor is a part of the whirlwind. The Observer says that the act is not the act of a madman, but in principle there was a parallel, and it was not so very long ago. That case was equally monstrous and possessed the same elements of contempt."

A Clear Complexion and Bright Eyes. In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. Melville Dorsey, Druggist.

The South and the Cotton Crop. Wilmington Messenger. At the rate the South is increasing her manufacture of cotton it will not be long before she will lead the North. According to figures furnished by Secretary Hester, of the New Orleans cotton exchange, Southern mills were only thirty-six thousand bales behind those of the North in consumption of cotton for the year ended August 31st last. At the present rate of production, the present crop, once being enlarged in the cotton growing section it will take a very short while for this small difference to be met and in the course of a few years we will see the figures reversed and the South manufacturing more of her cotton than the North. The suspension of hostilities in the East and the opening up of the Manchurian markets to the cotton trade will give renewed impetus to the milling business of the South. Before the breaking out of the war our mills had a large and constantly increasing trade with Manchuria. It ceased almost entirely while that country was in the hands of the hostile forces. Now that peace has come this trade will be renewed with greatly increased demand for the class of cotton goods made by the Southern mills. This will tend to greatly increase the consumption of cotton by our mills.

With our farmers getting eleven cents for their cotton and the mills finding foreign demand for their products over and above home consumption what is there to prevent the South forging ahead and becoming the center of prosperity of the Union? The Southern people are just beginning to learn how to market their cotton crop. They displayed more judgment in this respect last year than ever before. In fact it was the combination of these two factors, in controlling the market to an appreciable degree. Heretofore the cotton has been ginned and rushed upon the market in a lump and disposed of at prices set by the buyers who then held it in store, to a large extent, they were obliged to purchase at their figures or close down. In other words the speculators named the price at which they would buy from the producers and at which they would sell to the consumers. Last year the farmers, to a large extent, had as much to say as to the price at which they would sell as did the purchasers. They learned a valuable lesson. They found that by united action and steadfast determination to hold back their cotton for higher prices they could control the market to a great extent. They will not soon forget this lesson. They will come closer together each year and be more firmly united. In future cotton will be marketed as the demand for it arises and at such prices as the urgency of the demand calls for. The day is past when the whole crop will be marketed in three or four months at whatever price it will bring. Hereafter the spot cotton market will be from first hands will last the year round and the farmer can pick his time for selling.

These remarks, of course, apply to the thrifty farmer who "lives at home" and steers clear of mortgages and crop liens, but even the latter will be better off.

Kaiser Praises President.

"The Only Man in the World Who Could Have Done It," Emperor Says.

BERLIN, Sept. 3.—United States Congressman William Aldrich Smith, of Michigan, was one of Emperor William's guests at dinner Saturday night. During a conversation of about fifteen minutes with Mr. Smith after dinner, Emperor William alluded to the peace conference at Portsmouth, saying: "President Roosevelt alone deserves credit for bringing about peace. He was the only man in the world who could have done it. He did his part splendidly. Mr. Smith, after the dinner, was presented to Crown Prince Frederick William and Prince Von Buelow, the imperial chancellor."

No Unpleasant Effects. If you ever took DeWitt's Little Early Risers for biliousness or constipation you know what pill pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. Sold at Parker's Two Drug Stores.

Big Shipment to China. Baltimore Manufacturers' Record. Notwithstanding the reports that continue of a boycott on American-made goods by Chinese buyers, the Southern cotton mills continue to make shipments of their products to the Far East. This is indicated by a dispatch from Dunn, N. C., which refers to the shipment of 500,000 yards of cloth to Shanghai by the No. 2 mill of the Erwin Cotton Mills Co., of Durham, N. C. The No. 2 mill is located at Duke, near Dunn. It was planned for 70,000 spindles and 2,100 looms, but only half that equipment is in position at present, and the product is denim cloths. This is one of several recent instances of big foreign orders for Southern mills.

Good advice to women. If you want a beautiful complexion, clear skin, bright eyes and red lips, good health, take Hollister's Rocky Mountain Tea. There is nothing like it. 35 cents. Tea or Tablets. Parker's Two Drug Stores.

President Roosevelt has gone all the other places and now he is playing the "devil" in the printing office.—Richmond Times-Dispatch.

A Laxative Cough Syrup. "A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It moistens and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup, whooping cough, LaGrippe, bronchitis, etc. Sold at Parker's Two Drug Stores.

Attractive as Our Homes. Ten thousand churches painted with L. & M. Paint, and are most attractive. Liberal quantity always free. 4 gallons L. & M. mixed with 3 gallons oil will paint a home. Wears and covers like gold. Don't pay \$1.50 a gallon for linseed oil, which you do for ready-for-use paint. Buy oil fresh from the barrel at 60 cents per gallon and mix it with L. & M. Paint. It makes paint cost about \$1.50 per gallon. DeLaney Gregory, Fort Plain, N. Y., writes: "Have sold L. & M. paint for over 25 years, and everyone is surprised to find how little is required to paint a big house." Sold by Melville Dorsey.

What is Your Interest in Your Community?

The New Berne Journal asks this pertinent question and then proceeds to define it: "A citizen's interest in the community can be safely judged by his or her support of local institutions. There are hard working and enterprising, in the sense of money makers, citizens, whose interest in their community does not go beyond what they individually get out of it. They contribute to no charity, belong to no church, take part in no public meeting, and are not to be found if some public enterprise is to be started. Their local interest is purely and unselfishly selfish. They add nothing to the advancement or growth of a community. Let every citizen ask this question: What is your interest in your community, not in the mere benefits you receive, but what are you, personally giving and doing to advance its best interests? As your answer is, so you may find your true position as a citizen among your neighbors."

Always Successful. When indigestion becomes chronic it is dangerous. Kodol Dyspepsia Cure will cure indigestion and all troubles resulting therefrom, thus preventing Catarrh of the Stomach. Dr. Newbrough, of League, W. Va., says: "To those suffering from indigestion or sour stomach I would say there is no better remedy than Kodol Dyspepsia Cure. I have prescribed it for a number of my patients and in every case it has done what you eat and makes the stomach sweet. Sold at Parker's Two Drug Stores."

Have a Purpose. Dr. Lyman Abbott. Have a purpose in life and stick to it. Be sure you're right—that the purpose is worth your effort, that to win is just the thing, and then stick. Live plain, be honest and work hard. Steady work and plain food will keep a man in the path of rectitude when sermons fail, and contribute not a little to his success. The brain cannot do its best work when sprinkled with the ashes of a dissolute, ill-directed life. Be sure you're right, then stick.

Attractive as Our Homes. Ten thousand churches painted with L. & M. Paint, and are most attractive. Liberal quantity always free. 4 gallons L. & M. mixed with 3 gallons oil will paint a home. Wears and covers like gold. Don't pay \$1.50 a gallon for linseed oil, which you do for ready-for-use paint. Buy oil fresh from the barrel at 60 cents per gallon and mix it with L. & M. Paint. It makes paint cost about \$1.50 per gallon. DeLaney Gregory, Fort Plain, N. Y., writes: "Have sold L. & M. paint for over 25 years, and everyone is surprised to find how little is required to paint a big house." Sold by Melville Dorsey.

NEW FALL GOODS.

OUR NEW FALL GOODS HAVE ABOUT ALL ARRIVED.

We show this season the largest and prettiest stock ever brought to Henderson. And what is equally as interesting to buyers is that

Our Prices are as Attractive as the Goods.

A Cordial Invitation is Given to Inspect Our Goods and Compare Our Prices Before Buying Elsewhere.

Any Article Bought at THIS STORE that is not Satisfactory in every particular will be taken back and the Money Cheerfully Returned.

GEORGE A. ROSE CO.

Buckhorn Lithia Water.

from my bladder. Have been so I could not stand or walk for six months, suffering excruciating pains nearly all the time. The doctors have prescribed almost every kind of medicine, but none seemed to do me any good. Dr. J. M. Parrott, my physician, sent me six bottles of Buckhorn Lithia Water. I began to mend after using two or three bottles. With the case you sent me I have drunk twenty-one bottles, and I am now so I can walk around without pain. My case was one that baffled all the doctors that attended me, but I am now satisfied the water will cure me. I shall always prescribe and recommend Buckhorn Lithia Water in the highest terms. I am returning the empty case to you by express today. Please send me another case as I have drunk twenty-one bottles, and I am now so I can walk around without pain. Yours very truly, D. L. STONE, M. D.

The shippers guarantee that, of all mineral waters so far known, this is the most powerful Diuretic. They will furnish a case of any other water, regardless of its reputation or price, and convince by actual practical, scientific comparison, that no water known to the public equals Buckhorn Lithia as a Diuretic. For constipation, indigestion and similar troubles, it has the highest professional endorsements. Order a case and if not satisfactory we will return your money. All orders and correspondence will be promptly attended to by addressing
