Frog Swallows four Live Biddies.

The Waxhaw Enterprise says that 3 medium sized bullfrog in that community recently swallowed four live little "biddies" all at one meal. The "biddies" belonged to a colored man, who was evidently very much grieved at his loss, for it is a known fact that there is nothing in all the world a colored man is fonder of than chicken, and it must have grieved this particular colored farmer no little to see a frog preying upon his prospects for fried chicken. The frog was discovered one evening near the colored man's house in a much puffed-up condition, and although it is quite natural for a frog to be puffed up at times, this particular frog seemed to be abnormally so, and hence excited suspicion from the start. Hence it was decided to cut him open and ascertain the cause. When this was does not say what further disposition was made of the frog, but the only natural thing for the colored man to have done in order to "even up the score" was to make a meal of
