DAYS LONG AGO.

An Interesting Old Document Bearing Date of 1814—Mr. J. R. Clark's Prized Possession.

Mr. J. R. Clark has shown us a very interesting old document which is out of the ordinary. It is a copy book or series of mathematical examples, written by his mother, Sally Lewis, in 1814. The book is about the size of an ordinary ledger and is covered with linen. There is a peculiar drawing in ink on the outside, in shape like a skull and having a slight resemblance thereto, although it is not clear it was not intended to be such because the writer was an artist with a pen and could have made her work so plain that there could have been no mistaking her meaning had she so intended. Under this drawing the inside cover boards are lined with part of a copy of an old newspaper printed in Raleigh, North Carolina, dated Sept. 13, 1813. The name of the paper does not appear. The paper contains a report of Commodore O. H. Perry of the battle of Lake Erie, made to William Jones, Secretary of the Navy. The late Lawrence, Ariel, Niagara, Queen Charlotte, Prevost and other vessels were engaged. A list of the killed and wounded is given and certain officers were commended for their bravery and gallantry.

Another part of the paper appears a statement from Samuel Williams, acting deputy collector at Portsmouth, to Charles S. Singleton, collector at the port of Ocracoke, describing that port, Beaufort, Swain and Currituck counties in a state of blockade. This information it appears had been obtained from a British officer who had come ashore with a flag of truce.

Altogether this book is a most interesting old document and one that Mr. Clark prizes very highly. He got it on a recent visit to his sister in Boydton, Va. Speaking about some old letters and papers that had been mentioned in the GOLD LEAF this week, he said he had not known it was in existence and he brought it home to lay all the rest of the ancient documents in the shade.

HAS STOOD THE TEST 25 YEARS.

The old, original GROVES' Tasteless Chill Tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, no pay. 50c.

Did a Good Business.

Mr. H. B. Startevant, representing the Edward S. Rodgers Company, tailors and woolen merchants, Cleveland, Ohio, was at B. S. Aronson's store Tuesday and Wednesday, taking orders, as per Mr. Aronson's announcement in the GOLD LEAF last week. He had a splendid line of fashionable woolsens and worsteds for men's wear and did a good business, taking 26 orders. Mr. Aronson says he has a fine line of samples and will take orders and guarantee perfect fit, high class workmanship and absolutely unmatchable values. Suits made to order from \$14.75 upward.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is a reliable remedy for coughs and colds. It is the best remedy for coughs and colds. Melville Dorsey

Horses and Mules.

The Beacom Supply Company have just received a big lot of horses and mules which they will sell at right prices and guarantee satisfaction. If you want a nice pair of horses or a pair of good mules, a nice buggy horse or a fine saddle, a good farm horse or a splendid combination horse, it will be to your interest to examine these stock. You cannot fail to be pleased with the style and quality of the animal and the price placed upon him by these progressive dealers. Go and see the Beacom Supply Company if you want to buy a horse or mule. A pleasure to show their stock whether you wish to buy or not.

A New Idea.

All old-time Cough Syrups bind the bowels. This is wrong. A new idea was advanced two years ago in Kennedy's Laxative Honey and Tar. This remedy acts on the mucous membrane of the throat and loosens the bowels at the same time. It expels all cold from the system. It clears the throat, strengthens the mucous membranes, relieves coughs, colds, croup, whooping cough, etc. Sold at Parker's Two Drug Stores.

Profitable Crop Producing Fertilizers.

Attention is called to the change in the advertisement of the North Carolina Cotton Oil Company, manufacturers of high grade fertilizers. This is a new branch of their business and they have a reputation for making. Henderson fertilizers are made to produce profitable crops, not merely to sell consumers; therefore they may be relied on. All new materials being used these goods have the strength—a strong point in their favor. You get what you pay for, no old stock being brought over from last season. Being centrally located with excellent shipping facilities, goods can be shipped on a day's notice. If your merchant does not handle Henderson fertilizers send his name to the manufacturers or order direct from the North Carolina Cotton Oil Company, P. O. E. Schroeder, manager.

To the Trustees of Henderson Episcopal Church.

Gentlemen:—We want to donate some L. & M. Paint to your church whenever you paint. The largest Methodist church in Georgia expected to use 100 gallons of the usual kind of paint, they only used 32 gallons L. & M. mixed with 24 gallons Linseed Oil. It costs less to paint a house with L. & M. than with other paint, because painter mixes Linseed Oil fresh from the barrel at 60 cents a gallon with L. & M., and doesn't pay \$1.50 per gallon for Linseed Oil as done if ready-made paint is used. Also because the L. & M. Zinc hardens the L. & M. White Lead and makes the paint wear like iron. L. & M. paint costs only \$1.20 per gallon. Sold by Melville Dorsey, Henderson, N. C.

In reply to the letter of the Governor, I profier anew its sincere thanks for the honor and joy brought to us and to our whole community by your visit to us on Dec. 11, ult.

Dear Sir:—It was indeed a pleasure to me to get your letter announcing the fact that I had been elected an honorary member of the Contemporary Club of Henderson. While an unexpected honor, it is one I greatly appreciate, and I accept it with pleasure, assuring you I will always be glad to do anything I can to advance the interests of the Club.

The Fremont Stock Company.

This excellent repertoire company filled their engagement at Cooper Opera House three nights last week, beginning Thursday night. The opening line was with "Love and Honor" with Miss Sadie Cregan, Burligh Cash and W. Walter Schuttelworth in the leading roles. Their work was admirable as was that of Mr. Edmund Flaig. The other members sustaining their parts well and the specialty acts were very good. Friday night "The Decree of Fate" was presented. Saturday matinee "The Prince of Liars" pleased a fair sized audience and the engagement closed at night with "The Lion's Paw."

The Fremont Stock Company is composed of some very capable and clever people. They made a favorable impression upon Henderson theater-goers and will be welcomed whenever they may return to our city. Col. Fremont, the proprietor, strives to please his patrons and makes friends wherever he goes. He has a good company, presenting a good class of plays and deserves a liberal patronage. Fine assortment of crockery and glassware at H. THOMASON'S.

TO TAX DOGS.

Subject of Debate Between the Eighth Grade Pupils of the Henderson Graded Schools.

The pupils of the eighth grade of the Henderson Graded Schools had a debate last Friday on the subject: "Resolved, That there should be a Tax on Dogs. S. Master, A. T. Barnes, son of Mr. and Mrs. A. T. Barnes, spoke in the affirmative as follows:

Mr. President: In discussing the question whether there should be a tax on dogs or not, it is useless to try and not prove that a dog should not be taxed; for a dog should be protected as well as any other person's property. In first place I want to give you some idea of what the word tax means. It is an enforced proportional contribution levied on persons, property or income either by the authority of the State, for the support of the government or by local authority for general municipal purposes. We have added to our already direct when demanded from the very persons, who it is supposed as a general thing will bear their burden; as for example, the land or property taxes, income taxes, taxes for keeping manservants, carriages, dogs, horses, etc. In the United Kingdom the governmental revenue derived from the taxing of dogs and indirect sources—from taxes on income, stamps, dogs, etc. A man would not have a dog unless he was of some means. It may be paid \$25.00 for him) and if he prizes that dog there must be some way for that man to protect him as well as he does his manservant or horse, and that way is to pay a tax on him. Here is a man in our city who bought a pair of dogs for \$50.00, now suppose one of them should be killed. That man would be left with \$25.00. No he wouldn't; he pays tax on his dogs, and so does everybody else who owns one. We get every penny of his money back because it is his vote.

Another reason why a dog should be taxed is, the worthless dogs are a nuisance to our towns; they lay around our door and we have to kick them out of the way, they suck eggs and break up our hen nests. A man who owns a dog like this would be better off getting his money away by paying tax on such a pest, he is shot or taken out of our way and the good dogs are left and protected such as night watchmen, etc.

Every dog that has a cash value should be taxed for the government requires all cash or property, bearing cash value to be taxed. There are many citizens of our town who have dogs they pay 25 to 50 dollars for and have sold these dogs as high as \$50 and \$75 each; it is absurd to insinuate that such valuable property should go untaxed or protected.

How many poor people are there all over this town who are hungry every day; their income very small, feeding and providing for a family with one or more dogs, and the dogs consume as much or more than the family, and the family, or one dog's feed would raise a hog worth perhaps \$15 or \$25.

A tax on such dogs would necessitate a vote to government to get rid of these worthless brutes, which would prove a blessing to each home by increasing the amount of provisions so badly needed by the laboring man and his family.

There are people all over our land whose business it is to train, educate, buy and sell dogs, having no other business for a livelihood and have accumulated large estates in this business. I ask the question here should these dogs not be taxed as well as the horse, cow or any other valuable animal and present employment. I tell you positively yes, they should be.

It is right to tax a valuable hunting dog. It is right to tax a dog for a carrier which carries valuable packages from place to place for his master. It is right to tax a pet dog which cost his master \$25.00.

It is right to tax a worthless dog which destroys eggs, sheep and other valuable property.

It is right to tax a circus or show composed of dogs of every class because it is the law of our land that they should be taxed.
