VOL. XXVII.

HENDERSON, N. C., THURSDAY, FEBRUARY 6, 1908.

NO. 7.

The Story of a Medicine. Its name-"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients - Golden

Seal root. Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure. triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and

dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on Maleria.

Medical who recommend them as the very

Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will, minutes behind time every morning. It will core the affections that lead up to when the whistle blows and not have consumption, if taken in time.

## Straight Fatherly Talk

"For You, Young Man, Not the Other Fellow"-A Few Don'ts Which the Man Who Incorporates in His Rule of Conduct as an Employe Will Find to His Advantage in the Increased Size of His Pay Envelope and the Higher Valuation Placed Upon His Ser-

vices by the "Boss."

By Jno. Anderson-Jane. Recently the superintendent of a arge manufacturing concern had ocasion to call two of his most promsing young men into the office, septrately, and gave to each of them a good calling down.'

His interest in the young men and is interest in the output of his facory were of such a nature that it was is duty to talk to each of them. Each of the young men was greatsurprised at what the superentendent told him. They were not conscious of the fact that they had been guilty of any of the things of which

hey were rebuked. Both of them said to the superinendent: Why, I have not done anyhing like that. And doubtless the onng men were honest, for men rareses their actions as others see

Then the superintendent said to hem: What I am saving I mean for you, not the other fellow. Don't think that you can be five minutes behind time every morning he fact mentally recorded against von by those in authority over you

This means you, young man, not the Don't think that you can contin consly slight any part of your work vithout that slightest part, no mat- Carolina Coast as Winter Resort. er how hidden it may be, being dis overed and traced directly to you. ongfellow said in one of his poems

hat "the gods see everywhere." ov we paraphrase the line and say e inspector sees everything. You a n t do bo ch work and retaiour job, much less your self-respect we other fellow.

un who glues his eyes to his task complain of. It was good, healthy nd does his work in the spirit o' winter weather. ithfulness, integrity and truth

Don't think that you can carous roundall night, overload your stomch with intoxicants, chase the flying urs with nimble feet until 3 o'clock the morning and then show up for n honest day's work at the appointtime, be it 7, 8 or 9 o'clock, as the ise may be. This means you, young an, not the other fellow.

Don't think that you can take the noney that comes to you in your ay envelope and play the ponies, nuffle the cards or bet or the ball ome and pay your legitimate bills with the increase that comes through our skill, or financier your future uck never paid grocery bills promptv, put money away for a rainy day or established an honest and successul business. This means you, young nan, not the other fellow.

Don' think you can trifle with your onscience and bury it beneath any valanche of vice or overload it with xcuses and then have your self-repect and the confidence of the world. it is still cold enough to be bracing For conscience is the most delicate hing in the world, and registers and records every action and thought, and sooner or later will spring its trial salance to your startled vision and write over your life the one word, Failure. This means you, young man,

not the other fellow. Don't think because the other felow has set the callipers for his cirles that they are correct for yours. ers and draw his own circles if he section will build one or more botels more than any other medicine has ever done. This means you, young man, not the ern tourists and the thing will be cure." Mr. Barber refers to DeWitt's Kidney

Don't think that you can cheat, wrong or defraud even the most incont without your act being found bound to come. Nature has done the world. Some people exert themout. For the sands tell the story of her part. She has been lavish in her passing caravans, the snow bears favors and only waits for the man witness to marching feet and straws with means to come to her aid and how which way the wind blows. do his part. Your words may be full of honey, but ou will not be judged by your words, or evermore it is true-actions speak louder than words. This means you, young man, not the other fellow. just remember that Foley's Kidney Cure CASCASWEET, the well known remedy for babies and children, will quiet the little one Worry others and worry you?

young man, not the other fellow. shirk at twenty, a time-server at youd the reach of medicine. Sold at Parker's plainly on the bottle. Contains no opiates. thirty, a watcher of the boss at forty Two Drug Stores. and be a success at fifty, for at fitty a man is the result of his twenties, thirties and forties, and has prepared himself for his sixties, seventies and eighties, if he lives that long. Character is the result of daily action, habit and thought. It is the sum total of every nail driven, every pen scratch made and every thought that has been given its act. This means you, young man, not the other fel-

The man who incorporates these don'ts into his life and abides by them shall find his pay envelope ever bulging out, stand well with his foreman, and finally come to a place of peace and rest, where, with a conscience void offence, he will be able to look every man, his neighbor, his foreman, squarely in the eye and say, I, too, am a man, manly among men. This means you, young man, not the other fellow.

Special Announcement Regarding the

National Pure Food and Drug Law. We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or harmful drugs, and we recommend it as a safe remedy for children and adults. Sold at Parker's Two Drug Stores.

### The Annual Waste.

Enfield Progress.

The sum of money that is annually wasted in Halifax county by the unscientific use of fertilizers would probably stagger belief could it be known Fertilizers are necessary and must be used if a good crop is to be ex-pected—they should be used abund-antly—but far too often it is the case that they are wofully misapplied. Frequently a farmer will Luy "8-2-2" goods, for instance, and use it indiscriminately on all his crops not knowing that one crop may require less ammonia or less potash or less phosporic acid, or more, as the case may be. Frequently, again, be will put the same quantity per acre on all his fields, or most of them without a thought of making changes because of soil peculiarities. One soil have gotten into the habit of buying will be rich in plant-food and will therefore need little fertilization; while another, which happens to be deficient will require two or three times as much.

The farmer who turns his attention to this department of his business (for farming is a business as much as any,) can do so with immense profit to himself, since igno- been able to possess in days past and rance levies an enormous tax. He may be obliged to increase the expense of cultivating some of the land, but on the whole of it he will almost surely be able to reduce the cost, be- Never have they had so many real

To him who cares to learn, the way is open. The national government From these lists, which are sent free charge or for a normal sum of five or ten cents each.

With the help of such knowledge a farmer is enabled to use better methods in fertilization and culivation of crops, thereby reducing expenses while increasing yields. Isn't it worth trying for the 1908 crops?

### Go at it Directly.
