on account of the coal suspension.

McCurdy Charged With Conspiracy. New York, April 10. - Charges of conspiracy in the appointment of Rebert H. McCurdy as superintendent of the foreign department of the Mutual Life Insurance Company were made in a new action brought by that company against Richard A. McCurdy, formerly president of the company, and his son, Robert. The complaint alleges that the two McCurdys conspired to enrich Robcuss its terms with the miners' comert H. McCurdy by maintaining his mittee, and to frame an answer to the compensation on a commission basis

passed upon by the anthracite coal strike commission. There is a strong impression among the miners' committee that the operators will propose that President Roosevelt be requested to summon the strike commission to review the entire controversy. They decline, however, to indicate how they would receive one suggestion. The ommission is familiar to a considerable extent with conditions in the anthracite regions, and, therefore, would not have to go over the entire ground, as would be the case if an entire new set of men were selected. The operators' representatives were

in close conference most of the day, and promise that unless something unforeseen should occur, they will be ready with their answer to the miners' arbitration plan. The reason given for the postponement was that the large coal companies desired to obtain the sentiment of all the independent operators before they draw up their formal answer, and as some of the inde-

pendents were engaged in exchanging views in the upper Pennsylvania coal fields, it was deemed best to wait until they had taken action. The operators, through a representative, said the general policy had been decided upon, and that the minor details will be disposed of at a full meeting of the sub-committee prior to the conference with

President Mitchell announced that the last of the bituminous coal operators in the Pittsburg district who had held out against the 1903 wage agree ment signed the scale. This action, he said, clears up the western Pennsylvania territory, and means that 40,000 men in that territory who produce

from 25,000,000 to 40,000,000 tons of soft coal a year will receive an increase of 5.55 per cent. in wages.

MINERS ARE HOPEFUL

Believe Operators Will Open Way For Settlement of Trouble.

Philadeiphia, April 10 .- Mine workthe operators requesting a postponement of the New York conference is

an indication that, while President Mitchell's arbitration may not be ac cepted as presented, the operators themselves will have a proposition that will open the way for an amica-
