Success Magazine.

We are publishing in another co umn a small advertisement to which we have special pleasure in calling attention because of the merit of the article concerned. Local representative for Henderson and vicinity is wanted to look after renewals and increase subscription list of a promi nent monthly magazine, on a salary and commission basis. Experience desirable, but not necessary. The Success Magazine is the publication in question, and it ought to be easy toget subscriptions to such a publication. We get and read Success Magazine regularly and we regard it as one of the very best publications we those of any other publication in this country, are alone worth the price of subscription-\$1.00 a year. Then there is a vast amount of other matter-original articles by special writers-experts in their line-which go to make up a splendid publica-tion, full of timely and helpful read-

Any bright and active young man or woman ought to find profitable employment soliciting subscriptions for Success Magazine.

Editor's Holy of Holies.

In an address delivered at the last meeting of the North Carolina Press Association, Mr. Archibald Johnson editor of Charity and Children, made some remarks that not only news paper men, but readers of the paper should take into account. He said

"The editorial page is the editor's holy of holies. He should shut th door and bolt it on any intruder, no matter how distinguished or capable. It is his domain and his alone. Others may be able to write more fluently and more forcibly than he, but the have no business within the sacred precincts he has builded for himself. This is not egotism. It is not that the editor thinks himself better than others, or that his readers are more those of other people, but it is his a newspaper that gives it tone and ding day. standing. Into the editorial columns the editor pours his blood-his life. It is his picture stamped upon the page. It may not be beautiful, but it is his, nevertheless, and not somebody ele's. If he is fit to run a newspaper he is able to express himself day by day, week by week or month by month in the space reserved for this purpose; if he find that he caunot fill this space he should consider it a call to vacate and let somebody ascend the throne who can wield the

"Again a good deal has been said about the importance of keeping the local columns full and this is importnat, but by no means the most important, thing in the making of a paper. A certain class of readers do estimate the value of a paper by its capacity for gossip, but the people who set the standard are not of this

"They demand character first and news next. I can point to newspapers in North Carolina today, weekly or semi-weekly papers that stand at the very forefront of North Carolina journalism because of their convictions which they are not afraid to express and maintain. Who are the men in your neighborhood who are the moulders of public sentiment and the effective forces in public matters? They are the men who believe something and not the cabbage heads who follow others. It is precisely so with the newspapers. The local items are weakened by compliment. They are never taken seriously because they help. Every bride is beautiful and every bridegroom is prominent and prosperous; every man who dies, especially if he leaves a good estate, was a public benefactor and a patriot; every new born baby is a cherub; every spinster is a peach. These things have depleted the local columns of their vigor and the claims of this department upon the serious attention of the public are discredited. But the editorial column stands without suspicion and without disparagement. If the editor is a man what he says is accepted and believed. He is a preacher, educator, statessceptre over the widest domain in all the world. He may become a mighty force for every worthy cause, if he will; and it should be his highest ambination to fill the largest possible place in the life of his community. His opportunity for doing good to his rich reward. A record of helpfulness to others is better than a fortune piled about one's feet. Henry Grady is remembered not for the money he made for "literally loving the nation into peace.

Look at Expenses.

No young man starting out for himself being dependent upon his own exertions can afford unnecessary expenses, says an exchange. He must deny himself extras or always remain poor. Even a five cent one of the best families, his father being turned to tell him of their cures. one year, and one who saves that sum will be much ahead of the one who spends it. And the habit of saving will be worth everything. If he saves \$18.25 each year, only putting it at six per cent. simple interest, it would in twenty years amount to \$570. So much for one little trifle of indulgence. He who would in a few years be independent, and not envy the "capitalist" must start right.

cotland Neck, Commonwealth, Oct. 24th. For several days much interest has been centered in the wedding of the popular young couple, Miss Ethel Dunn and Mr. James Harper Alexander, which took place at three o'clock Tuesday afternoon at the Baptist church.

Long before the appointed time the church was filled with friends and relatives of the young couple, gathered there to witness the plighting of their vows of

The church, under the skilled direction and artistic work of Mesdames G. Hoffman and W. H. White, was beautifully et simply decorated. Before the arrival of the brial party, Mrs. Raymond Dunn of Enfield, very charmingly sang, "O Perfect Love." Promptly at the ap-pointed hour, the strains of the wedding march pealed forth.

First came the ushers, Messrs. Frank Smith and Chas. Lamb. Then little Misses Dorothy Dunn and Mary Lamb entered, each carrying a white satin pillow which they placed on the altar steps. Next came the little flower girl and ring bearer, little Misses Sue Dunn and Frances White. These little maids were daintily dressed in white dresses with pink ribbons. The bridesmaids were Misses Anna Kitchin and Annie Alexander, sister of the groom.

They were levely dresses of white silk with pink satin girdles, and carried each an armful of pink carnations and ferns. The groomsmen were Messrs. Joseph Cotton and Chas. Shields. The maid of honor, Miss Sallie Dunn, entered alone, wearing a dainty dress of white net over pink silk, elaborately trimmed in mechlin lace, with pink satin girdle and pink ribbon in her hair. She carried pink carnations and ferns. The bride entered on the arm of her uncle, Mr. S. A. Dunn, where they were met at the altar by the groom attended by the best man, Mr. Hugh John-

Employes Responsible for Much of the Prejudice Against Railroads.

There is no doubt at all that a great deal of the prejudice of the public against railroads is due to the treatment of the public by the employes of the roads. The average citizen doesn't know and doesn't care anything about watered stocks and such like, but he is mighty well informed as to what sort of treatment he should have when he goes after a wagon load of freight or when he buys a ticket or when he gets on a train and some little irregularity with the company's rules arises to plague him. This is the most important lesson for railroad men to learn: Treat people white, Then there will be better feeling, less damage suits and smaller verdicts. Juries are made up in freight rooms, at ticket windows and on trains.

"The most valuable asset in our National life are the people who live on the small farms in the country. So says Mr. Roosevelt, and so saying speaks the exact truth, and while talking of waterways, Mr. President, don't forget the farmers' public highways.—Farmville (Va.) Herald.
