

THE GOLD LEAF.

THURSDAY, JULY 4, 1907.

Judge Brewer Commends Us.

Charlotte Observer.

We have great pleasure in printing this morning the address delivered by Justice Brewer, of the Supreme Court of the United States, at the recent peace conference at Lake Mohawk, New York. While his theme was international peace, it took occasion to discuss the power of public opinion and incidentally the North Carolina-South Dakota bond transaction paying handsome tribute, which was handsomely applauded, to the integrity of North Carolina as exhibited in the matter.

This is most agreeable. If the value of such commendation as this from such a source could be measured, it would be a pleasure capital to which we have in printing them.

The National Editorial Association did well in electing as its president Mr. Henry B. Warner, editor and publisher of the Lexington Herald. Mr. Warner has built up one of the most successful newspapers to be found in the local weekly field anywhere, and the honor comes as a fitting recognition of solid achievement.

Honors Paid Abroad to Mark Twain.

Richmond News Leader.

Everybody in this country will be pleased by the unexpected and royal honors of which Mark Twain is the recipient in England. It is pleasant to see royally do itself credit by helping to pay tribute to a fine intellect and a beautiful character.

Mr. Clemens is one successful author against whom no voice of scorn or envy is raised. Not only is he the most delightful of all our humorists but he is a man who has lived the life of a typical American good citizen.

He has never figured in any divorce suits or scandals, when he lost his fortune he went to work like a man, made another by his own labor and paid his debts dollar for dollar. He has been a faithful, devoted and tender husband and father, has not thrust himself before the public, has not found it necessary to abuse the Almighty, has not attempted to be sensational, violent or revolutionary on one side or rigidly straight-laced, arrogant, or ultra-conservative on the other.

He has used his talents to make many millions of hours pleasant, to give many millions of hearty laughs, to appeal to kindly and honest sentiment, has avoided that fatality of the big head and has not posed. Therefore, he has come to an old age where he can rest or work as he likes, enjoy his own genial life and feel that he has the honor and respect of the reading people of the whole world.

Long Live The King!

Richmond Times-Dispatch.

It is the popular cry throughout European countries, which in America, the cry of the present day is "Long live the King's New Discovery, King of Throat and Lung Remedies," of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold."

Virginia Women.

Richmond Times-Dispatch.

Remembering the mad rush of New York women to secure cards admitting them to a famous murder trial a few months ago, Northern newspapers have already directed attention to the fact—which seems remarkable to them—that not a single woman entered the court room at Houston, where a case of similar importance in this State was being heard.

The women of Virginia, thank God, are not depraved. Their modesty and sense of decency make them shudder at the thought of piling into a crowded court room. Their attitude, moreover, in this matter is so natural and so thoroughly typical of all that is true of the Old Dominion that we might eliminate all reference to it, except to remind the newspapers of the North that there is no justification for the delightful feeling of surprise.

The South Needs Her Young Men.

Richmond Evening Times.

The Nashville Tennessean, a new paper that appears to be very ably edited, has the following to say about what it aptly calls a "Mixed Color Scheme in Civil Service Jobs." "The fight between white and colored druggists in the Treasury Department at Washington a few days ago is Southern news."

As the president and his commissioner, Mr. Mellenny, both know, the reasons that have kept Southern men to a large extent from applying for these Washington jobs are still operative, and are likely to continue so. The mixed color scheme of Washington Government offices is not agreeable to Southern tastes.

The Secretary of War, in a letter to the President, has expressed his regret that he cannot do better in some line of work at home where he is known than he can by becoming a machine to do routine work of clerical character. At least we believe that to be true in most cases.

Senator Knox Preaches Democratic Doctrine. Charlotte Observer.

The address of Senator Knox, of Pennsylvania, before the graduating class of the Yale law school, was the subject of wide comment, nearly all of it favorable. Senator Knox is at least a receptive if not an active candidate for President and his protest against unwarranted extension of the Federal Reserve act is a just protest.

Neglecting Corn to Work Cotton.

Southern Cultivator.

We do not want to complain too much, but from all we can see and hear, farmers are neglecting their corn to work their cotton. As cotton is late and the money must come from the cotton crop, we cannot expect things to be different.

Nearly all old-fashioned Cough Syrups are constipating, especially those that contain opiates. They don't act just right. Kennedy's Laxative Cough Syrup contains no opiates. It drives the cold out of the system by gently moving the bowels.

The South's Educational Part by the Negro.

Charlotte Chronicle.

The Chronicle makes it a rule to go through all the public documents it gets from Washington before stacking them handy to the man in the boiler room, and it seldom fails to be rewarded, through the matter having to do with the census is deplorable in the past. The report of the Commissioners of Education contains figures enough to set up all the country statements in North Carolina, and half of South Carolina, but is brought up only to 1905.

A Porter of Henderson Cured of Dyspepsia and Headache.

Bakersville Observer.

Any one in this town who is discouraged and sick at heart because of an old-standing stomach trouble may not only read with interest the following letter from one of their neighbors, but may easily investigate and find out the truth of the old adage that "to see is to believe."

I cannot speak too strongly in praise of Dr. Richards Dyspepsia Tablets. I got a bottle of these tablets at Kermer-McNair's store about a month ago and since I began using this medicine I have noticed the most marked improvement in my health. I had been subject to severe attacks of indigestion for about two years and have tried most every remedy I heard of. Everything I ate seemed to distress me, my appetite was very poor and I suffered greatly from dizziness and fainting. I think I used to have the worst headaches of anybody that ever lived. I can truthfully say that after taking three bottles of Dr. Richards Dyspepsia Tablets I am entirely relieved of all my troubles and shall take pleasure in speaking to my friends about this splendid remedy.

Makes the Better Showing, Indeed.

Richmond News Leader.

In an address he recently delivered at Lake Mohawk, N. Y., Mr. Justice Brewer, of the Supreme Court of the United States, took occasion to commend the old North State for her honorable action in the South Dakota-North Carolina bond matter.

In truth was North Carolina's conduct far above that of South Dakota. The course of the latter in lending herself to the transaction was disgraceful. It involved committing to an outrageous fraud and playing into the hands of the stock jobbers to coerce a sovereign State and squeeze out of the people thereof money which did not repay itself.

Was in Poor Health for Years.

Ira W. Kelley, Mansfield, Pa., writes:

I was in poor health for two years, suffering from kidney and bladder troubles, and considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others. Refuse substitutes. For sale at Parker's Two Drug Stores.

A Henderson Printer No Longer Has Headaches Every Week. Why?

Charlotte Observer.

No person is so miserable as a victim of nervous indigestion. The practical, sensible remedy for such a condition is to give the stomach digestive assistance. For this purpose there is nothing superior to Dr. Richards Dyspepsia Tablets. These time-tested tablets are prepared with a view to their digestive and mildly tonic properties and nothing else.

A Just Grievance.

Salisbury Post.

The Retail Merchants' Association of North Carolina is rendering the whole public a service when it proposes to know from the courts why discrimination in freight charges against North Carolina prevails.

The Efficient Engineer of Henderson's Water Works Tells in Well Chosen Words What Cured Him of Bad Stomach Troubles.

Bakersville Observer.

Good digestion is not what every one has. Some have mighty poor digestion and would give anything to have the digestion that youth usually possesses. It can be gotten. There is a drug store in Henderson the Mecca of all Dyspeptics and stomach sufferers in the city, because it has on sale a remedy tried and true, the finished product of thought and experiment, which cures all such ailments. It is called Dr. Richards Dyspepsia Tablets.

1858 Was Like This Year.

Bohannon (Texas) News.

Colonel Lamar Fontaine, in the Delta Register, says that in looking over some old plantation records of his country he finds the weather of the present year, 1907, thus far to be exactly like that of the year 1858. The spring of 1858 was almost an exact counterpart of what we are now having. Cotton was replanted several times up to and including June.

Cotton Seed and Cotton Stalk.

Wilmington Messenger.

Again parties have come to the front with the claim that they have invented a machine which will prepare cotton stalks for print paper manufacture. The inventors of this time are two men of Gaffney, S. C. They claim to have a machine which will strip the bark from the stalk and make a paper pulp out of the latter.

Keep it to Yourself.

Richmond News Leader.

You have trouble, your feelings are injured, your husband is unkind, your wife frets, your home is not pleasant, your friends do not treat you fairly, and things in general move unpleasantly. Well what of it? Keep it to yourself. A smouldering fire can be found and extinguished, but when coals are scattered you can't pick them up. Bury your sorrow. The place for sad and disgusting things is under the ground.

The Farm Garden.

Richmond News Leader.

Too many farmers think they do not have time to bother with so small a thing as a garden. The women and children manage to get the seed sown, but the task of keeping it clean is too much for them, and long before fall the garden is a waving patch of weeds. It is a mistake to think of the garden as a small thing for if properly managed it will furnish half the living for the family during the summer months.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless healed, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound.

keeps the feminine organism in strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the change of life it is most efficient.

Mrs. Augusta Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides. I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly.
