

THE GOLD LEAF.

ESTABLISHED 1881.

—BY— THAD R. MANNING.

THURSDAY, MARCH 28, 1907.

When the esteemed Mr. Douglass, of Wake, announced during his campaign for the Legislature last fall, that he was going to amend or repeal the newspaper libel law, the Landmark informed him he would do no such thing. In the House Wednesday of last week the bill to repeal the law was tabled.—Statesville Landmark.

Yet it was no fault of Mr. Douglass that his bill did not become a law. He introduced it but lacked the influence to get it through. Regarding the Durham Herald saying the trusts bought up enough Democratic newspapers to make a good showing, and the Reflector's comment therein, that paper says "we didn't see the point." And the Greenville Reflector says "we didn't see the point."

The Herald was indulging in a bit of sarcasm when the "they says" on the subject of a subsidized press, and the Reflector took it seriously. Surprised that so bright a paper didn't "see the point."

How many people in North Carolina know that upon the death of Chief Justice Chase of the federal supreme court, (Chief Justice Pearson, of this State, came near being his successor, that President Grant had actually filled out and signed his commission, but destroyed the same on learning that Mr. Pearson was then sixty-eight years old? This statement is made on "good authority."—Wilmington Messenger.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure—and has been for 20 years. The National Law now requires that all cough cures be put in a package, that it must be printed on the label or package. For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels and none in the medicine. You can see the name on the label. And it's not only safe, but it is said by those who know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks on the label. Always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by Thomas Bros.

The Wilmington Star is a remarkable paper. It has reached the age of forty years without a change in ownership or editorial management, and has only once in its recollection even changed its appearance. Major Bernard says he has joined the "Boys Brigade" and expects to spend many more years in the belt of the oldest daily paper in the State. May it be so.—Greenville Reflector.

In 1897 I had a stomach disease. Some physicians said Dyspepsia, some Consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits, and doctors' prescriptions. I could not digest anything I ate; then I picked up one of our Almanacs and it happened to be my life-saver. I bought a bottle of Kodol and the benefit I received from that bottle all the old in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. My son is five long and prosper."—S. Farnell, Raleigh, N. C. The above is only a sample of the great good that is daily done everywhere by Kodol For Dyspepsia. It is sold here at Parker's Two Drug Stores.

The reason that newspaper advertising is so much better than any other is because that it is definitely recognized everywhere as of right and of merit as absolutely legitimate, an essential part of the newspaper's function as much as the news and editorials, and a commodity as definite and as measurable in value as any other.—Concord Times.

Sparks' Show Made Good.

John H. Sparks' Show gave two splendid performances in Henderson on Friday. Sparks always makes good and the reputation established by the show on previous visits was fully sustained. In fact the show is better this season than usual if anything. They gave a clean, first-class performance—not an inferior act on the entire program—while several very strong features were introduced.

The opening act was leaping and somersaulting from an old fashioned springboard by a portion of the company. This was followed by the inevitable clown song by Billie Reed—above the average—who did much to amuse the crowd by his comic acts and droll sayings between times. Taking the program somewhat in the order in which they came those deserving of special mention were the Elliotts on the triple bars; slack wire, Alton; balancing trapeze, Mlle. Viola; flying rings, Miss Lizzie Elliott; double trapeze, Kadell sisters; Millette troupe of acrobats; head balancing trapeze, Alton; single trapeze, Mlle. Zou; Barbecue, the kicking pony; elephant Mary and baby; the educated ponies; Cyclone, the throwing mule, and last but not least, Al Heine, Edgar Berggar, Billy Reed and Bert Cole, the "old clowns."

It was a good show throughout and the universal verdict was that Sparks gave his patrons a square deal. The people connected with the show from the management down were quiet and courteous in their conduct, free from the rough element and graft characteristic of so many organizations of the kind—a fact upon which Mr. Sparks prides himself. Press Agent Shlay writes cleverly and with a friendly hand himself and his show of all with whom he came in contact. Mrs. D. C. Loughlin and her son Mr. Charlie Loughlin, (professionally the Castellis) joined the show here and it is safe to say that their great handbook riding acts will be surpassed by no artists with any circus this season. Master Edward Loughlin, familiarly known among his chums as "Scrubby," accompanied his mother and all will be assigned a part to ride one of the ponies.

KODOL digests what you eat and quickly overcomes indigestion, which is a forerunner of Dyspepsia. It is made in strict conformity to the National Pure Food and Drugs Law and is sold on a guarantee. Sold at Parker's Two Drug Stores.

Who is the Author?

To the Editor: I found this little piece of poetry in a book. It was credited to Sidney Lanier, but I do not find it in the latest edition of his poems. Prof. Mims, his biographer, says Lanier did not write it. Can any of your readers tell who is its author? It's so optimistic as to be worth committing to memory.

Vision.

"It isn't raining rain to me. It's raining daffodils. In every dimpled drop I see flowers on the distant hills. The murky clouds engulf the day. And overhelm the town. It isn't raining rain to me. It's raining roses down. It isn't raining rain to me. But fields of clover bloom. Where every locust blossoms. May find a bed and rooms. A health unto the happy. And a fig to him who frets. It's raining violets."

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.
