

THE GOLD LEAF.

ESTABLISHED 1881.

—BY— THAD R. MANNING.

THURSDAY, JUNE 28, 1906.

DESPITE the fight made against him Charles C. Daniels will be re-nominated for solicitor. He has made a capable and acceptable offer—re-ceptable to the law-abiding element of the district—and one of the strongest arguments for his re-election, is the crowd that is opposing him. Although the convention did not instruct Daniels is the choice of Vance county and he will have the majority of the delegation with him.

THE trustees of Trinity College have granted Dr. John C. Kilgo, president of Trinity, leave of absence for a year, which he will spend abroad. Salary and all expenses of the trip will be paid by the college.

News Letter from A. & M. College.

THE Teachers' Assembly which occupied the past week was one of the most successful gatherings of the kind ever held in the State. About 700 teachers were present. The address was being made and were well attended by the teachers in spite of unfavorable weather. The closing event, Bishop Rondthaler's sermon, was greatly enjoyed.

THE North Carolina Summer School now in session here is well attended and is conducted in a manner which elicits praise from all who know anything of the actual work done. The attendance for the session will be in the neighborhood of 700 teachers. New and better methods are being brought to them and it may be expected that the schools represented will derive incalculable good from the summer school. A number of the most progressive county and city superintendents are here looking for teachers.

THE State Farmers Convention which convenes at the A. & M. College, July 10th, 11th, and 12th promises to be most interesting and instructive gathering. This is a Farmer's organization and has to do with everything relating to the farm and rural life. Special programs are provided to more thoroughly meet the needs of the tobacco and cotton farmers, dairymen, institute workers, and women.

ATHLETIC sports at the A. & M. College during the recent years have made powerful advance in spite of adverse circumstances. It will be good news to the friends of the College-where to know that the work of constructing a suitable athletic field was begun a week ago, and that the work is now rapidly going forward. The new field when ready for use will be one of the best in the South. Its completion will mean much for athletics at the A. & M.

THE new agricultural building at the A. & M. College is being wired during the summer by electrical students under the direction of Prof. Adams. Other students are here working in the dairy and about the College grounds. In fact as we hear from the A. & M. boys in different parts of the State, we hear—as indeed we expect to hear—that they have their working clothes on and are spending their vacation in the mountains. They come back to the College to continue are doing surveys in the mountains of Raleigh, and one of the jobs is the laying out of the walks in the Capitol square soon to be made grand. The demand for young men who can do Civil Engineering work is so great that graduates, seniors and juniors are all working during the summer in their chosen line of work.

IN spite of urgent need for more room and added teaching force, the College is growing. The registration this year was 496 against 474 last year. The graduating class numbered this year 54, last year 40. Already the number of inquiries looking toward matriculation in September is very large. Examinations for admission will be held at the County seats on July 12.

Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at Melville Dorsey's Drug Store, Prices 50c. and \$1.00. Trial bottle free."

"Tricolor," the Bostock leopard-lion hybrid, recently died, and a lioness in Mr. Bostock's menagerie gave birth to a pair of puma-jaguar hybrids. Persons who visited Bostock's trained animal exhibition at the Buffalo exposition, will recall the leopard-lion-tiger hybrid, then a mere cub, as well as the zebra-donkey hybrid which also attracted much attention.

A Thousand Dollars' Worth of Good. "I have been afflicted with kidney and bladder trouble for years passing gravel and stones with excruciating pain," says A. H. Thurness, a well known coal operator of Buffalo, O. I got no relief from medicine until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me \$100 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. Melville Dorsey, Druggist.

Virginia-North Carolina Press Convention.

Joint Meeting to Be Held at Mecklenburg Hotel, Chase City, Va., July 13-14, and Excursion to Boston, July 16.

The annual meeting of the North Carolina Press Association will be held on Friday and Saturday, July 13th and 14th, at the Mecklenburg Hotel, Chase City, Va., in connection with the Virginia Press Association. Last year the two associations met jointly for the first time, in Asheville, and were guests at Kenilworth Inn. So pleasant was this meeting and mingling together of the editors of these two sister States that the Virginians insisted that there should be a joint meeting again this year, on Virginia soil. An invitation was extended by Col. W. T. Hughes, president of the Mecklenburg Hotel and Mineral Springs Company, who was present, for the convention to be held at the Mecklenburg. The matter of time and place of meeting was left with the two executive committees, and the Mecklenburg was chosen at a joint meeting of the committees held in Richmond some time ago. No more delightful place could have been selected. The Mecklenburg makes a rate of \$1.50 a day, which is a very low rate for this famous hotel. The itinerary will include a trip to Boston. From a circular letter sent out by Secretary Sherrill, of the North Carolina Press Association, we take the following:

We will spend Sunday at the Mecklenburg, leaving early Monday morning over the Southern for Norfolk, where at 6 o'clock p. m. we will take a special steamer of the Merchants' and Miners' Transportation Company for Boston. The trip to Boston by sea will be one that all will enjoy. We will have the best one of the best in the service, entirely at our command, and none but our own party (which will include any friends any of our members wish to accompany them) will be allowed on the boat. Having our own party exclusively, the trip will be made extremely enjoyable.

The rate per person from Norfolk to Boston and return via the boat will be \$2.50. This includes berth and all meals en route. We will be on the boat two nights and a day each way. The trip going and returning will include ten meals and four nights' lodging. The price also includes railroad fare from Providence to Boston and return.

We will leave Norfolk Monday, July 16, at 6 p. m., as stated. All of Tuesday will be spent on the boat. Will arrive at Providence early Wednesday morning. Breakfast will be served on the boat at 8 a. m., after which we will take early train for Boston. Time to Boston, one hour. We will not return in a body, as some will wish to remain longer than others, and some may wish to visit New York or other places before returning. The tickets will be good to return on any boat. Half fare will be made for children not over 12 years of age.

A hundred years ago the best physician would give you a medicine for your heart without stopping to consider what effect it might have on your liver. From this good day cough and cold medicines invariably kill the bowels. This is wrong. Bee's Laxative Cough Syrup with Honey and Taracts on the bowels—drives out the cold—clears the sinuses—relieves the throat—opens the chest, lungs and bronchial tubes. Sold by the Kerner-McNair Drug Company.

Beautiful Marriage Celebrated in Methodist Church at Dabney.

Contributed. A beautiful marriage was celebrated in the Methodist church at Dabney on June 20th, at 11 o'clock a. m., Rev. E. L. Raper, officiating. The contracting parties were Mr. William W. Dunn, of Henderson, and Miss Studie Hart, the lovely and accomplished daughter of Mr. Ira Hart, of Dabney.

The groom entered with his best man, Mr. L. Perkinson, of Oxford, a cousin of his. The flower girls were little Urna Hart and Jewel Sawyer, one in pink and the other in blue silk, and carried daisies. Miss Stella Hart, sister of the bride, had a bouquet of pink and white carnations, and wore white silk.

The bride was very handsome in her going-away gown of blue silk, hat and gloves to match and carried a magnificent bouquet of bride's roses.

Immediately after the ceremony the happy couple drove to Henderson, where they took the noon train for Richmond and other Northern cities.

Deadly Serpent Bites are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy: Electric Bitters, the great restorative medicine, of which S. A. Brown, of Bennettsville, S. C., says: "I restored my wife to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by Melville Dorsey, Druggist. Price 50c.

Some of Judge Shaw's friends seem to be laboring under the impression that he needs an office.—Durham Herald.

Not that, but they see what North Carolina is going to lose by Judge Shaw's retirement from the bench.—Greenville Reflector.

To the Trustees of Henderson Episcopal Church, Gentlemen—We want to donate some L. & M. Paint to your church whenever you point.

The largest Methodist church in Georgia expected to use 100 gallons of the usual kind of paint, they only used 32 gallons L. & M. mixed with 68 gallons Lined Oil. It costs less to paint a house with L. & M. than with other paint, because painter mixes Lined Oil fresh from the barrel at 60 cents a gallon with L. & M., and doesn't pay \$1.50 per gallon for Lined Oil as done if ready-made paint is used. Also because the L. & M. Zinc hardens the L. & M. White Lead and makes the paint wear like iron.

Actual cost L. & M. about \$1.20 per gallon, Sold by Melville Dorsey, Henderson, N. C.

FROM WILLIAMSBORO. Miss Sadie Aycock, of Louisburg, is visiting Mr. I. Y. Sneed. Messrs. Whitted and W. B. Shanks, of Henderson, were visiting at Mr. H. T. Shanks' on Sunday last. Rev. H. T. Stevens filled his regular appointment at Island Creek Saturday and Sunday. Sunday afternoon he lectured at Kelly's Cross Roads. Mr. A. A. Short, of Clifton Forge, Va., is visiting his home people, but spends most of his time inquiring after the health of a certain young lady in the neighborhood. We would like to make a correction in the Greenboro items of week before last. The Mr. Sneed to whom the writer referred as being from Townsville, is not from Townsville, but our young lawyer. We understand that he is interested in "real estate" near Epsom. Miss Ruby Woody returned from Raleigh Saturday, where she has been attending the summer school. Miss Mamie Evans and her cousin, Miss May Shanks, returned from Clarksville, Va., Thursday afternoon, where they attended the marriage of Mr. John R. Evans and Miss Bowen Gordon. Miss May Shanks and brothers report a pleasant time at a birthday party given by Miss Viola Fleming on Monday night. We are glad to note that Miss Belle Bullock, who recently returned from the hospital at Charlotte, N. C., has improved a great deal. There will be a big picnic at Buckhorn Lillian Spring on July 4th. We hope to have a big time. Williamsboro, June 26.

Our fine old friend, the Robesonian, has changed editors again. Mr. C. A. Hines retires to accept a position with the Greensboro Patriot. He did excellent work on the Robesonian. He was trained under one of the finest newspaper men in North Carolina—Clark of the Landmark—Thomasville Charity and Children.

Improved Seeding Knife Stop and Investigate This the Latest Improved and Best Fruit Stoning Knife.

THIS SPACE IS DORSEY'S. In preserving, canning or pickling fruits such as Peaches, Appricots, Plums, and Prunes, it is desirable to remove the stones and leave the fruit whole and as near its natural shape as possible. A knife of a certain shape and size is required for the purpose as with ordinary knives of odd style it is impossible to so cut around the stone as to leave it in good shape. My knife is particularly adapted for this purpose and has only to be seen to be appreciated and purchased. With a desire to place it on the market, I will sell State and County rights, and a premium of so many kinds with each county sold will be given free which will enable the purchaser to soon realize his best profit. Any one wishing to buy sales rights, call on or write me for full particulars. All correspondence will receive prompt attention. Soliciting your patronage, I am, J. O. BECKHAM.
