We have in our city a clever old time 'cullud gemman' who has been married five and a half times, (as he puts it.) In the year 1865 "Uncle Henry" Gregory was married to Nancy Moss. Id 1879 he was married to Sue Bullock. In 1889 he was married to Phoebe Young. In 1893 he was married to Emma Scutherland. In 1907 he was married to Ade line Hunt.

Wife number 4 (Emma Sontherland) went off with a "Holy" preacher. The half marriage was in this wise: Marguerite Thomas promised to marry 'Uncle Henry" and he, believing that she would be true to her promise, bought the marriage license and bought fine dresses to the amount of \$30,00 for the bride-to-be. "Uncle Henry" employed a minister and gave him the license and explained to him how he had provided Miss Marguerite" with her bridal "trouso." The day arrived for "Uncle Henry" to claim his bride, when lo! and behold! he was informed that the preacher had captured his intended bride.

Local Financial Situation.

The financial stringency throughout the country-which fortunately is now expending itself-has not been seriously felt by the Henderson banks. They have continued to do business as usual without recourse to issuing scrip as has been done elsewhere. Not only have our banks be determined by the votes of their paid out money on their own checks but they have cashed those of other ness as heretofore.

Both the Citizens Bank and the First National Bank have had enough money to meet local demands-double what the law requires, in fact. Another thing we would advise is that people stop talking hard times. Much harm is done in this way. The situation is made worse in times like these by talking hard times. Scared

We believe the worst is over. That the judgment of the ablest financiers and leading bankers of the country, and if we have tided over the worst and the flurry is subsiding there is no cause for further alarm. He owned 500 yards of calico, three pairs of jeans and a half dozen pairs of boots. He called this a dry goods store through a Philadelphia paper, and offered to sell a pair of socks or thirty-seven cents. The don't-be-lieve-in-advertising merchants laughed. Young John spentsixty-five dollars with the Philadelphia Ledger to advertise just one time and had less than \$100 worth of goods. He was cautioned by those who "knew it didn't pay!" It was through sympathy that they offered him advice. But John didn't listen to them, and went and blew his money in foolishly and to-day poor John sees his misdoings—he has so many dry goods stores he can hardly find time to study his Sunday school lesson.
