-BY-THAD R. MANNING.

THURSDAY, OCTOBER 26, 1905

PRESIDENT Roosevelt now know what genuine North Carolina hospitality is.

Makes no difference who is responsible for its being the Industrial News is a newspaper all right, and the selection of the men who make it shows that there was a master mind back of the enterprise somewhere.

Good roads are the best possible investment in any community. There is not an interest that is not benefitted by such improvements. It makes all sorts of farm products more valuable by making markets more accessible. Land located on good roads obviously becomes more valuable as residence property, for it may be more easily and pleasantly reached.

Considering the importance of good roads, it is of vital moment that object lessons in their building should be well taught. For this reason none but the most skillful engineers and the most conscientious contractors should be employed in building model roads. If the improvement proves good and permanent, it will soon convince the tax-payers that more such road is desirable, and development in that line will follow. Should the model road prove defective, it would be a serious setback to the

What are Building and Loan Associations.

The following, taken from an exchange, is reproduced with the idea of putting our people to thinking Loan Associations:

Joint stock benefit associations for the purpose of raising a fund to assist members in obtaining homes. Money is loaned to the members and is paid back in weekly or monthly instalments. The interest on money borrowed at the rate of 6 per cent. per annum is payable weekly or monthly. Every six months these Building and Loan Associations receive into it new members. The security offered to investors induces many people to enter the Building and Loan with a view of having a convenient means of depositing their built through the Building and Loan

way that will call for an outlay of a million dollars.

Cause for Pride.

North Carolina has a lot of things, in which she leads, to be proud of. year and 18,000,000 pounds of leaf has become broader in view and more tobacco are sold on the Winston catholic in spirit since his last election. market annually. If that's not a record breaker it comes dangerously near it.

Then only a few paces from Winston-Salem is the second greatest furniture manufacturing town in the tics and that he is endeavoring to re-United States, High Point, having deem his promise to be President of the over 60 furniture factories alone. outside of many other manufacturing establishments, including an electric

These are only a few of the things in which we take the lead. A few minutes reflection will make a man proud he's a son of Old North Carolina, if he were not before, and will convince him that he is justly so.

Facts of Progress.

In one respect the industrialists of the South have been fortunate-in section take a sympathetic interest in the development of industrial and agricultural activity along their main lines and branches. The recent report of the Southern Railway, for example, dwells upon the record of 46 textile mills, 34 furniture factories, 38 iron plants, 13 cottonseed-oil and 54 new industries placed under construction. The Louisville and Nashville report tells a similar story.

Some people have an idea that loco-motive engineers run down cows on weigh a pound. The trust could make the track and kill them for the fun | money at 25 cents a pound, but they like of the thing. Nothing could be further from the truth. As a matter of we bought from an independent type of the thing. Nothing could be fur- 74 cents better, and the publishers have fact, there are few things that an enconcern two hundred pounds of new gineer dreads more on the track in type that is as good as anybody's type. front of him than a cow, and with at 21 cents a pound, but we can't get it good reason. The reason is to be that way now. It's the same old talefound in the dispatch in yesterday's paper which told of a double-header trust and quit business. on the Illinois Central, running through Iowa, striking a cow, which was, of course, killed herself, but which caused a wreck which cost the | tie as you please. Richmond's Greeting to President Roosevelt.

The following editorial article published in the Richmond Times-Dispatch of the 18th, is so fine in spirit, and the subject matter so pertinent that we copy it although a little out of season for the purpose which it served-that of a greeting to the President of the United States upon his visit to that city: Something more than forty years ago

the President of the United States entered the city of Richmond and took possession of her conquered territory, and when he came he found sorrow and desolation. On Sunday night, April 3, 865. Richmond was evacuated by the onfederate government; the troops were withdrawn from the front and the offiials of government took train for the South. As they departed from Manches-ter they looked back and beheld the entire lower portion of the city wrapped in flames. Practically all buildings embraced in that part of the city bounded by Twenty-second Street on the East, mes River on the South, Fifth Street on the West and midway between Grace and Franklin Streets on the North

were destroyed and that portion which

deprivation which the long and disas-

trous war had entailed. It was a gloomy

sight which the President of the United states beheld on that occasion and the heart of Abraham Lincoln must have been touched to the quick. But while their city had been in great part destroyed, the spirit of the men and women of Richmond had not been broken and ere the bricks in the smouldering ruins had cooled the citizens pulled off their coats and went to work with will and energy unsurpassed to clear up and

rebuild. In time all the buildings were restored and Richmond entered upon a Today the President of the United States will enter Richmond as our invited guest and will see no evidences of distress and desolation, but every evidence of happiness and prosperity. He will see a city of 100,000 inhabitants with buildings and lots assessed at \$50,-000,000, an increase of more than \$4,000,000 in a single year, a city of factories, warehouses, mercantile estabishments, bonding and insurance buildings, hotels, churches, schools, parks and monuments, and as a further sign of progress and prosperity, he may know hat the deposits in the banks have in fifteen years grown from less than \$9,000,000 to more than \$28,000,000, being equal in the aggregate to the entire deposits of one of the most prosperous of the States South of us. As he enters and drives through our streets, he more along the line of Building and | will receive a cordial welcome from the

people of the city which was once the proud capital of the Southern Confederturn, to this side or that, he will see countless numbers of Federal flags displayed in his honor, as well as in token of Richmond's loyalty to the national government. It has been said that "they to whom t has been given to do the really highest work in this earth have trodden with bleeding feet and aching brow the hard.

rough and thorny life of which the Cross is the symbol." And again that "the man or woman who has learned to suffer well has gotten the highest of moral victories." It was in war that the men and women of Richmond learned to suffer, and while the cause in which, and savings. In the United States alone for which they suffered failed, they have the assets in these building associations is \$10,000,000,000. This Nay, it was this training and discipline large accumulation is the result of in the school of suffering and daring only a few years. Think of the homes | which gave them the grit and the grace now owned by people that have been to rebuild their Jerusalem and make it stronger and greater than ever, an object lesson in enterprise, courage and pat-Associations. If you want to build riotism, and may we not say that it is it's a good thing. If you do not, it this grace, born of devout suffering, teaches you and trains you to save. Which enables our people today to for-Talking about what Building and get those things which are behind and Loan Associations will do for a town, extend in sincerity and hearty good will Charlotte now has buildings under the hand of welcome to the nation's chief magistrate.

But our greeting to President Roosevelt is no empty formalism. It is the greeting of a patriotic people who know the flag of the Union and the man whose high function it is to hold it high and preserve its honor at home and abroad. Moreover we cordially greet the man.for we admire Mr. Roosevelt. We admire him for his courage and manliness, for Over at Winston 31,000,000 pounds of tobacco are manufactured each for his righteousness. We believe that he We believe that his great triumph at the polls so far from turning his head has softened his heart and made him more and more in love with all the people. We believe that he has risen above partisan prejudice and the bigoty of polination without respect to person, party

We admire him because he walks in the fear of God, and makes the suggested morality of the Bible his rule of conduct. We admire him because he insists that eastern part of the State you run up all shall obey the laws, no less the high financiers of Wall Street than the humble citizen of low degree. Mr. Roosevelt is but human and it is human to err, but in spite of any errors which he may have made he has convinced the nation that found, and where the mountain scen- that his impulses are generous and chivalrous, that he has an honorable

Richmond is proud to receive and entertain him as her guest and hopes that the acquaintance which is formed today will ripen into mutual and lasting friendship. For one day at least, we shall forget that there is such a thing as polities, partisanry or sectionalism and burn sweet incense to hospitality and pat-

Spring Hope-Roxboro Road. Link Between A. C. L. and N. &

Company Chartered-Proposed to Extend from Spring Hope to the Norfolk and Western-Is This Part of Plan for Coaling Station Near Beau-

W. Railroads.

The Raleigh Post of Tuesday says this in connection with the incorporation of the North Carolina Connecting Railway Company, particulars of which are published elsewhere in

the GOLD LEAF this week: An important railroad company was incorporated yesterday and from the route defined it promises to be part of the great plan under way for the development of Eastern Carolina and will furnish the Atlantic Coast Line with direct connection through this State with the big coal fields of West Virginia.

In connection with the incorporation of this company there lies an interesting story. About twenty years ago the Coast Line built a branch from RokeyMt., on its survived bore the marks of poverty and main line, to Spring Hope, in Nash county, and the general expectation was that it would be extended on to Raleigh. However, it stopped in the woods, hardly 20 miles from the North Carolina capital, and there made Spring Hope its termi-nal. A scheme for bonds to be issued in this county for the completion of the line here fell through and the popular supposition ever since has been that the old of the present Seaboard Air Line, reached an agreement with the Coast Line whereby the latter was not to enter Raleigh in consideration of the use of the former's bridge over Roanoke river at Weldon. This state of affairs has continued until the present time, the Coast I do not admit that any man can be Line still having Spring Hope as its a better Westerner than I am. There terminal. But the completion of the Raleigh and Pamlico Sound Railroad from here to Washington will pass through Wilson and there tap the Coast Line. It traverses too a portion of the same territory as would the extension of

the Coast Line from Spring Hope here. But it now appears that the Coast Line may have different and far more important plans for its little line to Spring Hope. The North Carolina Connecting Railway Company was incorporated yesterday for the purpose of building a line from Spring Hope to Roxboro, a point on the Norfolk and Western, a line that runs to the Virginia coal fields. In building this connection the company has the right to traverse the counties of Nash, Franklin, Halifax, Warren, Vance. Granville and Person.

capital, to be increased to \$450,000, holders may be increased to a larger sum. The incorporators are D. W. Gunn, Roanoke, La.; D. J. Nysewander and S. P. Douglas of Loledo, Ohio; T. F. Whitlelsey, Mobile, Ala.; W. H. Hood and P. H. Hood of Henderson, N. C. All the incorporators have 180 shares each except the Hoods who have 180 together.

It is well known that one great syndi cate, backed by millions, is in possession of the A. and N. C. Railroad, from Morehead to Goldsboro, and of the Norfolk and Southern which is being extended so as to make, with the little Pamlico, Oriental and Western, a line between Norfolk and New Bern. Does the building of a connecting link between the Atlantic Coast Line from Spring Hope to Roxboro on the Norfolk and Western mean a great coaling route via the Norfolk and Western, the Atlantic Coast Line and the Atlantic and North Carolina to bui'd up a great coaling station at Beaufort or some point near there on the North Carolina coast?

For all Kinds of Piles.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores. tetter, eczema and all skin and scalp diseases, use DeWitt's Witch Hazel Salve. The Country Boy Has the Advantage.

As an old farmer friend remarks, a home-grown, hard-spanked, barefooted and hard-fisted country boy makes a much better fighter in the battles of life than does the pampered, high-collared, creased-trousered youth of our towns and cities whose clothes have always been dusted with a whisk broom instead of a shingle. .. 40> ..

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken sense of duty and that his courage never internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. STIRRED HIS HEARERS.

President Roosevelt's Impromptu Address at a Luncheon Given Him

An informal luncheon was given President Roosevelt in Richmond last week after his reception and address in Capitol Square, at which he spoke as follows, as copied from the Times-

in Richmond.

The address of the President at the luncheon given in a beautifully decorated hall in the Masonic Temple yesterday afternoon deeply stirred the hearts of all who heard it. Mr. Roosevelt said:

Mr. Mayor, Governor and You, My

Hosts: One among the very many great Virginians at the time when this nation was born, said: (and I quote, gentlemen, Patrick Henry), Patrick Henry said: "We are no longer New Yorkers or New Englanders, Pennsylvanians or Virginians, we are Americans." And surely, Mr. Mayor, the man would be but a poor American who was not touched and stirred to the depths by the reception that I have met with today in this great bistoric city of America. Coming today by the statue of Stonewall Jackson, in the city of Lee, I felt what a privilege it is that I, as an American, have in claiming that you yourselves have no more right of kinship in Lee Raleigh and Gaston Railroad, the parent and Jackson than I have. I can claim to be a middling good American because my ancestry was half Southern and half Northern; I was born in the East and lived a good

think it is a middling good staff, In my regiment, organized at the beginning of the Spanish-American war. I think that there were more men whose fathers wore the gray than there were whose fathers wore the blue. The only rivalry that ever entered their heads was the rivalry as to which man could show himself best entitled to the praise of having done all that in him lay for our country and our flag.

grandnephew of General Lee and the son of Phil Sheridan on my staff. I

I noticed that the statue of Stonewall Jackson was raised as a gift by certain Englishmen. The best biography of General Jackson was by an Englishman, Colonel Henderson. It is a curious and rather lamentable fact that he died just as he was about to undertake another biography which I had earnestly asked him to undertake. I had written him urging that he should finish his very remarkable military study of Stonewall Jackson, by writing a military biography of General Lee, and he had written me back that he intended to do so. Shortly afterwards I learned of his death.

Gentlemen, I cannot sufficiently express to you my deep appreciation of these the way in which you have greeted light, simply constructed gates that me here today. You cannot be nearly as glad to see me as I am to see you. Let me say once more what I said in my formal address. Think of the good fortune that is ours, think of the good fortune that is ours as a people in having, each of us, whether we in our own persons or through our ancestors, wore the blue or the gray, the proud right to challenge as our own all of the valor, all of the self-devotion, all of the steadfast adherence to right as God gave to each man to see the right, shown alike by the men who wore the blue and by the men who wore the gray in the great contest that was waged from '61 to '65.

Hillaides May Be Made Profitable and Washed Lands Reclaimed. There is a large amount of hillside land in east Texas that by terracing can be made the finest of orchard land. advises Farm and Ranch. The terracing requires a good deal of work and the laying off of the boundaries some

cash outlay required.

little skill. But there is little if any

Terracing consists of first establishing a beginning place at the highest point, then establish a line marked by states that shall everywhere be two feet or three feet, as desired, below the highest point. Then by placing the leveling instrument on the lower line another line two feet or three feet lower still may be marked, and so on to the foot of the hill. To properly level terraces that do not entirely circle the hill use a reversible or hillside turning plow. Begin at the lower side of each terrace and plow to the upper side, always throwing the furrow down the hill. If there is time before setting of trees, this process can be continued until each terrace is reduced to a level, or if planted to annual crops this leveling may be continued through several

The level terrace is probably best, but not really necessary, for orchards, as washing can be prevented by so placing the trees that no furrow will have sufficient fall to do serious injury. In this way many washed hillsides may be reclaimed and by proper rotation of crops made more fertile than they ever were or if planted to properly selected trees or vines may be made the most profitable of all the land on

A Strong, Light Gate For the Barn. In managing stock to the best advantage in stables where a few unruly animals must be managed a few easily constructed conveniences can be placed here and there that will greatly lessen Westerner, nothing but a good width and one inch in thickness. Two picces are required both at the top and Next only to a man's having worn | bottom of the gate. It is very essential thickness. In this gate the vertical pieces are four inches apart. In hanging the gate we have found nothing

equal to a strap hinge with a wood screw bolt for a hanger. The strap is bolted through the gate with quarter inch bolts. The latch is made of the same material as the vertical pieces, being cut down to half its size in order that the side motion for moving the latch below may be secured. It is bolted between the two three inch pieces and also to the piece below. When the top of the lever is pushed forward, the gate is unlatched, and with reverse action the gate, when in proper place, is securely held by the short right angular piece. A light brace is very necessary to hold the gate in proper shape. In our barn we have eight of these serve an indispensable purpose. At night all gates are closed, and if any animal gets untied no harm can be

Most Invigorating Bath in Great Salt

The late Charles Dudley Warner-author, editor and traveler-while bathing in Great Salt Lake, remarked to a friend that in all his travels he never before saw such a splendid combination of salt sea bathing, blue sunlit skies, pure mountain air and pretty women and children. The climate of Salt Lake City, while temperate the year round. is particularly delightful in summer, with its sunny days and cool nights. One, three and seven-day tours to the mountains can be made from Salt Lake City. Tourist rates are now in effect via the Denver & Rio Grande ("The Scenic Line of the World.") For beautifully illustrated pamphlets, etc., write S. K.

prescribed. No discretion is allowed me and indulgence cannot be given. THAD R. MANNING.

Through Colorado and Utah. The Denver & Rio Grande, with their num erous branches penetrating into the Rockiehave two distinct and separate lines acre the mountains. Tickets reading via "The Scenic Line of the World," between Densiand Salt Lake City or Ogden, are available either via the main line through Leadville Canon of the Grand River and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunnison. Tourists to and from Salt Lake City Ogden or San Francisco will find it to their advantage to have their tickets read in both directions via this route, thus being able to

Dress Making.

use one of the above lines going and the other

returning. Write S. K. Hooper, G. P. A.

A., Denver, Colo , for illustrated pamphlets

Mrs. W. A. Jackson announces that she is prepared to do Dress Making, and solicits a share of the patronage of the ladies of Henderson. Satis faction guaranteed as to work and prices. Residence the old Harry Burwell place, next to Mr. J. S. Burwell's, in rear of Harris' Warehouse.

Travelers to California naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande Sytem, "The Scenic Line of the World," in on or both directions, as this line has two separate routes across the Rocky Mountains between Denver and Ogden. Tickets reading via its main line through the Royal George Leadville, over Tennessee Pass, through the Canon of the Grand River and Glenwood Springs, or via the line over Marshall Pass and through the Black Canon of the Gunni son, thus enabling the traveler to use one of the above routes going and the other return

ing. Three splendidly equipped fast trains are operated to and from the Pacific Coast which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. Dining cars (service a la carte) on all through trains. If you contemplate such a trip, let us send you beautifully illustrated pamphlets, free. S. K. Hooper, G. P. & T. A., Denver, Colo.
