High Praise for How.

The Baltimore Sun of recent date said that of Lyman H. Howe's moving pictures, which will be seen here at the Grand Theatre on next Wednesday night, Sept. 18th. The four weeks engagement of Lyman H. Howe's moving pictures is drawing to a close, and it has been one remarkable success. Despite the rains, or shine, the attendance filled the theatre noticeably out of the ordinary. There were many in attendance who, perhaps through their religious scruples were not entering a theatre on any other occasion. The audience were mostly of an intellectual element. Many of the pictures were highly instructive as many views and scenes in foreign lands were thrown on the canvas. Some of the great racing events in France and England as well as historical events, were shown. The moving pictures as presented by Lyman H. Howe, are a worthy successor of the famous Stoddard lectures.

Healthily kidneys filter the impurities from the blood; and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Parker's Two Drug Stores.

Mr. Frank Robards has been elected teller of the First National Bank to succeed the late Mr. E. R. Haskins. Mr. Robards has been employed in the National Bank of New Bern the past two years and is well qualified for the duties he assumes. He is a Henderson boy and his friends welcome his return.

Mr. and Mrs. I. C. Rowland, Mr. and Mrs. J. R. Rankin and Mrs. R. C. Craven returned last week from a delightful trip to Washington City and the Jamestown Exposition. In Norfolk they were joined by Mrs. Craven's brother and sister, Mr. and Mrs. Sparger, of Mount Airy, adding much to the enjoyment of the party.

Mr. John B. Watkins took his daughter, Miss Lizzie, to Red Springs Monday to place her in school. Miss Fannie McIntyre who will also attend school there, went last week to spend a few days visiting before school opened. Both these young ladies graduated from the High School department of the Henderson Graded School last session.

Mr. S. W. Kittle of Stoneville, Miss., who has been here visiting his sister, Mr. L. C. Kerner, since North Carolina week at the Jamestown Exposition, returned to his home last week. A North Carolinian himself Mr. Kittle came for the double purpose of helping to observe this occasion and to visit relatives and friends whom he had not seen for some time.

Mr. Kenneth Urquhart who has been suffering greatly for months from the effects of a dislocated rib which pressed upon the heart, has been taken to the hospital at Lynchburg for treatment. His father came from Robeson county to accompany him. Lynchburg being Mr. Urquhart's home he preferred to be taken there to be operated on.

Master Thad Mangum who came here with his father from the Jamestown Exposition North Carolina week, has gone back to Scotland Neck to attend the Graded School of which his uncle, Prof. C. W. Wilson, is superintendent. He has been there about three years and this was the first time he had been to Henderson since he left, and so much has he grown that his little friends scarcely recognized him.

Operated on for Appendicitis.

Mr. Joe D. Stone was operated on for appendicitis in Norfolk last Thursday night. He had been sick two or three days when Dr. Gill saw him and he advised that he go to the hospital and be operated on. The operation was performed immediately after his arrival at the hospital and the doctors stated that further delay would have been fatal. The young man was getting on very well at last accounts. Mr. Stone was clerk at Massenburg's Hotel at one time, and he has many friends in Henderson who hope he will soon be well again.

Boards Wanted.

Mrs. Hunter Dunn desires to announce that she has moved to Mrs. Phelps' residence on Breckenridge street and will take boarders. Convenient to business.

Prompter Fire Service.

The town has made a move toward a more efficient fire department. Mr. John Payne has been employed to stay on duty day and night to respond to alarms and get out the hose wagon. One of the rooms on the second floor of the Harris law building has been rented for his use and fitted up with pump and telephone. He will have a charge of horse, wagon and all the equipment and be driver. This will greatly facilitate matters in getting to the scene of fire more promptly than when the fire men had to go from their respective places of business or sleeping rooms to the stable, hitch up and then go to the fire. But they have done good service, as have the colored firemen, who have no horse, and the GOLD LEAF is not reflecting on them in mentioning the quicker service which it is hoped to secure.

Rev. A. R. Shaw.

From the Charlotte Presbyterian Standard of Sept. 4th, we take the following which will be read with interest by Mr. Shaw's friends in Henderson, who he formerly lived. Rev. A. R. Shaw has returned from his pulpit last Sunday. The Evening Chronicle of the city paid him and his work this handsome compliment last Thursday: "Rev. A. R. Shaw, pastor of Tenth Avenue Presbyterian church, has been in the city for the past three weeks enjoying a well earned vacation and rest from pastoral work. He will return to the city in a few days and take up his work with renewed vigor. His influence for good is by no means confined to his own congregation, but is recognized in the entire community. The distinction which Mr. Shaw enjoys of being the pastor of a city church in which there is not a member, so far as he knows, who violates the law of the church by indulgence in any of the prohibited worldly amusements, is unique and has been commended upon with interest by pastors and church members throughout the State."

Classes in Music.

I will resume my classes in music the second Monday in September. Lessons given either at my home or residence of pupil as preferred. Instruction limited to piano. Terms reasonable. MISS MAY BECK.

Remodeling and Improving Residence.

Mr. A. C. Zollcoffer is preparing to have some extensive changes made in his residence on Young street in the way of remodeling and improving same. The first move was to raise the house, chimneys and all, about three feet making it something like five feet above the ground. This for the double purpose of digging a basement for putting in a heating plant and to enhance the general beauty and symmetry of the building with its additions. Capt. O. R. Smith did the work of raising the building, which is to say that the difficult task was successfully performed. He had 46jack screws under it and with these operated in unison Capt. Smith decreased there was a variation of one-eighth of an inch in the level, front, back and sides. This by actual test with his instruments, not any guess work about it he says. And when the under pinning is done as he does it, with rock, brick and slate, nothing to swell, shrink, decay or give way, the walls will not settle, cracking of the walls any more than there was when it was first built. When this done the work of tearing down, remodeling and enlarging will be begun. The plans show that the improvements contemplated by Mr. Zollcoffer will make his already lovely home one of the handsomest and most modern residences in town.

He brought his cutter, fitter and designer with him direct from Schloss Brothers & Company's great Baltimore house, together with a full line of samples—and it is safe to say that no finer line has ever been shown here. Mr. Charles Framme, an expert cutter and fitter, took the measure, and that is to say there will be no "missfits." A Twentieth Century Exhibition.

The announcement that Lyman H. Howe is coming again with his great moving picture show will give pleasure to his hundreds of patrons among old and young in Henderson. We all know what to expect when Mr. Howe comes around. Lyman H. Howe is beyond dispute, the most famous exhibitor of moving pictures in the world today. For many years his exhibitions have been an unending source of pleasure and profit to many thousands throughout the entire United States. The secret of his success is no mystery. Added to his rare faculty of selecting only pictures of absorbing interest, is his unusual ability for reproducing them so vividly and graphically that his exhibition is not approached by any other in this country or abroad. He reproduces every scene and event with every detail exactly as it is or happened, so that you virtually see and even hear it yourself. The new program to be shown in Henderson next Monday evening, Sept. 15th, comprises just those living, vital things in which we are all most interested at this moment. It is far excellence the exhibition of today—of this twentieth century. At a trifling cost you may see that which cost Mr. Howe many years of experience of travel of the most expensive kind over land and sea; of untold difficulties. To see his new program is the easiest and cheapest way to enjoy only the pleasure and information derived from thousands of miles of travel to far off places and among strange peoples. All is reproduced so that the illusion of real travel is created to perfection. Every picture rivets the attention from the start, and by its interest grips the spectator with realism that leaves nothing to be desired. The program combines amusement, instruction, humor and history in a way that only a specialist with that wide and sure knowledge, born only of experience, could vouch safe the public. It is the easiest—and cheapest—way to enjoy the same pleasure and derive the same knowledge that comes to the traveler only after incurring the most expensive expenses.

Graded School Opening.

The Graded Schools opened Monday. The attendance so far is about the same as last year. The central school shows an enrollment of something like 350 and the other schools will probably show a slight increase, bringing the total enrollment for white and colored in the neighborhood of 800.

There has been but little change in the teaching force. Miss Graeber, teacher in the seventh grade, did not return. She was employed in the Concord schools—her home town—and accepted work there. Miss May R. Thomas of Griffin, Ga., was elected in Miss Graeber's place.

Miss Hattie McIntyre will assist Mrs. Horner at the South Henderson school. The work starts off well and Superintendent Alderman and the trustees are much encouraged at the outlook and lively interest manifested by parents and pupils.
