### SOUTHERN'S NEW PRESIDENT.

W. W. Finley was on yesterday elected president of the Southern Railway Company, to succeed the late Samuel Spencer. Mr. Finley was second vice-president and Lasselection is regarded as a most excellent one.

Col. A. B. Andrews, first vice-president, was offered the place but he declined to accept it. The condition of his health is such that he thought it would be practically suicidal on his part to assume such great responsibilities, and he preferred for the mantle of President Spencer to fall upon other and younger shoulders. But the supposition is that Col. Andrews' great love for North Carolina had much to lo with his decision in declining the honor. He does not want any position that would require him to make his residence outside of the

### TAX THE DOGS.

The following petition is being cir-

culated in Cabarrus county: "We, the undersigned citizens of Cabarrus county, do hereby request our members of the Legislature of North Carolina, now in session, to pass a law taxing each dog in said county one dollar and each female dog two dollars, the money arising from this tax to go into the School Fund of Cabarrus county; puppies under six months old to be exempted from this tax.'

An effort has been made at the meeting of each session of the Legislature for years to get a dog tax law passed, but it fails. The politicians are afraid of the dogs-or those who own them-and the mangy, sheepkilling cur, the suck-egg hound, and the premise-prowling mongrel remain

### GARRETT TAKES CHARGE.

### Compliment to Col. Andrews.

Charlotte Observer

The report is that Col. A. B. Andrews has been offered the presidency of the Southern Railway Company and has declined it. The latter statement is as grievous as the first is pleasing. By reason of his deservedly high railroad connection for many yeurs, Col. Andrews has done inestimably for North Carolina. He is proud of and fond of the State of his birth, and it would not be a gross exaggeration to say that no citizen has done more for it in accomplishment of practical results. If he were the president of the Southern he would do yet more for his State, and the Observer is sorry that he could not see his way clear to accept the honor and responsibilities of the position said to have been tendered him.

### Race Question in the North.

Richmond News-Leader.

"We believe," says the Washington Herald, "that the North and South are slowly but steadily approaching common ground on the race queston." The Herald is correct, and that common ground is agreement that the best interests of both races and of the country lie in getting the negro out of politics. The South has already reached that conclusion, and is acting upon it, and every-where in the North that the negro is proving an appreciable numerical element of the population there are evidences of a swing to the same conviction. And, interestingly enough, the wheel of reaction on the negro question seems in trending to the full circle to be turning the most rapidly in erstwhile especially intense negro-pholistic communities—Philadelphia, for example.

### Japan's Ambitious Purpose.

Richmond News-Leader.

The announcement that the Yalu river is to be bridged at Tongam-Pho by the Japanese, for the purpose of establishing direct railway connection between Fusan, the Corean port nearest to Japan, and Mukden, the capital city of Manchuria, is another straw showing the set of the wind of Japanese ambition and purpose. It means that although Japan may doubtless keep her pledge of an "open door" regarding Manchuria, she is going to strengthen her grip upon the territory to the end of its final absorption, and the establishment of another coign of vantage from which to dominate China. The game she started when she entered upon war with Russia is not ended yet, so far as paving the way for her territorial expansion is concerned. Korea is but a stepping stone on the calcula-
