

THE GOLD LEAF.

ESTABLISHED 1881.

—BY—

THAD R. MANNING.

THURSDAY, MARCH 1, 1906.

IS IT WORTH THE PRICE?

Did you read in last week's GOLD LEAF the article under the above caption? If you did not it is worth while to get the paper and read it. It is a letter written to the editor of the New York Sun in which the writer laments the fact that although he had made a fortune and retired his life has not been a success. He didn't get his wealth in the right way—that is, "The modern success is rank failure," he says. "Money has made this country rich; it has made it great; it has made its people selfish and unprincipled. I could give all I possess tonight if I could say: 'I have given every one a square deal. I have done no man a wrong.' Poor fellow, he has learned at terrible cost and when too late that money is not everything, real success is not measured by dollars. Happiness cannot be purchased at the sacrifice of right and honor and the giving of a "square deal" to his fellow man.

Commenting on the article in question the Greensboro Industrial News says this: A whole volume could not say more, and if human hearts were all laid bare to the gaze of the multitude we doubt not that on many a heart would be found written the same words. We are too prone to look merely at results—to count success or failure in dollars and cents, forgetting that luxury and power are after all but poor and sorry things when they represent the sum total of a life's work.

The acquisition of money is not in itself either a crime or a disgrace. It may well mean that behind it the long years of earnest toil and frugal living. But on the other hand it is often the case that wealth is bought at the same price paid by the Sun's correspondent, and brings with it the same hollow mockery of happiness which he admits is his portion.

For money is not everything. And the highest, truest, greatest measure of success may go hand in hand with comparative poverty. This we all feel—this we all know, but the frankness of the unknown writer of the communication we have reproduced brings home the subject in a most forcible manner.

He who buys wealth at such a price day after day will live to regret it. If Durham does not have a hanging in the not dim and distant future, there will be a awful miscarriage of justice—just as there have been before.

Don't be a croaker, talk up for your town. Preach Henderson at home or abroad. If it is not already the best town in the land do what you can to make it so.

Be loyal to your town and section. Lose no opportunity to give it favorable mention. In this way you will not only help your own business but help build up the town and community as well.

RALIGH has three telephone systems and the people there have come to the conclusion that they have two more than they want. There is such a thing as having too much of a good thing some times.

Up at Greensboro the trial of Dr. Matthews for murdering his wife is on this week. They will make him out a dope fiend and not responsible for his acts—and the gallows will be cheated of its deserts again.

And what good will it do Hoch's lawyers if they succeed in showing the courts that they have hung the wrong man?—Durham Herald.

Oh, the satisfaction of saying "I told you so." But what good will it do Hoch?

We repeat, Henderson needs more manufacturers—small industries that require little capital to start and operate them. A town grows and prospers in exact proportion to its pay roll. The smaller the amount of money put into daily or weekly circulation, the slower is local advancement. The greater the amount paid out in wages the more rapid the development and the more prosperous the community.

THE trial of the famous Matthews case begins tomorrow; and whether he is convicted or acquitted the dead-end highway can claim another life wrecked.—Greensboro Industrial News, 27th.

And yet we do not hear the hue and cry against the deadly dope seller and the dope fiend that we do against the liquor seller and liquor drinker. But the only difference seems to be in the respectability of the two businesses. As to the curse of the two evils they are on all fours.

A bill has been introduced in the Virginia legislature to impose a stamp tax of one cent upon all checks of fifty dollars and over—the fund derived from this source to go to Confederate pensions. We believe that Virginia and every other Southern State should render the greatest possible assistance to the needy soldiers, but it seems to us to be a great mistake to make that assistance dependent upon a measure which will certainly be unpopular.—Greensboro Industrial News.

Our sentiments exactly. Better raise a pension fund by direct taxation and be done with it. Such action would be infinitely more popular than the measure proposed.

HAS STOOD THE TEST 25 YEARS. The old, original GROVES Tasteless Chill Cure. You know what you are taking. It is iron and arsenic in a tasteless form. No cure, no pay. 50c.

DON'T BE ENVIOUS.

Too many of us are spending our time, too religiously in trying to do this or that brother for office or strip him of honor because our own weakened soul cannot consent to see another enjoy that which we covet, but do not deserve because we have not given service for it. By hard and persistent effort some brother has reached a prominence too great for our liking, and we straightway take the time which Deity has given us for some beneficent purpose to plot and plan for our brother's overthrow. Think of it, brethren, and then don't do it. Think of the sacred pledges that you have of your own selves and try and be too broad, too great and too good to stoop to vicious and contemptible practices.—Masonic Chronicle.

And this sort of advice is applicable not only in the lodge room of the secret order, but to persons in everyday walk and conversation as well. Let us not cultivate or harbor an envious, covetous spirit. We should not put an obstacle or hindrance in the way of others if we cannot or will not reach the goal ourselves. Let us rather aid and encourage our fellows in every worthy effort and ambition. Do not be jealous, envious, selfish. Time so spent dwarfs our nature and blocks the way to our attainment to better things and the enjoyment of life.

THE PROGRESSIVE FARMER.

The Raleigh Progressive Farmer has just celebrated its twentieth anniversary. Under the able conduct of its talented young editor, Clarence H. Poe, it is one of the best agricultural papers in the country, with a large and growing circulation, and is wielding an influence for positive good among its constituency. In taking note of the closing of its twentieth year, Editor Poe gives the following as his ideal that he is striving to reach:

To make each farmer who reads the Progressive Farmer a little better informed, a little more progressive and successful than his neighbor who does not read it; to put into the life of each mother, wife, or housekeeper a little more sunshine than is in that of her neighbor who does not read it; to make each young man who grows up with it a little manlier, a little more inclined to seek after things of substantial worth and to avoid the false and trashy, than his cousin who never imbues his spirits;

to give each girl or young woman who reads it a little higher estimate of the importance and influence of a sweet and simple womanly life; to give each citizen who reads it a little more reverence for law and order, a little more of the spirit of tolerance, a little less of the spirit of prejudice, and to make all that read it a little better acquainted with "whatsoever things are honest, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report"—this is our ideal.

We cannot do better than to quote with approval the following comment from the Sanford Express:

This is a view which may well cause the editor of the Progressive Farmer to tremble at the responsibility placed upon him by his chosen work, but Mr. Poe has no cause for trepidation in his retrospect. Under his editorship and management the Progressive Farmer has stood for charity to one's fellowmen; it has desired truth and loved honor; it has been clean; it has not been deluded; the best it had it fully shared, the best it could get it gave; it has not imparted evil communications nor good morals corrupted—in all these things it has been a worthy example to its readers and to its contemporaries.

COLOR TROUBLE FROM ANOTHER QUARTER.

A press dispatch from Fayetteville ways it is reported that the large Ashby Bailey silk mills at that place employing several hundred negroes, will shut down shortly because the white finishers from the North who belong to the labor unions refuse to come down here to work with the negroes or handle their product.

WANTED—By Chicago wholesale and mail order house, a man or woman (man or woman) for this country and adjoining territory. Salary \$20 and expenses paid weekly; expense money advanced. Work pleasant; position permanent. No investment or experience required. Write at once for full particulars and envelope self-addressed envelope. COOPER & CO., 132 Lake St., Chicago, Ill.

Tobacco Farmers at Work.

The gathering of tobacco farmers at Durham yesterday was an occasion of importance and interest. The spacious court house was crowded with earnest men who have been systematically robbed of the rightful proceeds of their labor since the organization of the tobacco trust. At the very home of the trust the farmers declared their intention to fight until they restore the working of the law of supply and demand throttled by the tobacco trust.

The growers of dark tobacco in Tennessee and Kentucky have effected a strong organization. They talk out in meeting and have gone to law to get justice. The North Carolina tobacco growers should study the aggressive methods of their Kentucky brethren and organize on practical lines to get fair prices for the tobacco they grow. They will fail unless they recognize that their enemy is the rich, powerful and resourceful American Tobacco Company that controls prices, and has fattened by depressing prices of tobacco.

A Scientific Wonder.

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. B. Mallard, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of piles. NORTH CAROLINA'S SHARE.

Federal Cash for Public Buildings—Goody Portion of the Only "Pork" Measure of This Session of Congress Will be Expended in This State If Pending Bills Go Through All Right.

John E. Monk in Greensboro Industrial News. WASHINGTON, Feb. 26.—North Carolina will get a goodly portion of the appropriation that will be authorized by the omnibus public building bill, which measure will soon be reported to the House. Nearly every member of the Carolina delegation has asked either for a new building for some town in his district, or for increased appropriations for buildings already authorized.

Bills are pending providing for the construction of new Federal buildings in North Carolina as follows: High Point, Burlington, Fayetteville, Henderson, Kinston, Washington and Salisbury. Increased appropriations are sought for the buildings heretofore provided for Asheville and Winston-Salem. These increases will undoubtedly be allowed. It is probable that new buildings will be provided with them by the House committee, of which Representative Thomas is a member.

"I can only say that I will do my best for the State," said Mr. Thomas to the correspondent of the Daily Industrial News.

ONLY "PORK" MEASURE. The omnibus public building bill will be the only "pork" measure passed at this session, it having been decided some time ago that river and harbor appropriations should be passed up for the present. Public buildings being the only thing in sight the hungry statesman is after public buildings with some measure that appeals the House leaders.

Some there are who say that Speaker Cannon was opposed to public building legislation until the statehood fight assumed an acute stage. When he finally yielded announcement was made that a "small" bill would be reported and passed. By "small" bill was meant that not more than \$8,000,000 would be allowed for public buildings. It has just been made known that the House will report a measure calling for an expenditure of from \$12,000,000 to \$15,000,000. It is estimated that the Senate will add at least \$5,000,000. The House proposes, but the Senate disposes. This means that this congress will pass an old time omnibus, or "pork" bill, carrying appropriations approximating \$20,000,000.

EFFORT TO CUT OFF SMALL CITIES. An effort was made by the committee to adopt a hard and fast rule shutting out cities of a population of less than 10,000, and to restrict receipts of at least \$20,000 a year. There was opposition to this proposal, especially from Southern and Western representatives.

"In the West and South," said Representative Thomas, "there are many cities of comparatively small population that should receive the same consideration as is accorded larger cities in the East and North. Conditions vary in the different sections, and the cities in each section should be considered on their merits in this connection. You can't have a uniform rule of this kind when you are preparing a public building bill. Each project must be gone over according to the circumstances that surround it."

The sub-committees of the House committee on public buildings are now going over hundreds of measures that have been offered. Representative Thomas is a member of the sub-committee having jurisdiction over the bills calling for public buildings in the Southern States. A final report to the full committee will probably be made by the sub-committee this week, and the omnibus bill will come up in the House early in March.

Get the Right Kind. If you are troubled with Piles and can't find a cure, try Witch Hazel Salve, but be sure you get that made by E. C. DeWitt & Co., Chicago. It is the Original. What He Used it For. Wine tasting was his business, and he was reputed to be one of the best who followed that somewhat peculiar means of making a livelihood, so when the bet had been made and the money posted, his "backers" were sure of winning. Incidentally they did.

The subject, blindfolded, was to taste one after another, the contents of 25 wine glasses, and—if he would win the stakes—name correctly the liquor in each. From one to 24 he went down the line, never hesitating and always right. At the last he stopped. It was filled with water only. He sipped it, turning it over and over with his tongue, asked for a second mouthful considered, with a most perplexed expression, and then had an inspiration. "Of course," he exclaimed, "it's the stuff I clean my teeth with."

The Right Idea. One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for Coughs and Colds would be to move the bowels and cleanse the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the Original Laxative Cough Syrup. The best known remedy for Coughs, Colds, Croup, Whooping Cough, etc. Tastes good and harmless. Sold at Parker's Two Drug Stores.

S. A. L. Into Cincinnati. PITTSBURGH, Pa., Feb. 27.—A great railroad project, destined materially to change the face of the industrial South, will be officially announced by the Seaboard Air Line Railway Company in a few days from its headquarters in Portsmouth, Va.

The project is nothing less than the construction of a trunk line from Tennessee to the States of Alabama, Georgia and Florida, and to ports on the southeast Atlantic coast. This line will also afford the west and middle west the shortest route to the Gulf States from Cincinnati, the gateway to the South.

MURDER IN DURHAM.

A Brutal Husband Drags His Sick Wife Out of Bed and in Cold Blood Shoots Her to Death.

DURHAM, Feb. 25.—One of the foulest and most brutal murders ever perpetrated in this section or in the State was committed at West Durham last night at midnight, when John H. Hodges dragged his wife from her sick bed and shot her to death.

The six children of the couple witnessed the murder and were powerless to help their mother when the brutal father and husband drew his pistol and fired the fatal shot into the heart of his wife and erstwhile companion. One son, the oldest, interceded and did what he could to back and shut his mother's eyes from the brutal demon. "If you say a word I will kill you." With this he knocked back the son and he fell to the floor. The shot that sent the soul of the helpless and screaming woman into eternity was fired. The murderer then fled the house but was arrested a short while later and locked up.

Owing to Hodges' dissolute habits and cruel conduct he had not been living with his family for some time. He went to the house last night and announced his intention of killing his wife as soon as he got there.

Mitchell-Gill. Contributed. Just as the sun was sinking behind the western hills on Feb. 21st, people of the neighborhood began to gather at Plank Chapel church to witness the beautiful marriage of Mr. Henry Mitchell and Miss Lois Gill.

At the appointed hour Miss Earle Duke of Epsom, began to play the wedding march, to the soft strains of which the sisters, Messrs. Phil Smith of Kittrell, Byard Allen and Lowel Rogers of Bobbitts, C. Gill of Gillburg, entered, followed by the bride leaning on the arm of her cousin, Miss Mabel Gill; next came the groom and his best man, Mr. Nat Mitchell, a brother.

The words that pronounced Mr. Mitchell and Miss Gill man and wife were spoken by Rev. A. L. Ormand, pastor of the church, the beautiful and impressive ceremony being witnessed by a large crowd of interested friends and spectators.

The bride was handsomely gowned in blue broad cloth with hat to match and carried a bouquet of white carnations. After the marriage Mr. and Mrs. Mitchell accompanied by the bridal party drove to the home of Mr. Ernest Fuller, cousin of the bride, where a sumptuous supper was served.

The presents received by the happy young couple were numerous and handsome. WANTED—10 men in each State to travel, post signs, advertise and leave samples of our goods. Salary \$75.00 per month, \$3.00 per day for expenses. Royal Supply Co., W. Atlas Block, Chicago.

STRENGTH-CREATOR

Robert Guaranteed by Physicians and Over Two Thousand Leading Druggists as the Best Strength-Creator Known to Medicine.

This is because Vinol is the latest scientific production of the greatest tonic re-builder the world has ever known, namely, cod liver oil. In Vinol the system-clogging, nauseating oil is eliminated, and the medicinal, curative elements known to exist in the cod liver are administered in a highly concentrated form, therefore, a preparation containing all these medicinal, curative and body-building elements; free from oil or grease, must be the best strength creator possible to produce.

Our leading druggist, Mr. W. W. Parker says, "I have used Vinol for a number of years and I can guarantee that it is and will do all we claim for it or refund money without question."

His Mother's Applause. John Philip Sousa's mother was his greatest encourager and advisor; what she said about his work was, to him, final. Now, strangely enough, after he had been hailed as the "march king," two or three years "slipped away before she saw her boy conduct his own band. One night, during an engagement in Washington, Mrs. Sousa was taken, in the public building, by the mother of a march king, to hear his band. From this point Mr. Sousa tells the story:

"Of course, I saw mother up there in one of the boxes, and to tell the truth, I was more nervous than I had ever been when playing before the sternest critics. The family did not wait for me, but went straight home, and when I arrived, all had retired—that is, all but mother. She was waiting for me in the dining-room. I went into her.

"Well, mother?" I said. She came across the room to me, and put her arms round my neck. "Philip, dear," she said, "you deserve it all." That memory, let me tell you, is more to me than any applause ever given me."
