Small men with small purposes do not help to make a town lively and progressive, says an exhorter. The man who never contributes to public enterprises or voluntarily assists in supporting any of the public enterprises is not worth coaxing to remain in a town, and should be decided to emigrate. It is always a matter of congratulation. It is units and not mere ciphers that count for something.

Vagrant Law Should be Enforced.

Again the question presents itself, Why is the vagrant law not enforced? It seems to be a dead letter on the statute books as far as Henderson is concerned, notwithstanding the fact that there are numbers of persons to whom the law applies—lazy loafers who are leeches upon the community, living at the expense of others either by means of "cat-hole grub" or gambling and cheating. There is employment for all who want to work and every able bodied person ought to be made to work or leave town.

Milch Cow Wanted.

Wanted, a good milch cow—one that will give 3 or 3 1/2 gallons of milk a day. Grade Jersey preferred. Must be kind and gentle and not too old. Apply at this office.

Visiting in Wilson.

The gifted word-painter, Henry Blount, in the Wilson Times last week says this of a Henderson young lady visiting in that city:

Among the rare and radiant maidens who are now distilling such witchery in Wilson, and making so many hearts intoxicated with their vebriating potentia of contentment, we notice in the lovely home of the very clever and popular Mr. Nutall on Broad street that magnificent mood of rare witcheries, the gloriously cauled and symmetrically formed Miss Norma Britt, of Henderson, whose mission it seems to be make earth brighter by her magnificent beamings of radiance, and to die to live in the mellow glow of her entrancing charms a roser tinting of loveless and attractiveness.

A GUARANTEED CURE FOR PILES.

Grow Alfalfa.

Attention is called to the short article in the Kinston Free Press, on alfalfa culture, printed elsewhere in these columns. The GOLD LEAF has from time to time urged upon the farmers of Vance county the value and practicability of this superior feed crop. It has been satisfactorily demonstrated that alfalfa will grow well in our soils. It may be a little difficult at first to get a good "stand" but one failure should not prove discouraging. If at first you do not succeed, try again (plant over) and keep on trying until you do succeed. And once the soil is well sodded in alfalfa the rest is easy. Try an acre or two this fall. Plant on upland—never on bottom or wet land. Prepare the soil well, enrich highly with stable manure or compost as you would for peas or clover, and you will bless the day you tried the experiment.

Classes in Music.

Public classes in music, and will give lessons either at my home or residence of pupil as preferred. Instruction limited to piano. Terms reasonable.

MISS MAY BEVK.

Items from Flemington.

Flemington is still alive and in the front. We have had seasonable rains, crops have been well worked, and are looking well and the farmers are feeling good. Our farmers have decided not to go to the beach this season, but just the same they are at home having a quiet, breezy time—will soon have plenty of melons and fruits of various kinds.

All in town are well now.

Mr. Edwin Fleming is rapidly improving from a short spell of malaria.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Melville Dorsey.

Death of Mr. J. R. Bradley.

Mr. J. R. Bradley died in the hospital in Norfolk on the 19th, and the body was sent to his old home near Hobgood Halifax county, for burial. He was taken to the hospital about three weeks ago sick with typhoid fever. Naturally of a frail constitution and desperately ill from the beginning his condition caused grave apprehension to his physicians and friends. Soon after reaching the hospital he had three severe hemorrhages in one night and the report got out that he was dead. He rallied, however, and survived for ten days. Mr. Bradley was about 27 or 28 years old. He had been in the employment of W. W. Parker a little more than a year and had made many friends among our people. He was a fine young man and a competent druggist. Mr. Augustus Bradley of Burlington, is a brother of his.

Best and Cheapest Plan of Saving Corn.

Instead of saving fodder in the usual way by stripping it off of the stalks, why don't more of our farmers adopt the plan of cutting up the corn and utilize stalk and all? It is cheaper and easier to save it in this way and when run through a cutting machine or shredder it makes excellent feed. Stock eat it with a relish and thrive on it. This is the day of labor-saving machinery and modern methods on the farm.

W. H. WESTER.

Would "Dose" Them.

In the advertisement of Stedman's 5c Blood and Liver Pills, as it appeared in the GOLD LEAF last week, there was an error which, though apparent to the reader, it is well enough to correct here. The sentence "Ask your dealer for these pills and if he dose, keep them send us the money and you will get them by return mail," should have read, "Ask your dealer for these pills, and if he does not keep them, etc. The error doubtless caused some of the readers the glory of the printer used a part of the same line which appeared in the Head-Easy advertisement the week before, where in the words "Price: 5 cents a dose," were employed; or he may have been trying to "dose" them.

Governor Folk's Advice to Merchants.

Concord Tribune.

In a recent address to the retail merchants of Missouri, Governor Folk said: "No merchant can succeed without advertising in one way or another. Patronize your own papers, build them up, and they will build the town up and build you up increased trade and greater opportunities."

Which is a doctrine the business men are fully alive to, though many of them do not get the benefit they should. The fleshy part of the staff of support them as they deserve, and as is necessary, in order to assure their being able to do the best that is possible. The business man is beginning to see that newspaper advertising is the only one the retail dealer can get of the public good. Governor Folk is able to see the great benefit from supporting a home paper and does not hesitate to advise rightly.
