

### Think More—Spend Less.

Why is it that the average man is worth so much less in money and property than we have a right to expect him to be? It isn't because he doesn't make the money, for the average man is industrious and has earned from \$10,000 to \$30,000 in the past ten years. It is because he doesn't give much serious thought either to his income or to his expenses. Serious thought would teach him the true value of a dollar; then he would save more carefully and save steadily. That system soon places any man ahead of his fellows.

### Weather Too Bad to Show.

On account of bad weather the Barnum & Bailey show did not give a performance in Henderson Thursday. It rained and snowed the night before and the weather was cold and raw. The show trains came in all right and the wagons unloaded with proceeded with and the wagons moved out to the show grounds notwithstanding the unfavorable conditions of the weather. The big manager tent and the tent for the horses were put up during the early morning hours as the animals had to be fed. In the mean time the management was undecided about attempting to give any performance. More rain fell followed by snow and the idea of even opening the managerie to the public, as had been suggested, was abandoned. The main tent was not put up at all, and when the animals finished eating they were taken back to the cars, the tents (except the managerie tent) and the wagons reloaded on the trains when they pulled out for Norfolk.

The crowd from a distance was small but great disappointment was felt because there was no show.

### ABOUT COUGHS.

Some Reliable Local Advice.  
"In conducting a large drug business we are called to meet a great many people at this season of the year who suffer from coughs, colds and bronchial troubles.

"As these troubles are easily controlled if the right means is taken to cure them, we want to say to the people of Henderson that we guarantee our cod liver preparation, Vinol, will cure hanging-colds, stubborn coughs, bronchial and lung troubles quicker than any preparation we have ever sold.

"This is because Vinol contains no oil or grease to clog the system and upset the stomach, yet it does contain every one of the fifty odd medicinal curative elements actually taken from fresh cod livers, with tonic iron added. Vinol is not a patent medicine; and you know what you are taking, so without reservation we recommend Vinol to cure coughs, colds, bronchial troubles, influenza, with tonic iron added. Prof. DeMotte's Lecture.  
A large, cultured and appreciative audience heard Prof. John B. DeMotte's lecture, "The Harp of the Senses; or Secret of Character Building," at Cooper Opera House Monday night. It was out of the usual order, unique in character, and highly interesting and instructive. By means of illustrations and practical demonstrations the language and meaning of the speaker were given emphasis and a clearer understanding and he had the eyes and ears of the audience throughout the hour and forty minutes that he claimed their attention. It was a fine entertainment, wholesome, instructive, helpful. Prof. DeMotte sustained his high reputation as a popular lecturer and made the audience debtors to him Monday night. He is a speaker who has a message worth while.

The work of the orphan's homes of North Carolina is regarded highly by our people, and these institutions are worthy of our heartfelt support. We can see something of the good they are accomplishing, but the far-reaching, overwinding influence of their work we are not now able to fully know and measure. They are being greatly used of God in the betterment of lives, in the salvation of souls.

Thanksgiving Day has been adopted by our people as a time of special effort for aid and gifts to the orphanages of the State. Can we in a better, more fitting way express our gratitude to the Giver of all good than by helping in the care and equipment for life of these homeless children? Such a method of expressing our thanks to God appeals to us, and surely, it is pleasing to God.

The aid received by the orphan's homes of North Carolina at Thanks-giving is a factor in the maintenance and improvement of their work. May the observance of Thanksgiving Day this year be a greater means of honoring God and blessing mankind.

I have so very many dear little children to give presents to, and so many loving relatives and kind friends, that must be remembered on this best and brightest day of all the year, Christmas. So, remembering this and knowing that you confine your stock to 5, 10 and 25 cent goods, and do not sell any article for over 25 cents though some are worth even twice as much. Knowing all of this has influenced me in naming your place as my Head Quarters for Henderson, N. C. You are at liberty to publish this letter and in fact I will thank you to do so, so that all the people will know.

### Slight Injustice to Mr. Houghtaling.

In writing last week about the votes received by the various candidates at the recent election an error was inadvertently made by which a slight injustice was done Mr. George Houghtaling, candidate for Clerk of the Superior Court, by saying that he received the lowest vote on the Republican ticket—61 less than Joshua T. Barnes, for Treasurer. George T. Aycock, Jr., for Register of Deeds, received the lowest vote, 339, whereas Mr. Houghtaling received 372, or 35 more than Aycock. The error was not affected one way or the other but we want to keep history straight and give each man credit for the full strength and relative position to which his vote entitles him.

We had not noticed the error until Col. Henry Perry, Mr. Houghtaling's opponent for the office, called our attention to it.
