A Roller Cotton Gin.

English Inventor Visits North Carolina for the Purpose of Giving a Roller Gin a Practical Test on Short Staple Cotton-What the Machine is Like.

Thinkin' o' mother at home was the reason I went shead, Facin' the world again, no matter what

Mr. James Hodgkinson, of Manchester, England, is a guest at the Selwyn, Mr. Hodgkinson is a prominent English cotton manufacturer and inventor and is here for the purpose of superintending the erection of one of his special patent roller cotton gins. The gin is at the plant of the Southern Cotton Oil Company, south of the city, and is a novel machine. It differs from the saw gin which cuts the lint away from the seed and from the combing gin which nothing combs the fibre from the seed in that it simply twists the lint away from the seed. The machine consists of a To just keep thinkin' o' mother, and I guess large cylinder covered with a leathercloth band through which project come into play until the knife presses the cotton against the leather belting. The leather cushion then gives way, the lint passes through and the To its friends who gathered at the seed is left behind and cast aside.
