industrialism during the last half

the same power of fealty to an ideal,

prosperity of the South.

Commonwealth is assured.

Following is the address of Presilent Roosevelt delivered at the State Fair in Raleigh last Thursday. Being introduced by Lieut. Governor Francis D. Winston, he said:

In some respects the address deivered at the fair grounds by President Roosevelt today was more important than his speech at Richmond yesterday, for he went after meat, not after generalities. He did not neglect to remind the thousands who heard him, and the tens of thousands who will read what he said, that this is a Commonwealth that is rich in achievement, rich in history and patriotism and good deeds. He spoke of the wonderful forests and the need of preserving them, and he urged that they be saved from destruction.

Having eliminated that subject at Richmond, President Roosevelt dwelt at length on the question of government control of railroads, not ownerupon all Americans, both because ship, but supervision to guarantee equal rights to all of the shippers. The President received a royal cause they did their duty in peace. greeting when he arose to speak. He Now, if the young men, their sons,

State Pride.

Greensboro Industrial News.

We cannot commend too highly th able plea for a greater State pride made by President Robt, W. Winston of the State Literary and Historical Association at its meeting in Raleigh Tuesday night and produced in our ssue of yesterday.

As Judge Winston says, "Our State s long on patriotism and freedom and short on methodical habits and attention to details," and much information has been lost forever, great deeds alike of the men who which would today be considered fought on one side and of the men priceless.

To rely solely on the glories of the past and be forever recounting what we have done is entirely different from giving to our local and Statehistory the importance it deserves.

For generations we North Carolinians have been doers rather than writers and have allowed the name and fame of our old mother State to take care of themselves, content with State; there lies battlefield after bat ourselves, knowing that we were doing nothing to disgrace her.

Paul Revere won deathless name and fame, and while we have no disposition to do aught but praise him, we do say that a thousand deeds as brave as his have been done and forgotten in North Carolina, simply because our Longfellows had no public waiting for their deathless words. It is all well enough to talk of great writers finding an audience for themselves, but a country does not produce great writers which has not peace. They predicted ceaseless disamong its people a love for their
