Fine Watch Repairing!

There are two All-Important Factors in doing
Correct Watch Repairing

First the Knowledge and Then the Skill.

We thoroughly understand the Mechanism and Theory of WATCHES and REPAIRING, and we know just how to handle and repair each part, so as to get the BEST RESULTS.

It is not a question of us "Tinkering" on your Watch until it runs or does not, but WE KNOW what each part needs and what it should do and how to treat them.

We make a specialty of repairing FINE WATCHES, and POSITIVELY GUARANTEE to make them as good as new. We give all branches of the Repair Department Particular Attention.

GEO. E. BISANAR,
JEWELER AND OPTICIAN.

Watch Inspector for Southern Railway.

Scared Into Fits.

And tawling for help, two foolish persons about to lose their all by fire. Don't pity 'em. They've probably sneered at their neighbors for "paying out" an annual premium on a policy for

FIRE INSURANCE

Our scared friends are getting their little lesson as they yell. Too late—till next time. How about YOUR insurance? In force? Note the date of your policy, and DON'T let it lapse. A postal will bring our representative and you lose no time. Be wise to-day—you may be burned out to-morrow.

Clinard and Lyerly.

WANTED.

We want some poles 30 feet in length, 6 inches across at top and as small at the butt as can be—long slim poles for electric wires. They must be cleared free of the bark and delivered in Hickory for which 70 cents a pole will be paid. This is the right time for poplar poles or chestnut oak poles to be cut. A few of them may be only 25 feet. Cut long straight poplar saplings at once, cut the bark off with a draw knife and haul them to us immediately.

THORNTON LIGHT & POWER CO.

CONSUMPTION PREVENTABLE

DISINFECTION IMPORTANT.

Results Obtained in a Large Institution.

The importance of disinfection is shown by the results obtained at the Brooklyn Home for Consumptives, the finest institution of the kind in New York. A letter from the President is quoted:

"We have used Platt's Chlorides in the Brooklyn Home for Consumptives for more than ten years, and find it not only a comfort but a necessity. Through its use we defy 'the germs' to make any inroads on the nurses and employees who are in constant attendance upon the sick, one hundred of whom are now in the institution. One nurse has been there well on to ten years, a second almost as long, and not one person ever employed in the Home has developed lung trouble."—Mrs. S. V. White, President, Kingston Ave., Brooklyn, N. Y.

Platt's Chlorides is an odorless, colorless liquid disinfectant which instantly removes any foul odors and destroys disease-breeding matter. A quart bottle will last an average family a month and it can be obtained at all druggists.

Bribery.

Men who contribute money to buy votes and to bribe the people's representative, as well as those who disburse it, are deadly enemies of the republic. Their greed and love power are greater than their love of country. They impair popular respect for law, which is the only safeguard for life and property; and it will be an evil day for the nation when its preservation depends upon their patriotism and courage. They may masquerade in the garb of righteousness, and address the people in the language of patriotism, but their virtues are assumed; they are hypocrites and assassins of liberty, and would welcome a dynasty rather than shed their blood in defense of popular government.

In and Around Boone.

We have heard that Prof. Lyerly, President of Crescent College, has bought the school property in Blowing Rock known as Skyland Institute. This institution has been under the auspices of the American Missionary Association for about seventeen years. Last year it was closed. Prof. Lyerly expects to reopen it next fall as a co-educational school. The citizens of Blowing Rock will be glad to have the school again, and hope he will be as successful there as he has been at Crescent.

Messrs. William Graybeal and John Harman, of Cove Creek, with their families, have moved to East Tennessee.

A number of people have recently gone from Watauga to Washington and Idaho.

Mr. J. Stewart Greer, a former student of the Appalachian Training School, and now a law student of Chattanooga University, is spending some time with his parents at Todd, Ashe county. Mr. Greer is a promising young man. Last year he won first prize in oratory at Chattanooga University.

Many farmers are making cider for vinegar of their frozen apples, and Mr. Geo. H. Blair has conceived the idea of making into brout the frozen cabbage. He has purchased twenty large barrels for that purpose.

Rev. J. H. Brendall is giving the students of the Appalachian Training School a series of Biblical lectures. They are very instructive, and we are sure the students are being benefitted.

The school is continually growing, and applications for catalogues are being received all the time.

It's only a question now as to how much the majority will be in Catawba county. But keep working boys and pile her up.

Hickory needs an Auditorium that will seat from three to five thousand people. Glena or Aycock either would fill it with a single appointment.

They Stand Alone.

Standing out in bold relief, all alone, and as a conscientious example of open frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all uterine affections, whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, trachea, or other mucous passages, also an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a ledge of honesty in the full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because their ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized cases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly composed of glyceric extracts of the roots of native American forest plants. They are safe and sound for the cure of most lingering chronic diseases. Dr. J. C. Hecox, a Dr. constable, a physician, by publishing him at Buffalo, N. Y., and all communications are received. It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One triple dose is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Granite Falls Items.

We have a few items that might be of interest to the readers of the good old Democrat.

We had a rousing good speech from Governor Glenn Monday in which he preached Democracy from away back and he presented such truths as ought to make converts of all Republicans. We had a crowd estimated at 500. And they say Democracy is dead. But Old Caldwell county, if we are to judge by the prospects at present, will be Democratic after the 6th of November. Editor Holbrook and Hon. M. H. Yount came over with the Governor from Hickory.

Rev. H. W. Hawkins is here with his tent, but it rained him out last week.

Mr. and Mrs. Holderly, pastor of the Wesleyan church here will join the M. E. church South in a short time so reported on good authority.

S. V. Starnes fell off his barn which he was building last week and broke three ribs, and there was other injury, but he is doing as well as could be expected.

Mr. J. A. Turnmire has resigned his position as foreman for the Dudley Lumber Co., and will move to Drexel where he has a similar position.

The Dudley Lumber Co., is preparing to build a cotton mill at Dudley Shoals to be run by electricity developed by the power on the shoals and at the Shell place.

Lieut. Tom Mott, who has been here with Mrs. Mott, in attendance on the sick bed of Mr. W. H. Ellis, went down to Statesville Tuesday.

We Are Strictly up to the Minute

From the fact that in addition to keeping the finest line of staple and fancy groceries to be found on the market, we also run a
