#### Democrats Not Responsible

For the "Hard Times" that Prevailed During the Period of Five Years from 1894 to 1898-Prom inont Republican Official Declares that the Low Prices During Cleveland's Term Existed all Over the World.

Pittsboro Record

The favorite argument of Republican speakers and papers, in their frantic efforts to persuade Democrats to desert their old party, is to remind them of the low prices that existed during President Cleveland's last term, which they erroneously ascribe to Democratic incompetency. It is the time-worn argument of Republicans to compare the "hard times" during Cleveland's last term and the present prosperity under President Roosevelt, and they erroneously allege that the Democrats were responsible for the former and that the Republicans are to be praised for the

The falsity of this favorite argument is clearly exposed in the last number of the Review of Reviews. (a non-partisan magazine) in an article written by Hon. Geo.E. Roberts, who is a Republican and the Director of the United States Mint, and who is as good authority as any Republican ought to ask for. In that article Mr. Roberts shows that prices had been steadily falling for several years, and, to quote his words, "were upon a lower level during the five years 1894-98 than during any other consecutive five years of the last half century, not only in the United States, but in

the markets of the world." Our Republican readers will please note particularly that Mr. Roberts declares that the low prices during Cleveland's term existed all over the world. Surely even the most ignorant and prejudiced Republicans will not hold Democrats responsible for the low prices that prevailed in all

other countries! The truth is the "hard times" had set in before Cleveland's election all over the world. The times had become so bad in this country as to cause the farmers to organize the famous Farmers' Alliance as far back as 1888 to protest against them and 10c. Bottle - - 2 Doses to try to obtain relief. No man can 25c. Bottle - 8 Doses deny this. There was a great financial depression all over the world before Cleveland's election. The wellknown English bankers (Baring THE ORIGINAL LAXATIVE COUGH SYRUP Brothers) had failed and a general financial panic prevailed all over the KENNEDY'S LAXATIVE HONEY WOTAR world. The Republican President

nancial relief, had the plates made just before the expiration of his term for the printing the gold bonds which Cleveland had to issue afterwards.

This is well known. It is thus shown that the Democrats were not at all responsible for the low prices, as alleged by Republicans, as Mr. Roberts, (although a depublican officer) admits in his article (before mentioned) that the present prices are due "to natural conditions and not in any important degree to manipulation or causes within government control." The chief cause for the increase in prices, as everybody knows, is admitted by Mr. Roberts to be the large increase in the "general stock of money in the United States," which he says increased as much as fifty per cent. in 1906 as compared with 1896.

They are the reasons which cause a man and his baby to go out in the spring-time and thurst their faces into the fountains of soft pink blossom upon the peach trees. Thomas Dixon, Jr., talked with a representative of the Evening Times today about the disorderly demonstration by negroes in Philadelphia Tuesday night and he presented his compliments to Mayor Weaver in real Dixon style. He said that the city government practically surrendered to the negrors, that being due to the fact that the elections are only two weeks off. He declared, more-

over, that the thing could not have happened in any other American city. "Last spring," said Mr. Dixon, "the negroes tried to keep The Clansman out of Philadelphia. We appealed to Mayor Weaver, an inepector was sent to the performance and he reported that there was nothing objectionable to the play. We remained there for a month or more without a disturbance. Now, we go there two weeks before an election to meet this trouble. Negro preachers sent out a call for a meeting in front of the Walnut Street Theatre to take action. They were extremely violent. Black toughs were sent into the theatre and when the curtain was raised they hurled No other medicine has such a record eggs on the stage. Politics ruled. Weaver took the negroes in his arms, calling them his brethren. This was the cided in the spring that there was nothing wrong with The Clansman. He was afraid the blacks would throw their strength against his same mayor, mind you, who had dethrow their strength against his party at the polls. The court proceeding was a contemptible exhibition of peanut politics, the like of which could be seen only in Philadelphia. I extended my most profound sympathy in the absence of a decent civil government and to the officials of the travestry that passed for civil government I expressed my most profound contempt. Mayor Weaver stated that he would revoke the theater license if the court ruled against him.
